## life's about choices

You **need** specialist products. You **want** choice, style and value. Welcome to AKW.

We're all different, with different needs. But there's something we all want: and that's choice in life. And that's exactly what we offer you.

As the UK market leader in showering, daily living and kitchen solutions for people with mobility needs, we've listened to our customers and we're passionate about giving them what they want: high quality products that meet practical requirements, offer the widest possible choice and help people create living spaces which give them quality of life.

**We believe real choice is a big stepping stone towards having a good quality of life.**

We have 30 years' experience, over 4000 product lines, covering everything from wet rooms, shower enclosures and kitchens, to grab rails and mobility ramps. They're available in a wide range of sizes, styles, colours and accessories too. You'll find them all in our 2011/12 catalogue – or why not visit us in our showroom in the Head Office in Droitwich, Worcestershire. Here, you can see the products and even try them out in a variety of domestic and healthcare settings.

Choice, competitive pricing and first-class customer service all make AKW the first choice for all your showering and daily living needs.

AKW is the trading name of DLP Limited.

### Showroom

You can view many of our products which are on display at our West Midlands Head Office. Please call customer services to arrange a visit.

### Customer services

A friendly team is on hand from 8am-5pm Monday-Friday  
01905 823299

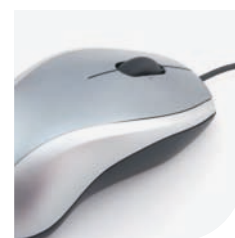

### Ordering

### Order forms

You can download them 24/7 on our website [www.akw-medicare.co.uk](http://www.akw-medicare.co.uk)

### Technical help line

Something specific you need to know about our products? Call our expert team  
01905 823299

### Next day delivery

Provided you order by 2pm, it'll be with you the next working day.

### Installation instructions

Our products are easy to install and our instructions are easy to access. They're all online. [www.akw-medicare.co.uk](http://www.akw-medicare.co.uk) (Register in Technical Login)

### Customer service

At AKW, we don't just pride ourselves on choice and value, we're just as committed to delivering first class customer care – and that includes friendly teams, expert advice and rapid delivery (we've got a huge stock and an excellent distribution network that covers the whole country). Ordering is easy. You can phone, fax or email us and provided you place your order by 2pm, we'll deliver it the next working day. You'll find all the numbers and details on this page.

Our knowledgeable and highly trained teams are here to make sure you don't just make the best choice, but also the right choice. Just call our customer services or technical helpline whenever you need, and we'll be able to help.

## Product quality

AKW is certified with ISO 9001 Quality Management and ISO 14001 Environmental Management accreditations which provide assurance for the manufacturing quality. In addition to rigorous testing all our products are also:

- Quality checked at all stages of the production
- Inspected prior to packaging
- Wrapped up securely to reach customer in perfect condition

## Innovation

We're always looking to add features which add value to our products

- All products are specifically designed to cater for mobility and care markets
- Product development process involves specifiers, healthcare professionals, contractors and end users to ensure products meet all needs
- Heavy investment in research and development results in quality and innovative products introduced to the market

## Shower trays

Our shower trays are specially designed to provide strength and durability

### Strength

To give you longer-lasting products, we:

- Reinforce many trays with steel sections for extra strength
- Use a consistent weight of material in every tray
- Carry out rigorous testing, including withstanding heavy loads
- Continuously invest in manufacturing technology

## Bathrooms, & mobility support products

Our design and manufacturing standards ensure both choice and quality around the home

### Grab rails

Our extensive range of internal and external grab rails are ergonomically designed for greater safety and grip. Options include:

- Plastic and metal finishes, including stainless steel to prevent rusting
- Blue grab rails available for the visually impaired

### Shower seats

We have a full range of seats for most clients' needs. Features include:

- Height adjustable (most models)
- Strength (weight bearing up to 40 stone/254.5kg)
- Extra width and horseshoe seats

### Bathroom products

- A comprehensive range of toilet pans, cisterns and washbasins, made from vitreous china
- Many products are especially designed to accommodate wheelchair users

### Kitchens

Our high quality range of kitchens and accessories includes:

- Modern options of door finishes and work top colours
- Full range of widths available to suit most requirements
- Metal drawer box system for extra strength
- P.V.C edged doors to prevent damage
- Mobile trolley units
- Pull down baskets in the wall units
- 300mm plinths and adjustable legs (can be cut on site)
- Rise and fall units available in a range of sizes

## Shower screens

Our screens are designed for ease of installation and use, and excellent quality water retention

### Bottom and Vertical Seals

We ensure better water retention by:

- Fitting a seal on the bottom edge of our standard screen range to provide a continuous water barrier
- Ensuring all rubber seals are coaxial, so they won't roll or peel out
- Fitting a bubble seal on the bottom edge of the sliding screen system, improving the sliding action and providing a water barrier

### Hinges

To provide better wear and an easier user experience we:

- Manufacture all hinges and caps from hardwearing Nylon 6
- Use 180° hinges to enable doors to open both inwards and outwards and 360° hinges for bi-folding screens
- Fit unique locking rising butt two-way hinges

### Gaskets

Elastomeric gaskets provide a high integrity, seal between the screen framework and panels

### Frame construction

To ensure a longer life, all our frames are:

- Extremely robust in design
- Mechanically fixed with screws
- Modern, smooth latches and D-handles for comfort and grip
- Made with shatterproof PET glazing
- With a stronger magnetic strip which increases water retention on all screens with a 45° corner

## Our site surveying service

Helping you get the home you want

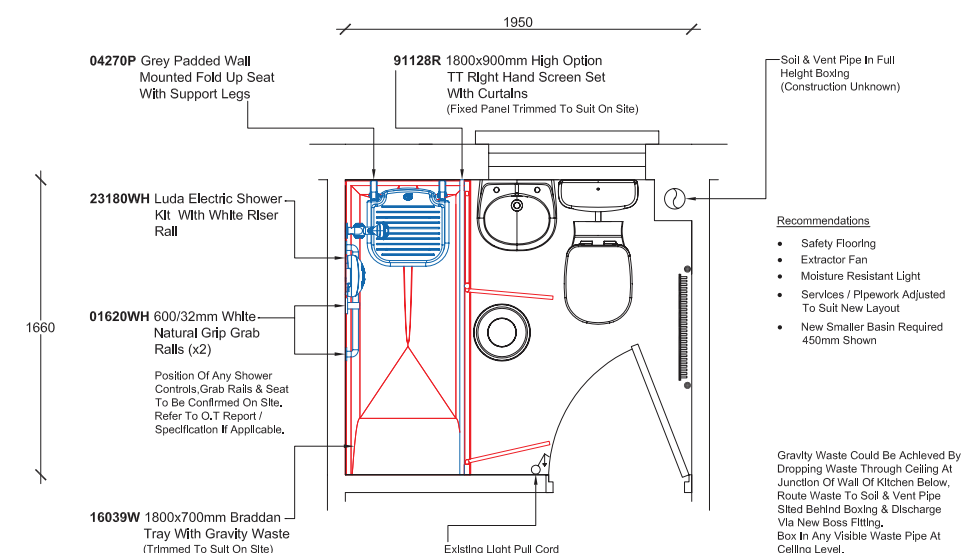

We have a dedicated and highly professional CRB checked National Surveying Team who can come to your home and help you plan your new kitchen or showering area. We cover the whole country, so wherever you are, we can be there for you.

We'll visit, carry out a quick but detailed survey, and give you a recommendation for the best way to plan your space. We even use the very latest 3D drawing technology to show you what your new room will look like! Our surveys comprise three easy stages:

1. An experienced AKW surveyor will visit your home and take all necessary measurements
2. We will discuss your needs to make sure we understand exactly what you want and provide technical advice
3. We'll give you a 2D/3D computer-aided drawing of what your new room will look like

Together, we'll make sure you get the very best advice, and the very best kitchen or showering area.

## Plan view

## NEW! Introducing 3D Virtual World Drawings

# Guaranteed for life

Our ‘no quibble’ lifetime warranties\* give you total peace of mind

We have total confidence in the quality and durability of our products and we’re sure you’ll be delighted with your choice.

To honour our promise, we offer a lifetime warranty against manufacturing defects on our catalogue items (exclusions apply).

\* The lifetime warranty excludes normal wear and tear in general domestic applications. It applies only to products being installed for the first time and according to relevant local and national regulations.

# Specifiers guide

# How to choose your shower tray, screen and accessories

An easy to use reference to help you make the right choices

When it comes to showering we have plenty of choice, because it’s important and because we’re aware that there are countless different needs. There’s a lot to consider, such as the space you have available, existing plumbing and the type of floor. These guidelines coupled with our specifiers guide, will help you make the right choice. Remember: we’re always on hand to help with advice.

## Step 1: choose your shower tray

You’ll find all our shower trays on pages 10-93. Things to consider:

### Floor type

AKW shower trays are designed for different types of floors e.g. wooden, solid concrete floors (which could be unbreachable) or a screeded floor.

### Tray type

Where is your shower tray going to be fitted? In a corner, or an alcove? Does it need to be cut to fit a particular size? Many of our trays are bath replacements and are therefore handed to the waste end. Please note. AKW shower trays are not generally for use with power showers or high pressure systems.

### Drainage

Most AKW trays will accommodate gravity or pumped wastes – indeed, some come with them already built-in. If your shower enclosure requires waste water to be pumped away, we have a wide selection of drainage pumps (see the waste systems section from pages 158-167).

Left-hand tray waste to the left

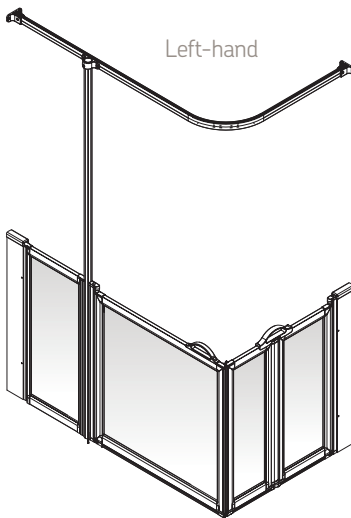

Right-hand tray waste to the right

## Step 2: choose your shower screen

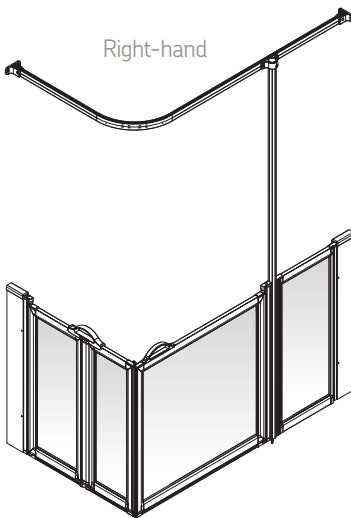

Once you’ve chosen the tray, the next step is to specify a suitable shower screen. You’ll find these on pages 94-149. Things to consider:

### Entry & access

It’s important to think about how the shower screen opens (the entry path), so that there’s space for other fittings such as the wash basin and toilet. Our shower screens are handed in the same manner as the trays, according to waste end. Compatible screens all available options.

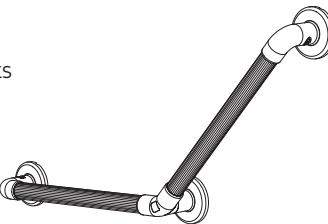

Left-hand

Right-hand

## Step 3: choose your accessories

AKW offers a huge selection of shower seats, grab rails, showering aids and bathroom products. You’ll find these on pages 168-207.

# Level Best®

With a wide choice and contemporary designs, Level Best® helps you create a domestic Wet Room with plenty of style

## Benefits

- Huge choice, so you can create the bathroom you want
- Stylish, modern designs to give you attractive yet comfortable surroundings
- Glass screens provide a contemporary finish
- Easy to install
- High quality, toughened glass screens for extra safety

## Features

- Suitable for both wooden and concrete installations
- Work with gravity and pumped wastes
- Formed from compressed GRP for exceptional strength and stability (Tuff Form® former)
- Nine sizes available to suit most installation requirements
- Shower screens are made from 6mm toughened safety glass
- Contemporary polished aluminium finish
- Screen seal available to close the gap between screen and tile
- Tuff Form® formers are trimmable on 3 sides up to 150mm from the waste area

## Waterproofing system

MAPEI provide a comprehensive range of products to be used alongside AKW products in the construction of domestic wet rooms. Additional items are available for larger wet rooms.

Standard MAPEI - Wet Room Kit - **LB00113**

- 1 x 10kg drum of Mapegum WPS (Coverage on 10kg drum is 5m<sup>2</sup>)
- 1 x 10 metres of Mapeband tape (120mm wide)
- 2 x 2 packs of Mapeband internal corners
- 1 x Mapeband waste outlet gasket (400 x 400mm)
- 1 x 2 pack of Mapeband pipe inlet kit

Extra items available

- 5kg, 10kg or 25kg of Mapegum WPS - **LB00115, LB00114 or LB00121**
- Mapeband tape (10m x 120mm wide) - **LB00118**
- Mapeband internal corners x 2 - **LB00116**
- Mapeband external corners x 2 - **LB00117**
- Mapeband waste outlet gasket - **LB00119**
- Mapeband pipe inlet kit x 2 - **LB00120**

Standard MAPEI - Wet Room Kit - Lifetime warranty does not apply

## Varme cable mats

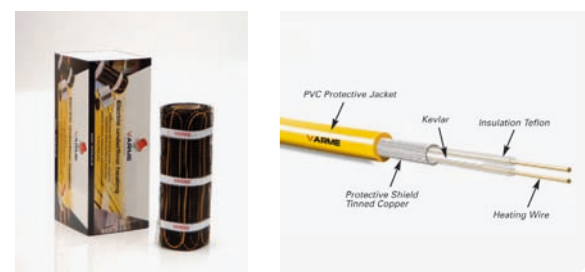

- under tile heating system

The Varne Mat system comes already taped to a 500mm wide fibreglass mesh. Making it much faster to lay out in larger 'open plan' areas when compared to other systems.

Varne Mat systems come complete with:

- Heating cable supplied woven to a self adhesive mesh
- Fully programmable thermostat controller with floor probe
- Floor primer
- Roller for primer
- Simple installation instructions
- Manufacturers Lifetime Warranty
- Other sizes available (7 days delivery)

Recommended for all internal rooms, will give approx 130watts per sqm at 85% room coverage.

| Coverage | Output   | Length      | Product Code   |
|----------|----------|-------------|----------------|
| 2.0 sqm  | 300watts | 4.0 x 0.5m  | <b>LB00131</b> |
| 2.5 sqm  | 375watts | 5.0 x 0.5m  | <b>LB00132</b> |
| 3.0 sqm  | 450watts | 6.0 x 0.5m  | <b>LB00133</b> |
| 4.0 sqm  | 600watts | 8.0 x 0.5m  | <b>LB00134</b> |
| 5.0 sqm  | 750watts | 10.0 x 0.5m | <b>LB00135</b> |
| 6.0 sqm  | 900watts | 12.0 x 0.5m | <b>LB00136</b> |

## Stainless steel grab rails

Level Best® stainless steel grab rails are designed to provide additional support to complement modern bathrooms. Strict manufacturing and finishing procedures guarantee quality and strength.

Features & benefits:

- High Polished Stainless Steel finish
- Strong and robust
- Rustproof
- Easy to clean

| Description                     | Product Code   |
|---------------------------------|----------------|
| 300mm Stainless Steel grab rail | <b>LB00127</b> |
| 450mm Stainless Steel grab rail | <b>LB00128</b> |
| 600mm Stainless Steel grab rail | <b>LB00129</b> |

## Shower stool & fold down shower seat

Level Best® wooden slatted seats are made from ecologically friendly rubberwood which has a dense grain, minimising shrinkage.

Rust proof stainless steel legs add to the overall appearance.

Features & benefits:

- An elegant solution for any bathroom
- Polyurethane treated rubberwood slats
- Strong and comfortable
- Easy to clean
- For users up to 40 stone/254kg
- Both stool and seat have adjustable feet

| Description  | Product Code |
|--|--------------|
| Wall mounted, slatted, fold-up wooden seat               | <b>04030</b> |
| Floor mounted, wooden slatted stool with adjustable legs | <b>05080</b> |

## Tray Applications

Level Best® screens are also suitable to fit on AKW trays. Fitting kit is supplied as standard.

# Tuff Form®

Helping you create wet floor shower areas and multi-user bathrooms, Tuff Form® makes excellent use of available space

## Benefits

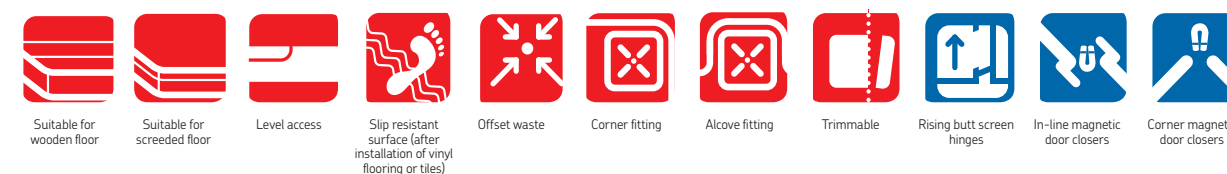

- Creates a full level access showering solution
- Easily trimmed on site to enable fast and simple installation
- Exceptionally strong to accommodate a user with wheelchair and a carer too (up to 40 stone/254kg bearing weight)
- Tens of thousands of installations worldwide, so it's popular – and proven!
- Screen sets fold back to free up floor space – ideal for wheelchair access
- A variety of screen sizes and styles give you added choice
- A wet floor installation with suitable slip resistant flooring provides excellent water integrity with comfort and safety underfoot
- Fully recyclable, made from reusable plastic
- Superior strength and rigidity, ideal for fitting under the bath in multi-tenant dwellings

## Features

- Suitable for both wooden and solid floors
- Formed from compressed GRP which allows the Tuff Form® to be cut to length or trimmed to within 150mm of the waste without losing any strength integrity
- The ribbed design of the underside eliminates slippage or float during installation
- Offset waste position to avoid joists pipework
- Tuff Form® depth is 22mm
- Pre-formed fixing holes

## Silverdale screen options

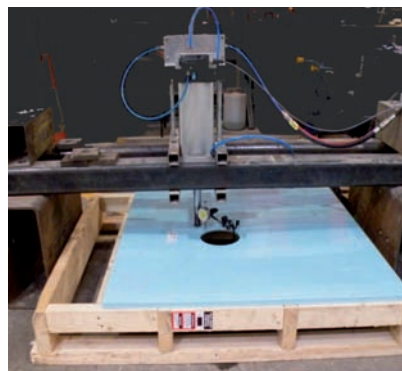

## There's no tougher former than a Tuff Form® former

- Tuff Form® is the first product in its market sector to have a carbon footprint assessed to the PAS 2050 specification and has undergone verification by the Carbon Trust
- Tuff Form® has achieved a European Fire Safety Rating of CFI-s2
- Tuff Form® is 5 times more durable than recycled plastic formers when side transferring a 40 stone person, avoiding possible replacement 5 times in the same life cycle
- Tuff Form® will not warp or deform by temperatures reached in a normal bathroom situation (and has been tested to 100°C)
- Tuff Form® can be cut to within 150mm of the waste without compromising strength or water integrity
- The waffle underside of Tuff Form® makes it easier to settle into a screeded installation than a smooth underside, which can slide around during installation
- Tuff Form® is designed to provide a 'Bathroom for Life'
- In the event of needing to recycle a Tuff Form®, it is 100% recyclable at any local plant
- A recycled Tuff Form® creates a Grade 1 material which can be used in ANY glass reinforced products
- Hundreds of thousands of Tuff Forms® have been installed across the world
- Tuff Form® is widely used in the US and has been tested to ANSI Z124.1.2-2005

## BRE Tuff Form® Testing

## Tuff Form®

a leading wet floor former with carbon footprint assessment

Tuff Form® is the first wet floor former in the world to have a carbon footprint assessed to PAS 2050 specification and has undergone verification by the Carbon Trust. This PAS 2050 assessment was undertaken by Sustain.

Tuff Form® is fully recyclable demonstrating AKW's continuous investment in tackling climate change.

The Building Research Establishment (BRE) independently tested a Tuff Form® for 20,000 side-transfer loadings of a 40 stone (240kg) person moving onto a single shower seat leg (severest test). The Tuff Form® withstood the test whilst a competitor's former failed between 3220 and 4757 cycles. This proves that Tuff Form® will last 4 or 5 times longer than other wet floor formers available on the market. The lifetime Carbon Footprint can therefore be considered 4 or 5 times lower than other formers making it the most 'green' wet floor former on the market.

*Full test report available on request.*

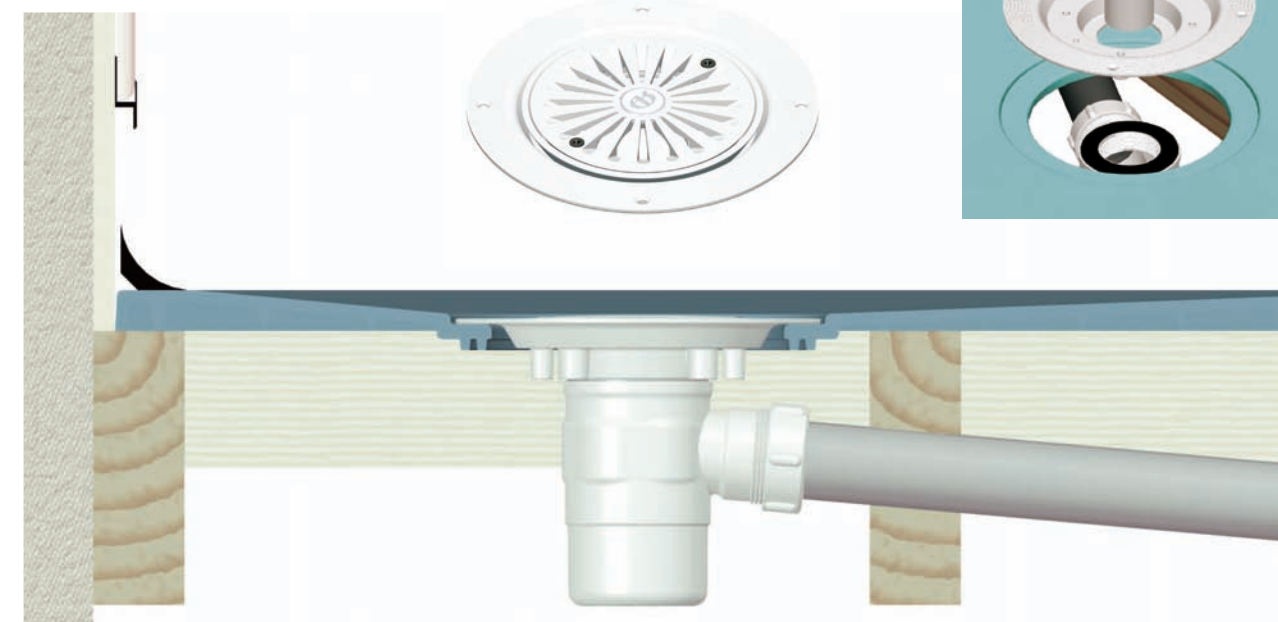

## Tuff Form® waste adaptor

This adaptor ring allows a typical top clearing trapped waste to be fitted into a Tuff Form®. This product gives dual benefits - ideal where space is at a premium, while at the same time making connection from above an easier job.

Waste adaptor with 50mm waste code **25124**

Waste adaptor with 19mm waste code **25129**

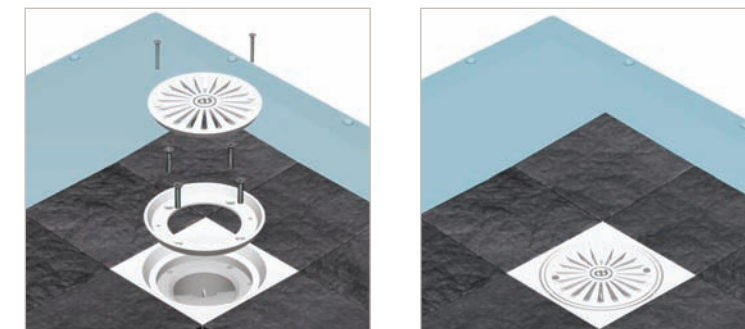

Low depth GW90 TFWA code **25409**

TFWA prior to installation of vinyl flooring

## Tiling adaptor kits

Available separately for the TFWA, Screedmaster, 152mm (6 inch) code **21101**  
 TF75 and PGTF wastes when fitting 152mm (6 inch) or 203mm (8 inch) ceramic floor tiles. 203mm (8 inch) code **21102**  
 The orientation is not fixed allowing it to be set in accordance with the position of the floor tiles.

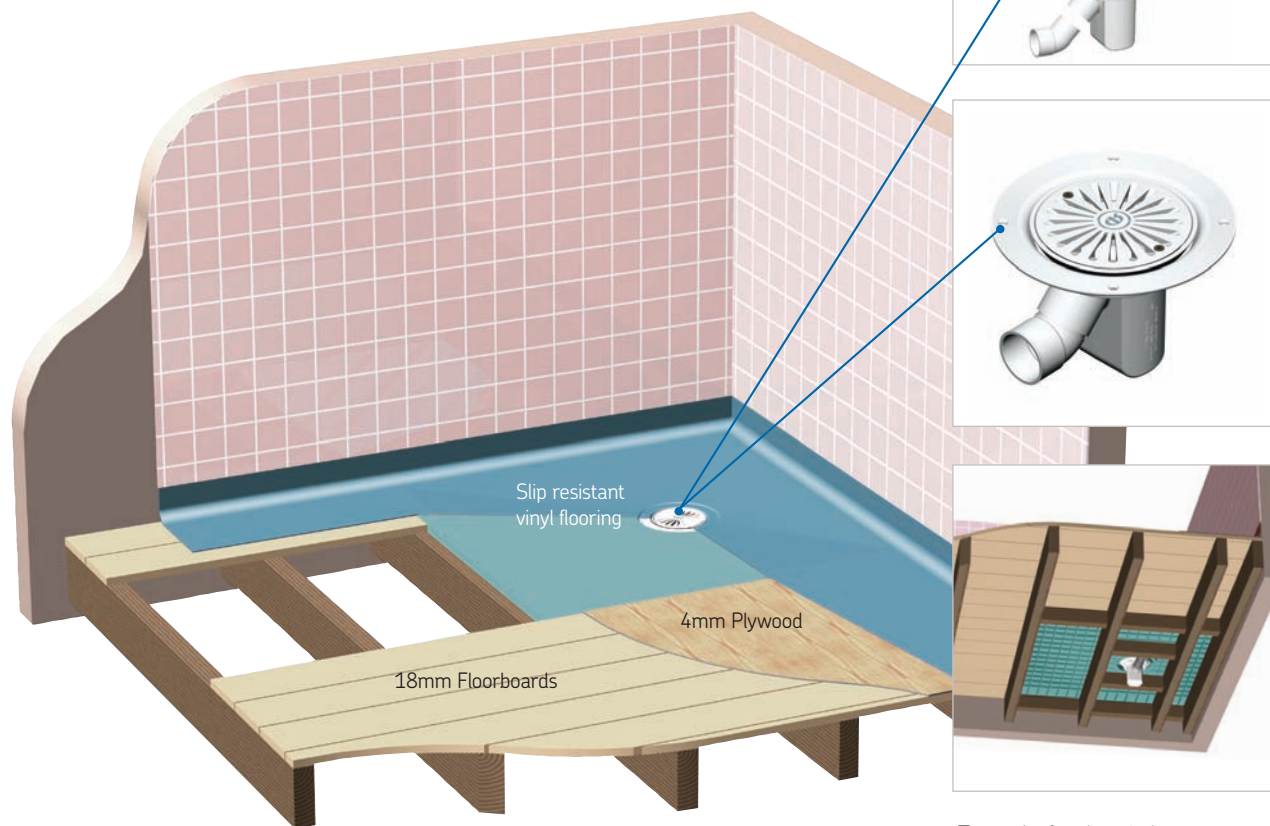

## Wooden floor installation

AKW TF75 Gravity Waste.

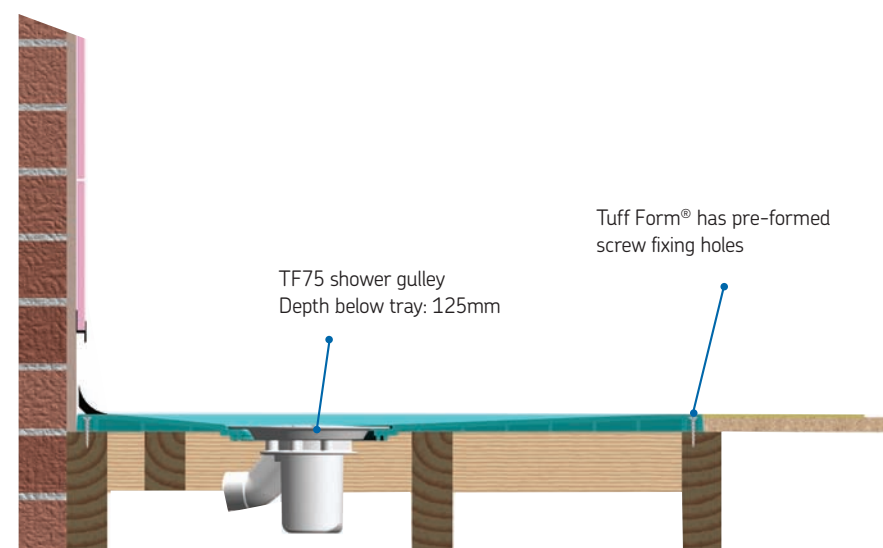

Complete level access.

Tuff Form® installed on wooden joists, ready for slip resistant flooring to be laid.

For shower waste options see pages 158-167.

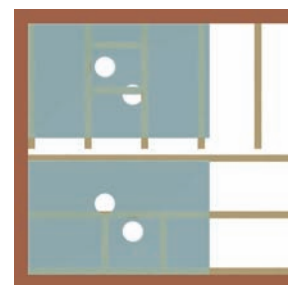

Tray to be fitted on timber supports.

### Rotate former to avoid the joists

The waste position can be moved to avoid the wooden floor joists by rotating the Tuff Form® former by 90 or 180 degrees respectively.

## Concrete floor installation

AKW PGTF Pumped Gulley Waste.

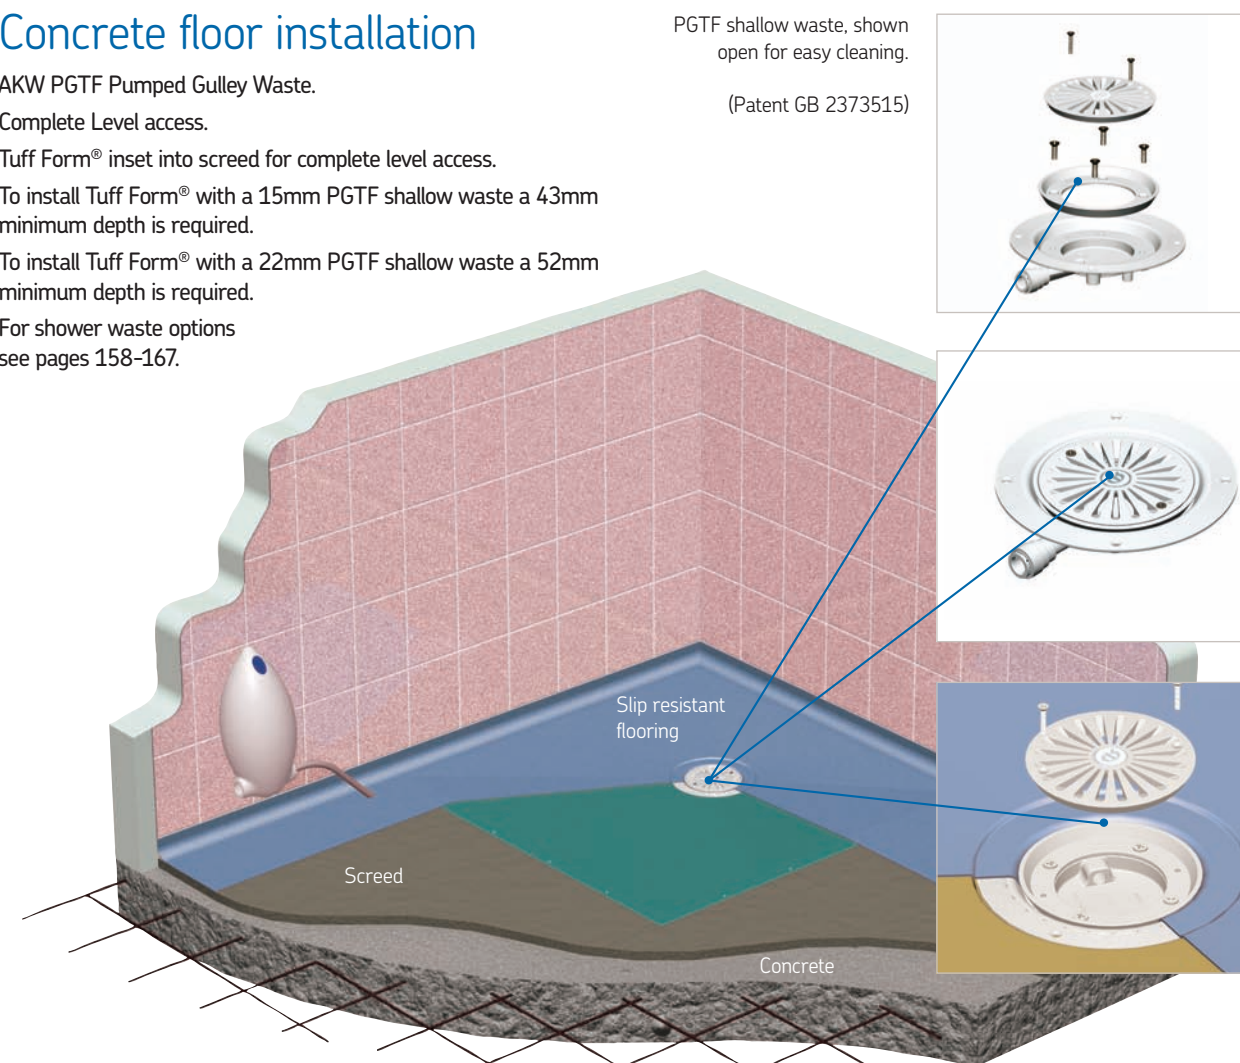

Complete Level access.

Tuff Form® inset into screed for complete level access.

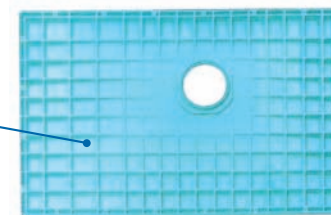

To install Tuff Form® with a 15mm PGTF shallow waste a 43mm minimum depth is required.

To install Tuff Form® with a 22mm PGTF shallow waste a 52mm minimum depth is required.

For shower waste options see pages 158-167.

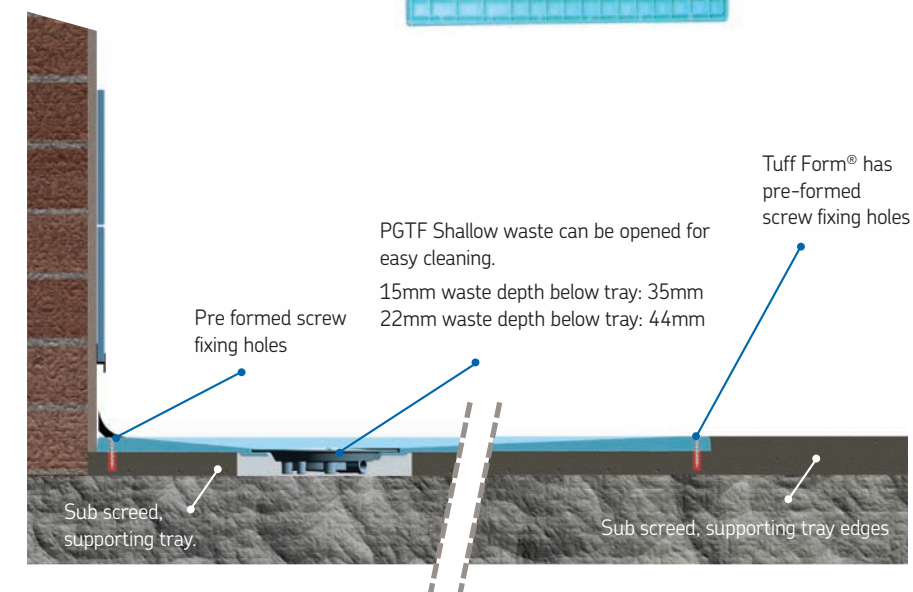

Slippage or float during installation is eliminated by the ribbed design of the underside which allows the tray to key into soft cement or screed.

### Corner blocks

Wet floor screen options fit Tuff Form®, all featuring corner blocks. These blocks can be trimmed to fit on site, to accommodate any radius to covered slip resistant flooring. (Patent GB 2372267)

## Bathroom for Life installation

The AKW Tuff Form® offers superior strength and rigidity which can support a bath and bather. Installed with a Bath to Tray Adaptor this provides an easy upgrade from a conventional bathroom to a wet floor showering area when needed.

The TF75 Bath to Tray Adaptor, used in conjunction with the TF75 Tuff Form® Gravity Waste, has been designed to offer customers a Bathroom for Life.

Tray needs to be supported on all four sides and with cross braces and around the waste area.

No underfoam required.

### Features

- 75mm water trap
- Compression pipe fitting (1 1/2" / 43mm to EN1455)
- Supplied with blanking cap for use when pressure testing pipe system and also avoids collection of building residue

When full of water and a larger adult, a typical 1.7m long bath can weigh up to 1/2 tonne, creating support-foot point-loadings of 125kg - equivalent to 40kg per square centimetre.

Tuff Form® can easily support 4 such point loads, totalling 500kg, provided they are at least 450mm apart and are located in a rectangular pattern.

In fact, a correctly installed Tuff Form® with edge and waste region support noggins can carry concentrated static loads in excess of 125kg, applied over an area 20mm square, without difficulty.

Bath to tray adapter  
product code: **25410:TF75**

Bath legs can be  
situated directly on top  
of the Tuff Form®.

Slip resistant  
flooring

Tuff Form®  
Wet Floor Former

Sub Floor

Typical waste connection from  
installed bath into Tuff Form®  
wet floor former and below.

For specialist support needs it is possible to increase this further - up to 1 tonne. If you'd like to explore this, please get in touch with AKW's technical team.

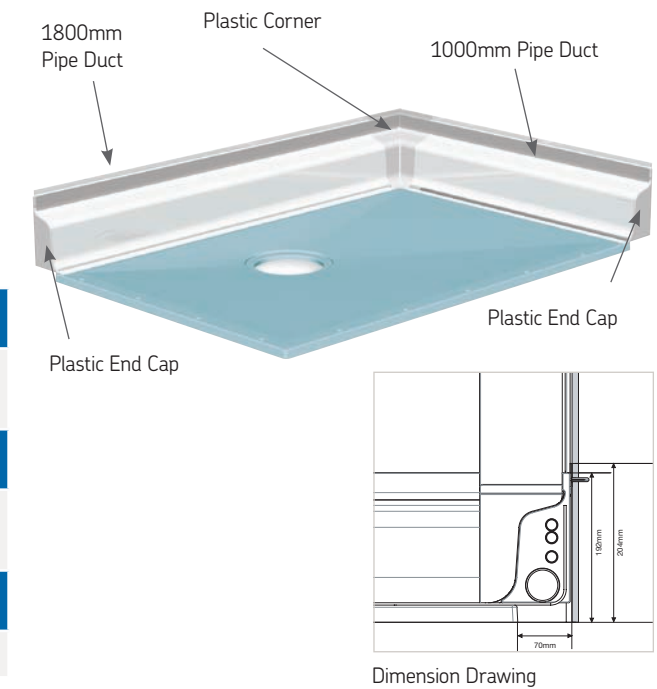

Note. The loads stated in this example exceed the EN433 test loadings which Altro can meet for residual indentation, so this must be taken into consideration. Similarly, floor loadings which exceed BRE (Building Research Establishment) guidelines for domestic floors or Building Regulation guidelines should be reviewed by structural engineers or similarly qualified professionals. AKW can work with you to determine the best solution for specialist needs.

## Pipe duct kits

Available separately pipe duct kits fit on to the edge of the tray to avoid re-routing of existing pipework.

- Fully waterproof mouldings
- Quick installation
- Substantial savings on time and labour costs
- Requires extra wide compensator (see below)

| Kit 1 contents              | Product code |
|-----------------------------|--------------|
| 1 x 1800mm pipe duct        | <b>21105</b> |
| 2 x Plastic end caps        |              |
| Kit 2 contents              | Product code |
| 1 x 1000mm pipe duct        | <b>21106</b> |
| 2 x Plastic end caps        |              |
| Kit 3 contents              | Product code |
| 1 x Plastic corner moulding | <b>21107</b> |

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm

Height: 750mm, 900mm or 1870mm

# Braddan

With extensive choice and easy installation, Braddan is a long-term favourite among specifiers, installers and end-users

## Benefits

- The Braddan's unique design can create a full level access, surface mounted or step in shower enclosure
- Suitable for all floor types
- Quick draining, thanks to a 35mm fall to the waste
- Integral added strength for extra peace of mind
- A slip resistant surface makes them safe to use
- A full selection of screens, curtains, rails and ramps means you can create the perfect bathroom for your requirements

## Features

- Suitable for all floor types
- A central waste position
- There's no need for under tray foaming
- Pipe duct kits are available to help with installation
- We supply a 'trim to length kit' with 1800mm trays
- 1800mm trays can be cut to 1500mm, allowing flexibility of fitting
- 5 waste options are available (see accessories)
- All trays are supplied with a separate tiling upstand

Tray with upward pump waste code: **16161**

Tray only code: **16065**

Trim-to-length kit included - can be cut down to 1500mm

## Trim-to-length installations

### Braddan – 1800 x 700

1800 x 700 trim-to-length Braddan trays are manufactured from SMC and are supplied with a separate end cap. If the trays need to be reduced in size to fit into an alcove the end cap then needs to be sealed to the cut end prior to the tiling flange being fitted.

### Braddan – 1800 x 820

1800 x 820 trim-to-length Braddan trays are manufactured from GRP. The trim-to-length kit comprises of two lengths of aluminium extrusion. The first piece is secured to the underside of the cut end of the tray. This is then secured into the wall. The second section is then secured over the first and sealed on top of the tray prior to tiling to provide a water tight seal.

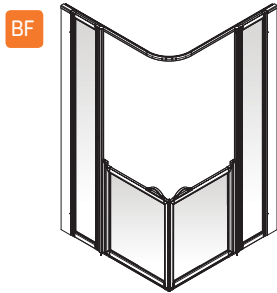

# Screen options

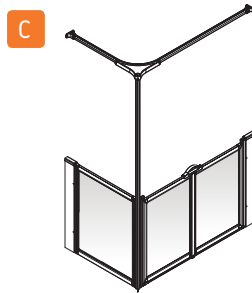

All screens include curtain rail, curtain, gliders and fixings.

## Screeded floor installation

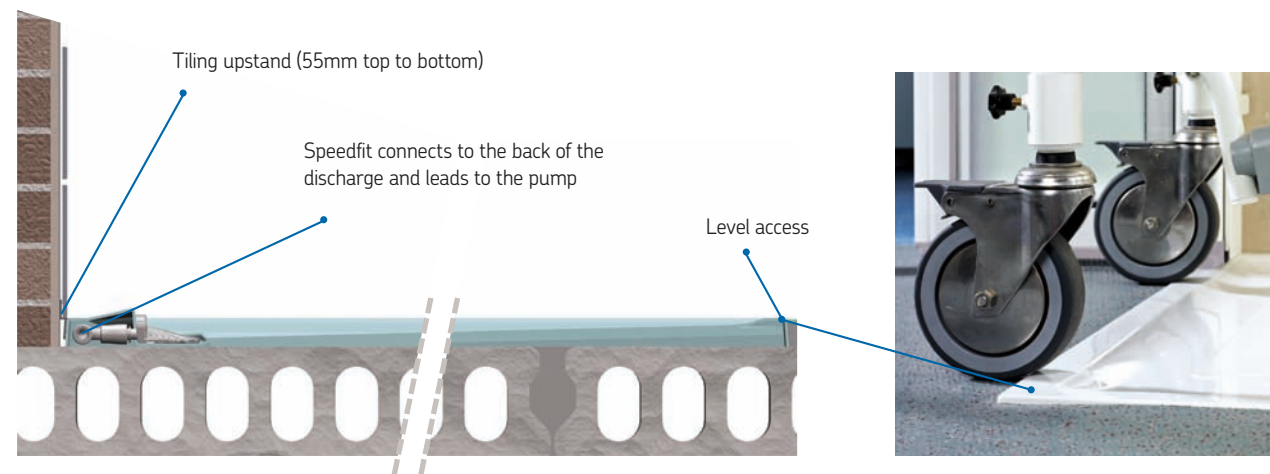

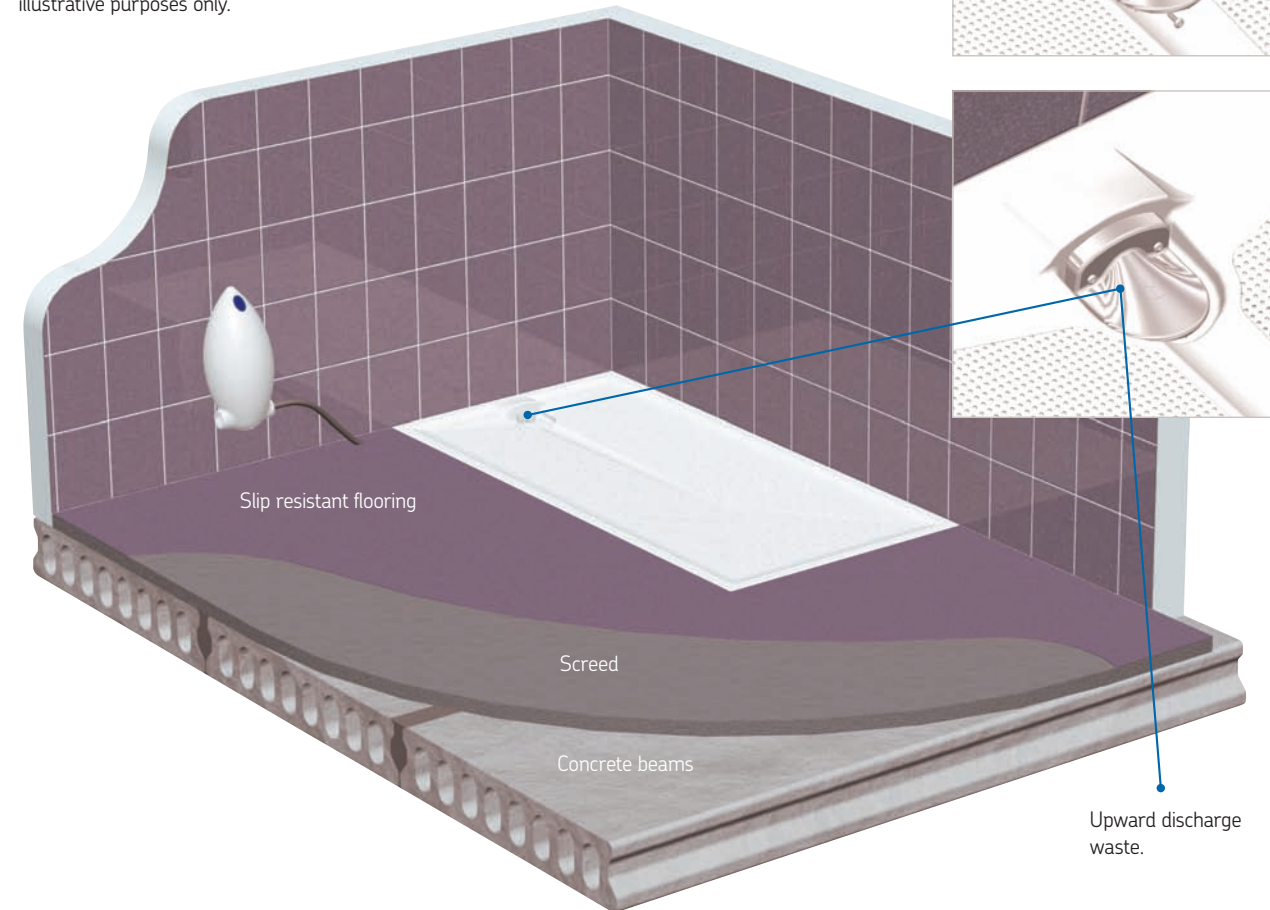

Upward Discharge Waste.

Level access.

Trays need to be supported on all four sides underneath.

No underfoam required.

Braddan installed in a screed on concrete beams or solid concrete using an AKW Archimedes 4 Pump Kit with a factory fitted AKW Upward Discharge Waste. Trays are shown in colour for illustrative purposes only.

Trays are shown in colour for illustrative purposes only.

## Concrete floor installation

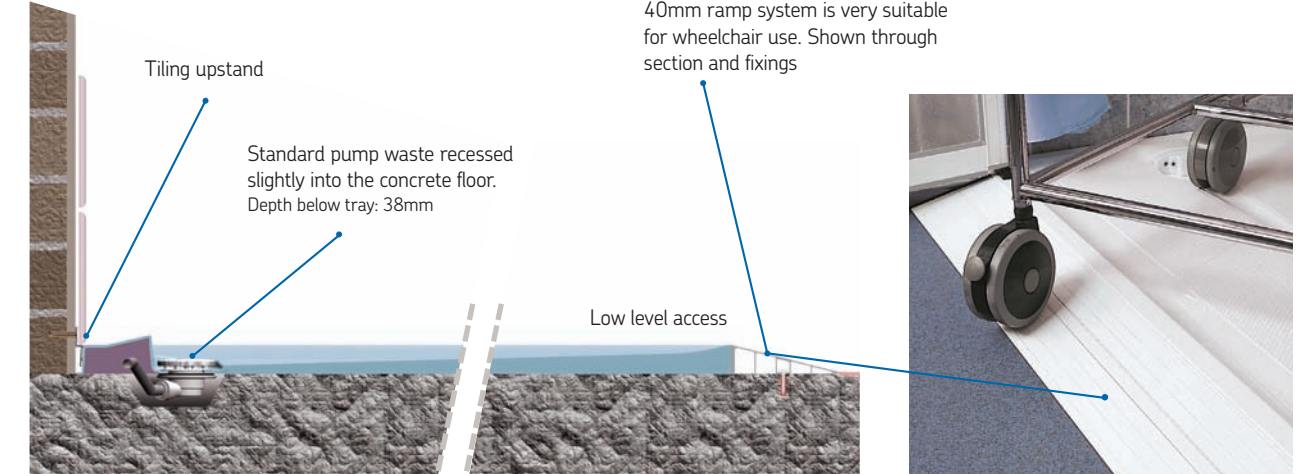

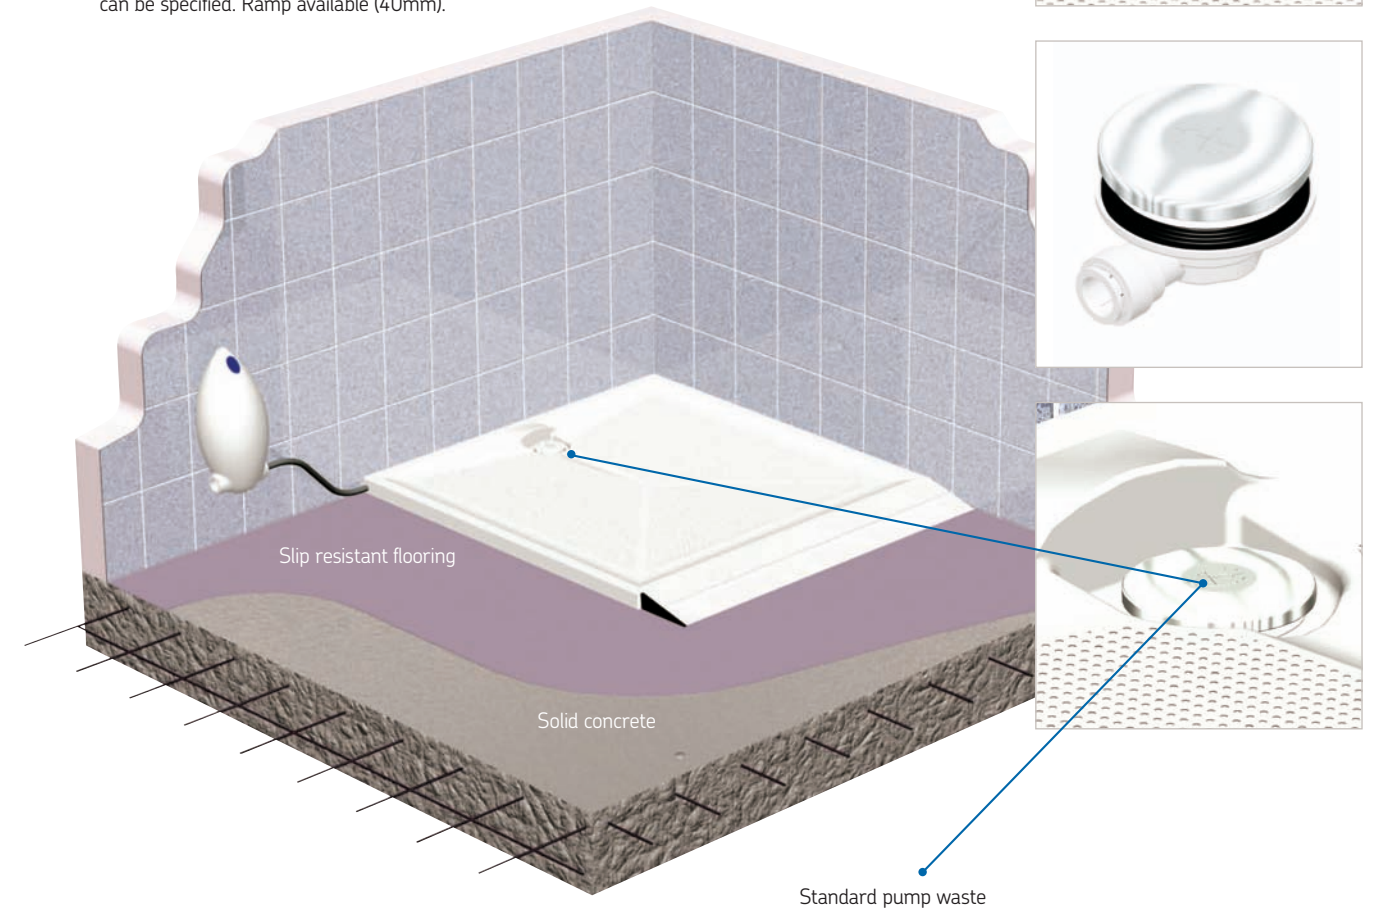

Standard 50mm Pumped Waste.

Low level access.

Trays need to be supported on all four sides underneath.

No underfoam required.

Braddan installed on concrete floor. This installation features the AKW Standard 50mm Pumped Waste, alternatively, the factory fitted AKW Upward Discharge Waste can be specified. Ramp available (40mm).

Trays are shown in colour for illustrative purposes only.

## Wooden floor installation

Standard 50mm Gravity Waste.

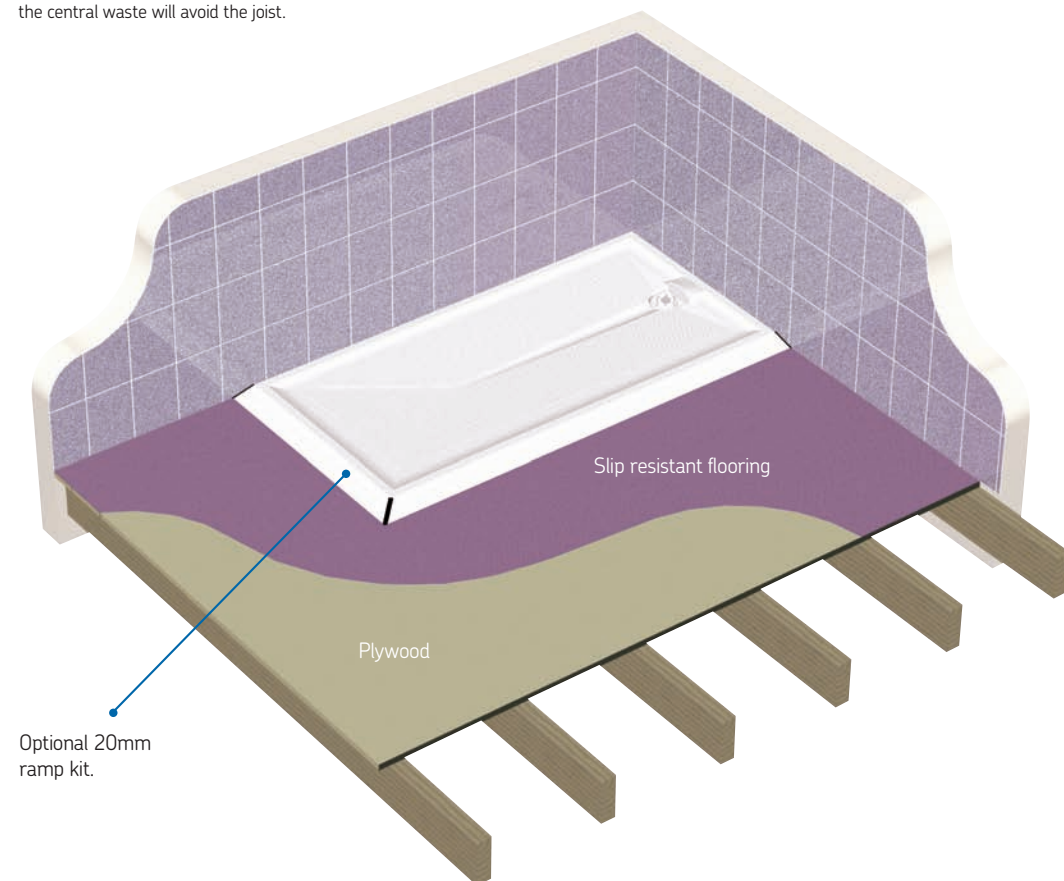

Low level access.

Trays need to be supported on all four sides underneath and with cross braces.

No underfoam required.

Braddan inset onto joists in a wooden floor, featuring the AKW 20mm Ramp Kit and the AKW Standard 50mm Gravity Waste.

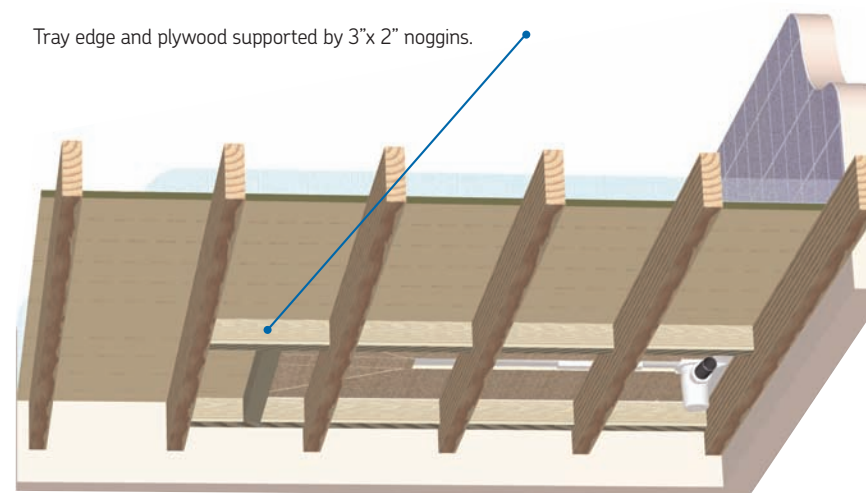

PLEASE NOTE: Although many customers fit Braddan trays on wooden floors without difficulty it is important to check that the central waste will avoid the joist.

Standard top clearing trapped waste.

Standard top clearing trapped waste, can be opened for easy cleaning.

## Waste options

For shower waste options see pages 158-167.

### PW50 50mm standard pumped waste

Issued as standard with both automatic and automatic mixer valve pump kits.

- Good seals and location
- Quieter running
- Built-in filter
- Opens for easy cleaning and rodding
- 38mm deep below mounting surface
- 15mm & 22mm John Guest Speedfit outlets available

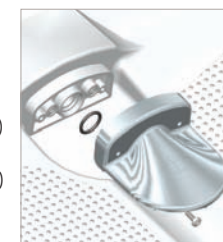

Patent GB2375479

Depth below tray:  
38mm (for 15mm)  
44mm (for 22mm)

Overall Depth  
50mm (for 15mm)  
56mm (for 22mm)

AKW Standard 19mm Gravity Waste:  
Patent Pending. Code: **25125**

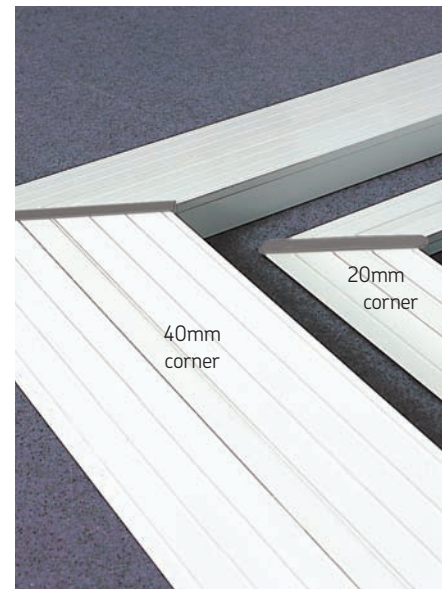

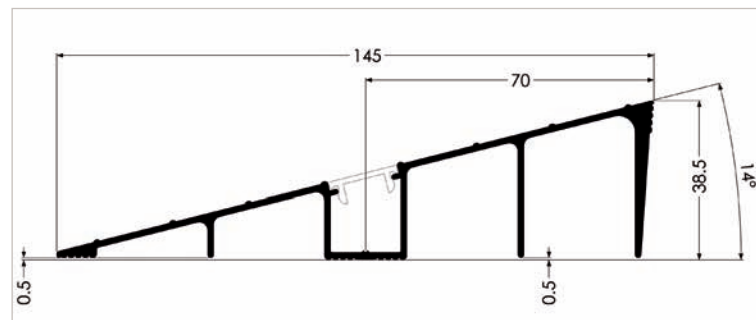

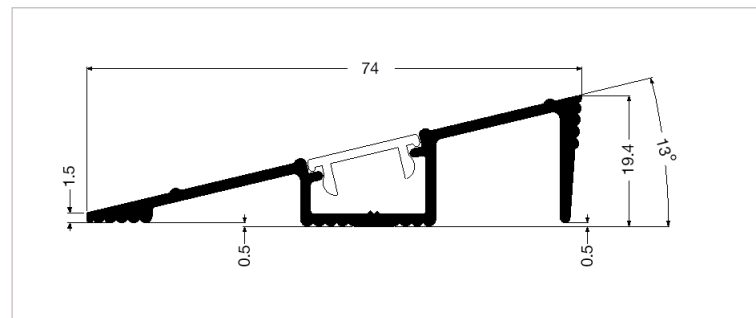

## Ramp kits

### Aluminium 20/40mm

Braddan ramp kits allow easy wheelchair access and are available for surface mounted or semi recessed trays in 20mm and 40mm heights. Ramps kits are supplied for corner or straight access and can be cut to size on site.

| Aluminium ramps description        | Product code |
|------------------------------------|--------------|
| 20mm straight ramp (length 1800mm) | 25000        |
| 40mm straight ramp (length 1800mm) | 25002        |
| 20mm corner ramp (1045 x 1045mm)   | 25001        |
| 40mm corner ramp (1045 x 1045mm)   | 25003        |

Notes: Other corner ramps can be supplied bespoke as a special.  
Actual height for 20mm ramp is 19.4mm. Actual height for 40mm ramp is 38.5mm.

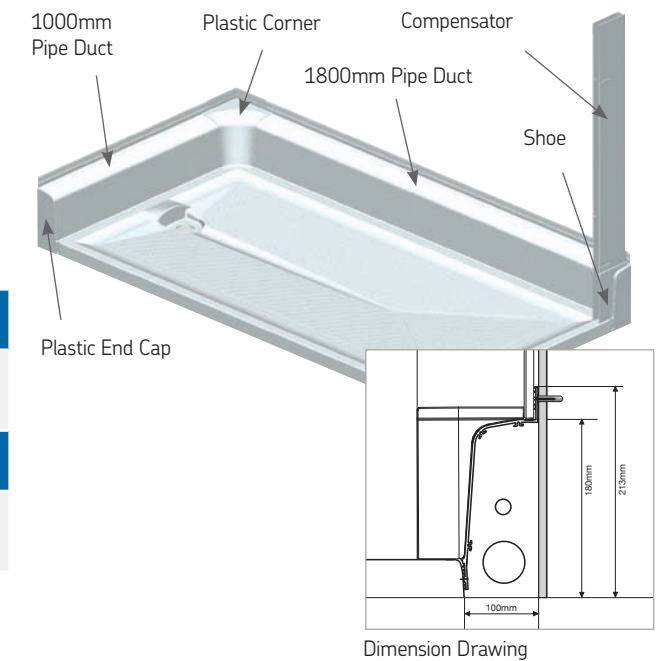

## Pipe duct kits

Available separately pipe duct kits fit on to the edge of the tray to avoid re-routing of existing pipework.

- Fully waterproof mouldings
- Quick installation
- Substantial savings on time and labour costs
- Requires extra wide compensator (see below)

| Kit 1 contents       | Product code |
|----------------------|--------------|
| 1 x 1800mm pipe duct | 25038        |
| 2 x Plastic end caps |              |
| Kit 2 contents       | Product code |
| 1 x 1000mm pipe duct | 25039        |
| 2 x Plastic end caps |              |

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm

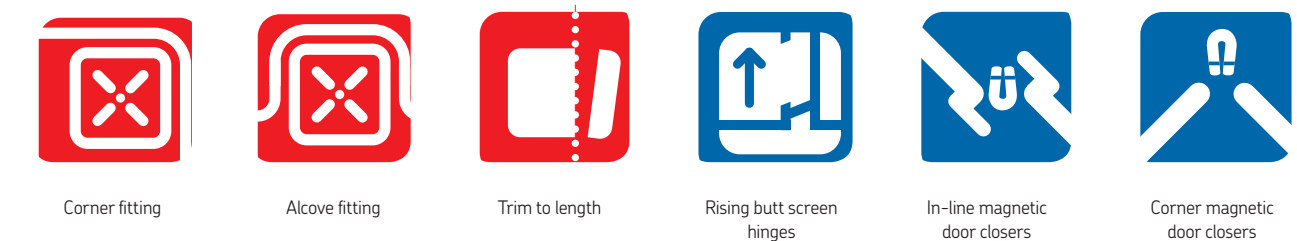

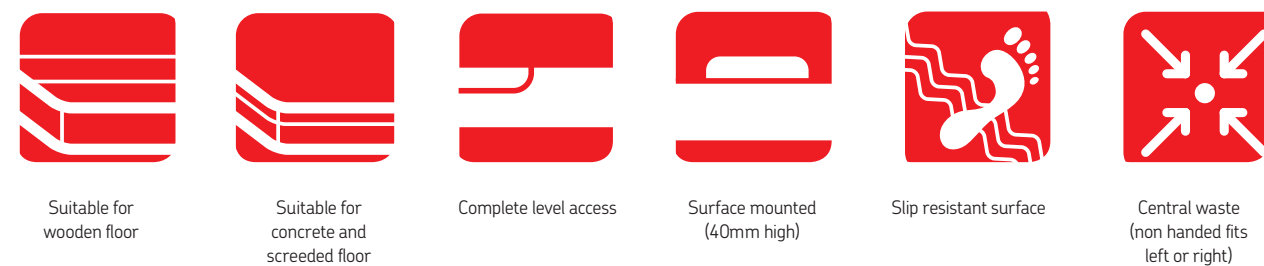

Height: 750mm, 900mm or 1870mm

| Description           | Product code |
|-----------------------|--------------|
| 750mm Non handed      | 24130        |

## Mullen®

Using patented integrated edging and built-in features, Mullen® is quick and easy to fit – and a delight to use

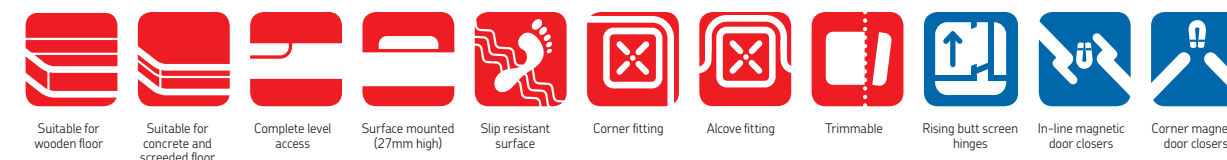

### Benefits

- Level showering for easy access
- Exceptionally watertight seals, thanks to a pioneering Intergrip® strip
- Quick draining, with a 25mm fall inside tray
- Unrivalled strength and stability, using compressed GRP
- Pre-formed fixing holes ensure quick and easy installation
- Excellent choice of screens, curtains and rails

### Features

- A 27mm floor recess is all that's needed
- Surface mounted option (ramp available)
- A corner waste position helps avoid joists
- Corner and alcove trays are supplied with cut-to-length kits
- Built in tiling upstands on 2 or 3 sides complete the all-round integrity of the water seals
- Floor tiling and alcove adaptor kits are available
- No under tray foaming is needed

# Wooden floor installation

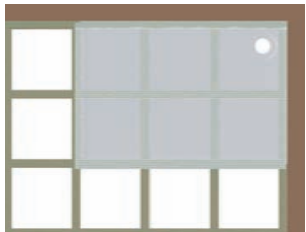

AKW 90mm Gravity Waste.  
Level access.  
Trays need to be supported on all four sides and with cross braces.  
No underfoam required.

Trays are shown in colour for illustrative purposes only.

## Position waste to avoid joists

The joists have been illustrated in both directions to show how the waste easily avoids the joists.

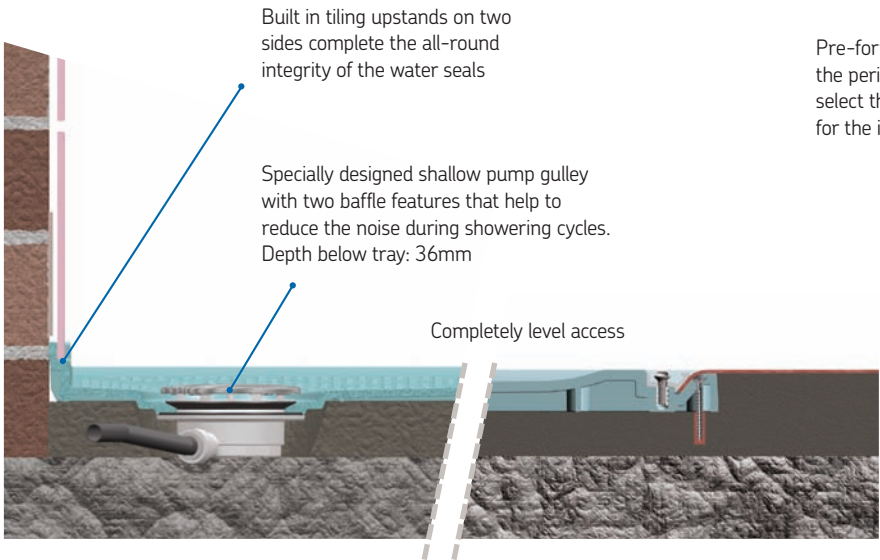

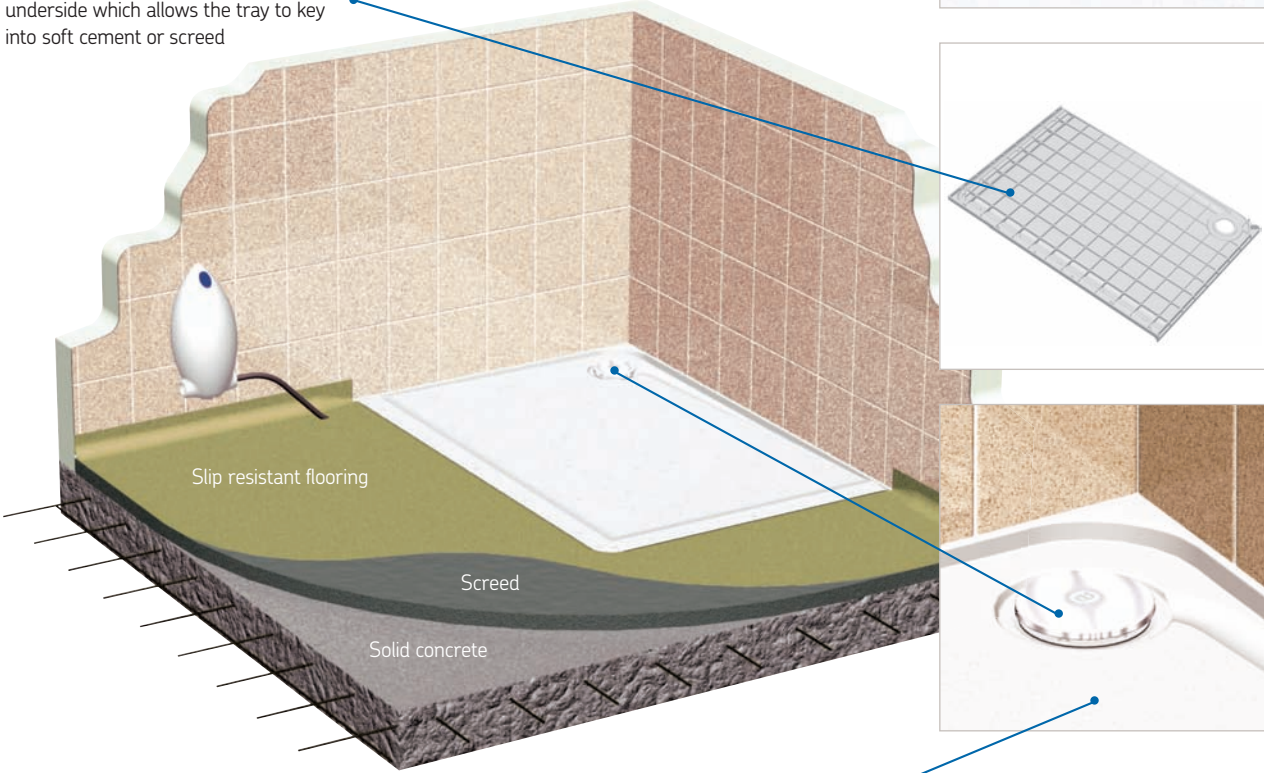

Pre-formed screw fixing holes

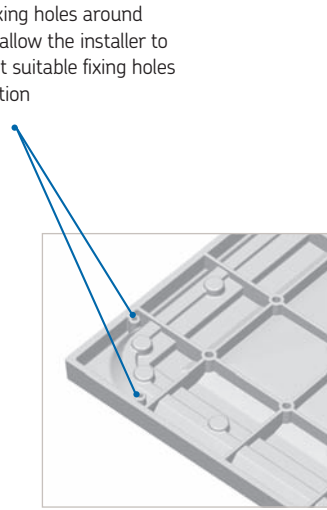

# Screeded floor installation

AKW 90mm Pumped Waste.  
Level access.  
Trays need to be supported on all four sides and with cross braces.  
No underfoam required.

Slippage or float during installation is eliminated by the ribbed design of the underside which allows the tray to key into soft cement or screed

Trays are shown in colour for illustrative purposes only.

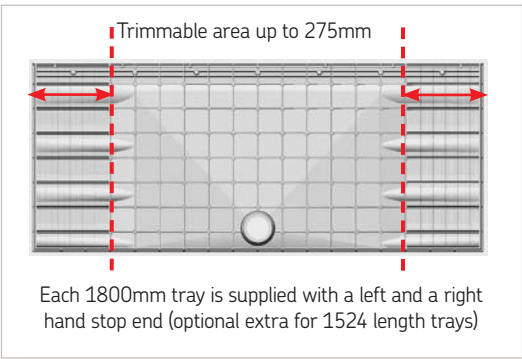

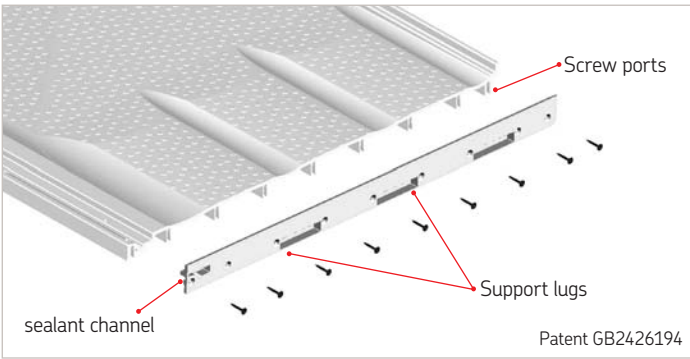

Pre-formed fixing holes around the perimeter allow the installer to select the most suitable fixing holes for the installation

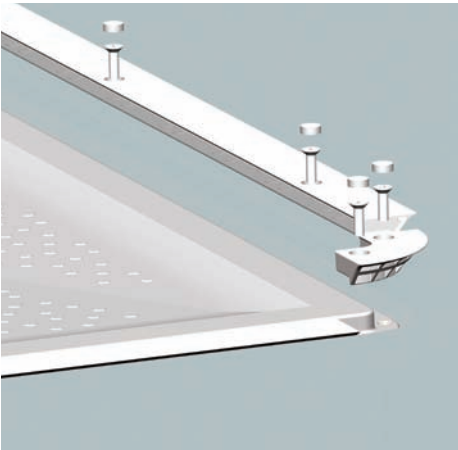

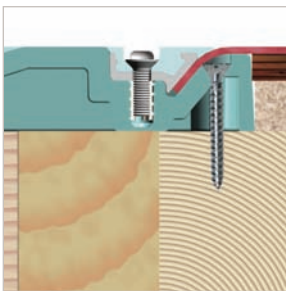

## Mullen® cut-to-length feature

Alcove trays can be trimmed by up to 275mm on one side for 1524 x 762 and 1524 x 915 and on two sides for the 1800mm trays. Specially designed stop ends are supplied to give a strong mechanical waterproof joint.

## Clamping strip

The key benefit of the Mullen® shower tray is its unique clamping strip (Intergrip®) which grips and seals the vinyl flooring into the tray for a water tight seal. Flooring can be fitted after the tray and screen has been installed avoiding unnecessary extra site visits.

## Waste options

For shower waste options see pages 156-165.

| Left hand tray  | 26264        | Left hand tray  | 26262        |

## Ramps

Mullen® trays can be surface mounted on screeded floors with the addition of trimmable ramp options for easy access. Ramps can be installed above or below altro flooring.

| Ramps description   | Product code |
|---|--------------|
| Mullen® surface mount ramp alcove kit 1500mm                | 26271        |
| Mullen® surface mount ramp universal kit 1800x1000mm        | 26272        |
| Mullen® under floor covering universal ramp kit 1800x1000mm | 26273        |

### Features at a glance

Suitable for wooden floor

Suitable for concrete and screeded floor

Complete level access

Slip resistant surface

Corner waste on standard trays (handed)

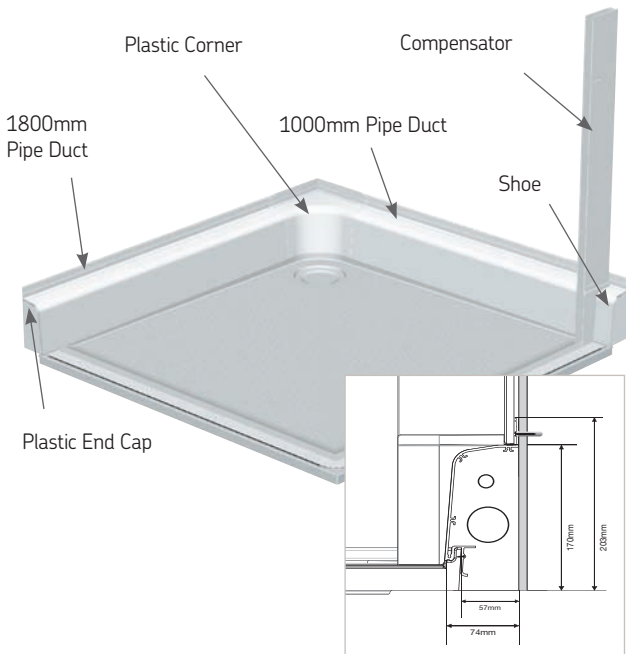

## Pipe duct kits

Available separately pipe duct kits fit on to the edge of the tray to avoid re-routing of existing pipework.

- Fully waterproof mouldings
- Quick installation
- Substantial savings on time and labour costs
- Requires extra wide compensator (see below)

| Kit 1 contents                               | Product code |
|--|--------------|
| 1 x 1800mm pipe duct<br>2 x Plastic end caps | 26265        |
| Kit 2 contents                               | Product code |
| 1 x 1000mm pipe duct<br>1 x Corner assembly  | 26266        |

Can't be used on 1524mm trays

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm  
Height: 750mm, 900mm or 1870mm

| Description           | Product code |
|-----------------------|--------------|
| 750mm Non handed      | 24130        |
| 750mm Left (short)*   | 24131        |
| 750mm Right (short)*  | 24132        |
| 900mm Non handed      | 24133        |
| 900mm Left (short)*   | 24134        |
| 900mm Right (short)*  | 24135        |

# Sulby

Designed for easy installation onto unbreachable floors, the Sulby can go where others can't

## Benefits

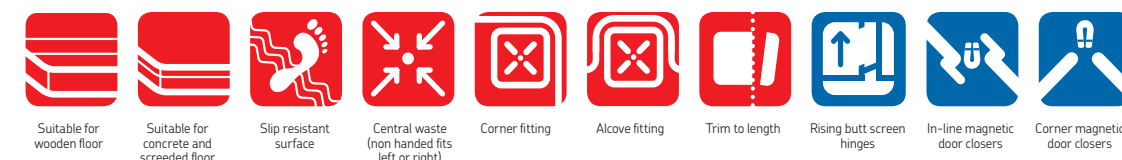

- Low entry step in tray for a defined showering area
- Many flexible features make for simple fitting
- Excellent drainage (35mm fall inside tray)
- Choice of corner, side and end ramps for easy access
- No messy pipework, improving the looks

## Features

- Patented above floor gravity waste with 8 possible outlet points
- Non handed - fits left or right
- Tiling flange supplied for alcove installations
- Optional pipe duct kit available
- No under tray foaming required
- Trim-to-length kit supplied with 1800mm trays
- In-built above floor gravity waste
- Adjustable watertrap of 31mm or 38mm

- 1 500mm Washbasin and Full Pedestal
- 2 Chrome Lever Taps
- 3 Option E Screen Set
- 4 Sulby Tray
- 5 Luda Twist® White
- 6 90° Fluted White Grab Rail
- 7 Close Coupled Dual Flush Toilet with Spatula Flush Handle

## Ramps & steps

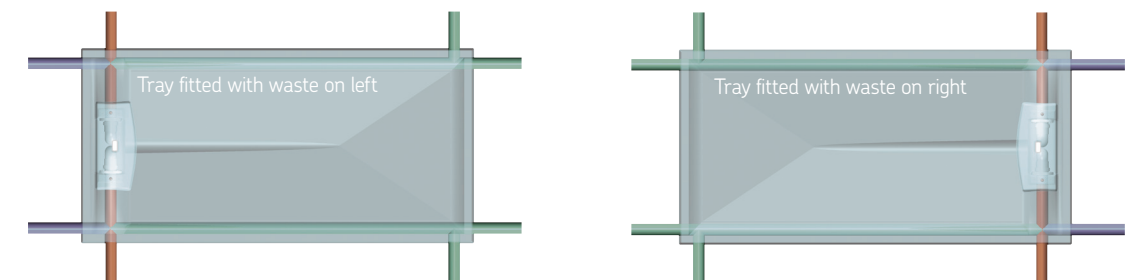

| Ramps / steps description        | Dimensions                 | Product code |
|----------------------------------|----------------------------|--------------|
| 1. Straight ramp for Sulby trays | 770 (w) x 480 (d) x 90 (h) | <b>25009</b> |
| 2. Corner ramp for Sulby trays   | 770 (w) x 630 (d) x 90 (h) | <b>25008</b> |
| 3. Step for Sulby trays          | 720 (w) x 300 (d) x 45 (h) | <b>25007</b> |

Gradient for ramps 1:6

NOTE: Dimensions are outside dimensions

## Sulby waste installation

Three different waste directions are available for ease of installation.

Most direct outlet  
– preferred route

Second option – adds one  
90° elbow under the tray

Third option – for use if options  
one and two cannot be used

### SULBY EXIT HEIGHTS:

90mm Sulby Tray exit height is 60mm high at waste end

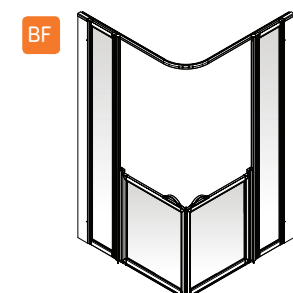

110mm Sulby Tray exit height is 80mm high at waste end

## Screen options

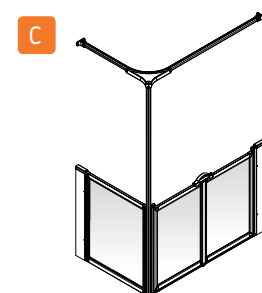

All screens include curtain rail, curtain, gliders and fixings.

## Solid concrete installation: suitable also for timber floor installations

- Built-in waste
- Low level access
- Trays need to be supported on all four sides
- No underfoam required
- Tiling upstands provided for greater water retention and integrity

All AKW Sulby trays have a built in 31mm gravity waste, set above floor level. An adaptor is provided to make up to 38mm. This gives a 38mm water capacity and 35mm fall on exiting the tray.

## Sulby waste drawings

ABS cover lifts off to expose waste.

Trap and strainer are removed to give clear access for rodding if required.

A stop end is supplied for fitting to the unused waste outlet.

Weir allows for 31 – 38mm trap

## Features at a glance

Suitable for wooden floor

Suitable for screeded floor

Suitable for concrete floor

Surface mounted (90 or 110mm high)

Slip resistant surface

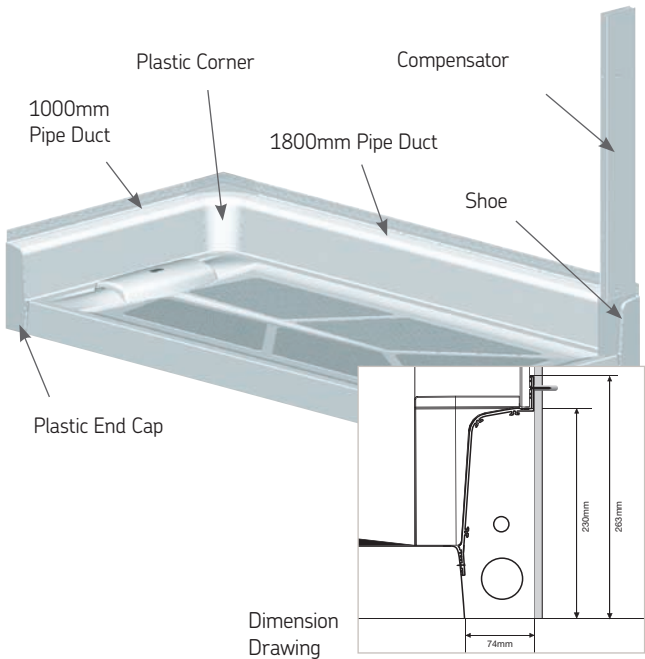

Central waste (non handed)

## Pipe duct kits

Available separately pipe duct kits fit on to the edge of the tray to avoid re-routing of existing pipework

- Fully waterproof mouldings
- Quick installation
- Substantial savings on time and labour costs
- Requires extra wide compensator (see below)

| Kit 1 contents              | Product code |
|-----------------------------|--------------|
| 1 x 1800mm pipe duct        | 25038        |
| 2 x Plastic end caps        |              |
| Kit 2 contents              | Product code |
| 1 x 1000mm pipe duct        | 25039        |
| 1 x Plastic corner assembly |              |

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm

Height: 750mm, 900mm or 1870mm

| Description |                | Product code |

# Multi Spec

If you're not sure what the final installation conditions will be, the flexibility of the Multi Spec tray is the ideal solution

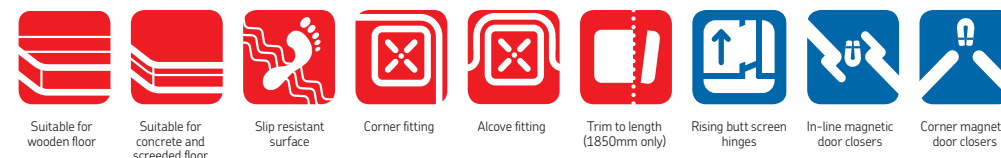

## Benefits

- Multi Spec trays can provide level access or be surface mounted for low entry
- Total flexibility means you can fit most spaces
- Strong, with built in reinforced steel sections
- A 35mm fall inside the tray gives excellent drainage
- Slip resistant surface for added safety
- Wide choice of screens, curtains and rails

## Features

- Suitable for all floor types and alcove installations (kit supplied)
- Integral pipe duct system avoids re-routing pipework (as shown on page 73)
- Optional upward discharge system
- No under tray foaming required

## Wooden floor installation

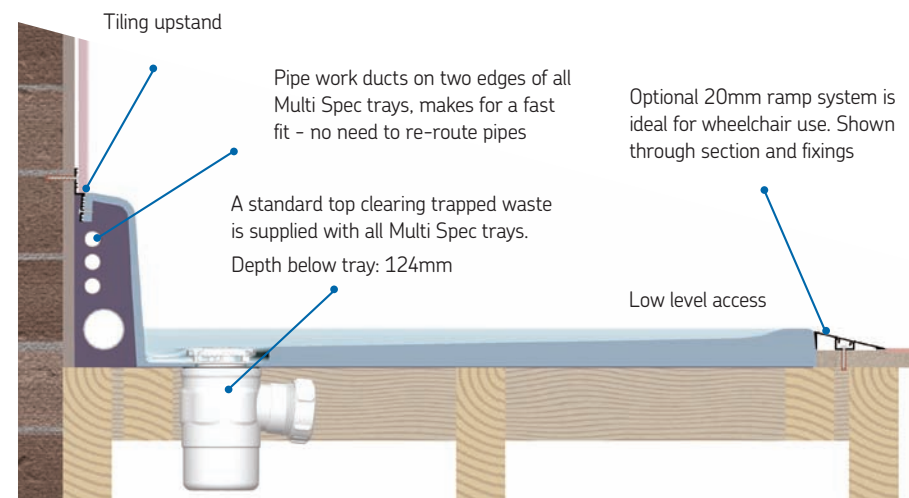

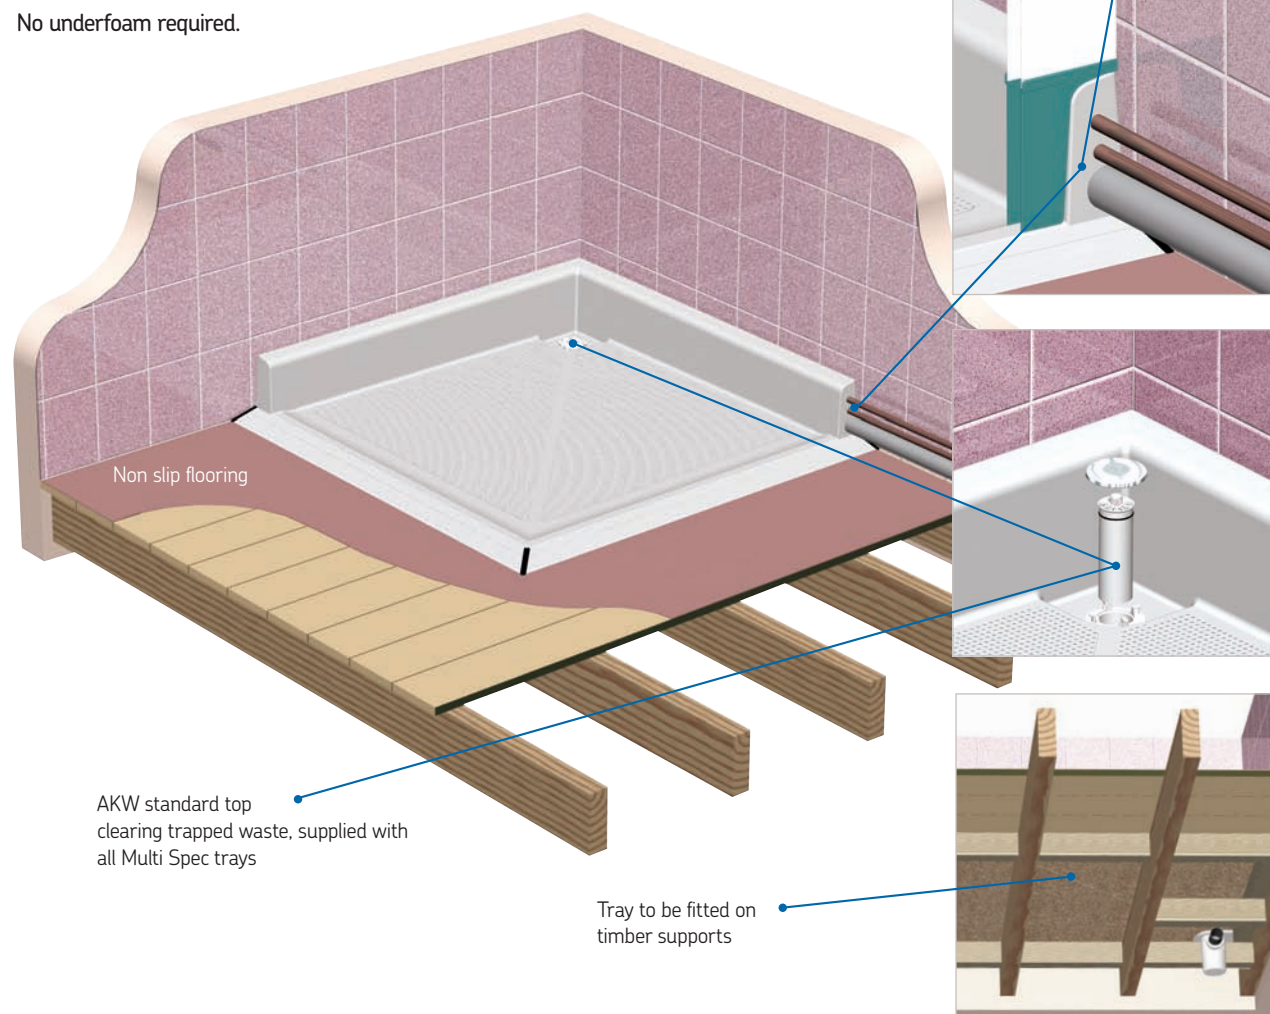

AKW Standard Gravity Waste.

Low level access.

Multi Spec installed in a wooden floor. The tray sits on the joists, the waste position avoids the joists whichever way they run. The 20mm ramp system fitted gives very low level entry. The standard gravity waste is fitted on this installation.

Trays need to be supported on all four sides and with cross braces.

No underfoam required.

## Integral pipe duct

All Multi Spec trays incorporate a special pipe work duct to avoid re-routing pipework. The plastic moulding fits to mount the screen compensator is easily waterproofed (shown in green below). The large pipe duct on two sides of the tray makes it unlikely that wall mounted pipe work previously sited below the bath will have to be moved. This allows fast installation with substantial savings on time and labour costs.

## Waste position avoids joists

The Multi Spec tray (below) shown fitted to a wooden floor. The joists have been illustrated in both directions to show how the waste easily avoids the joists. The Multi Spec can also be surface mounted.

## Concrete floor installation

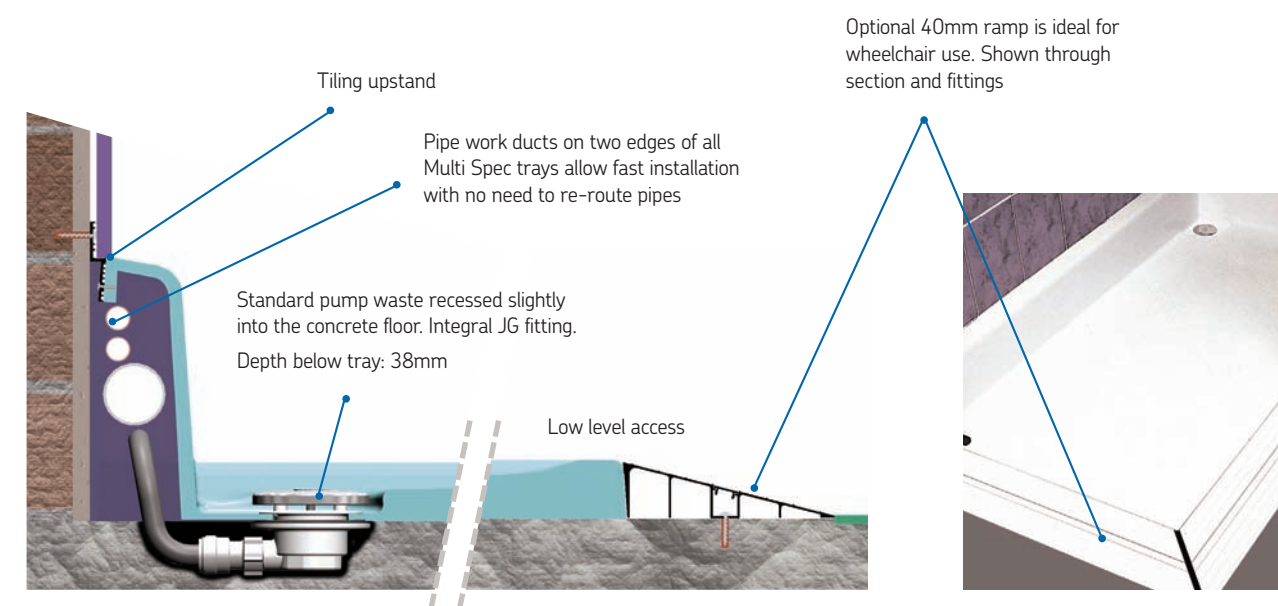

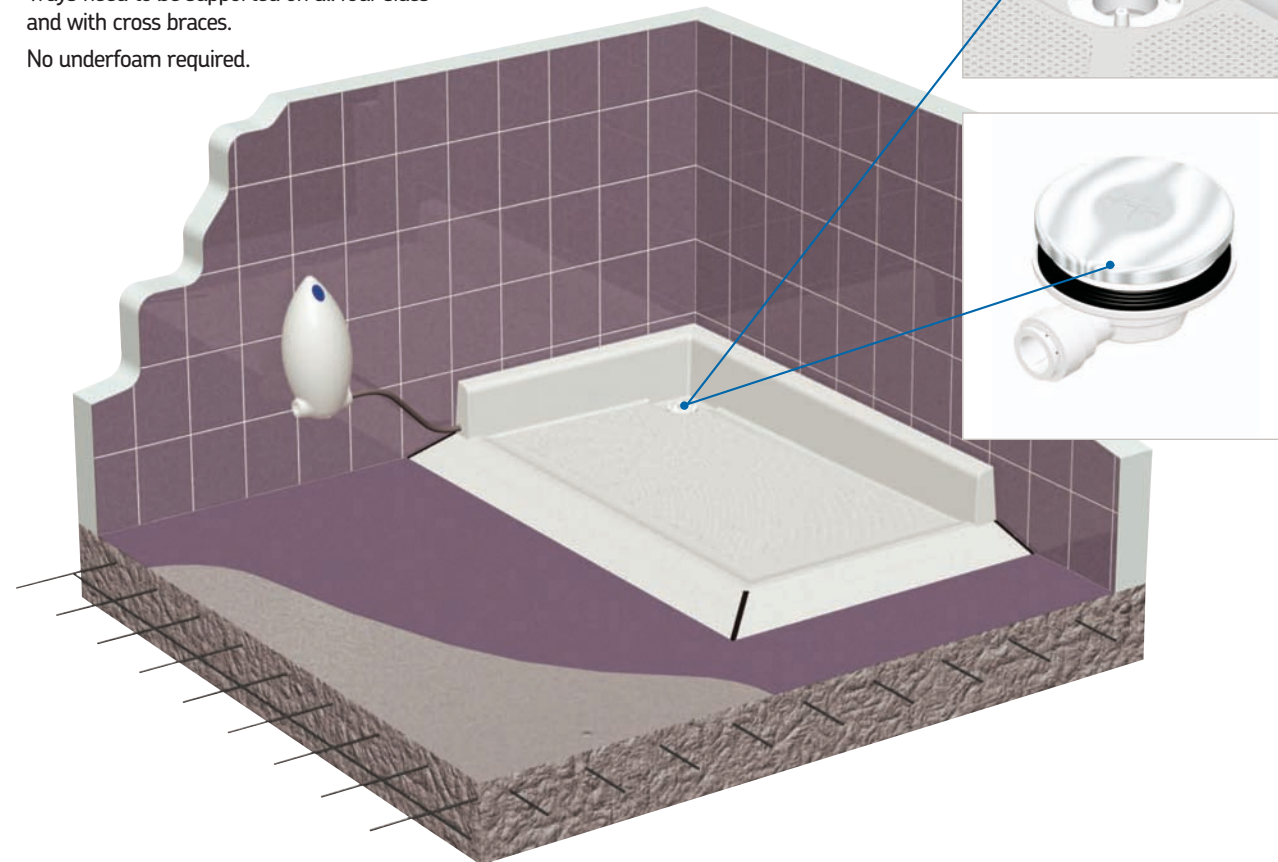

AKW Standard Pumped Waste.

Low level access.

Multi Spec surface mounted on a concrete floor, using either the standard pump waste featured below or alternatively the factory fitted upward discharge pump waste can be specified. Also featured is the optional 40mm ramp system.

Trays need to be supported on all four sides and with cross braces.

No underfoam required.

Trays are shown in colour for illustrative purposes only

# Screeded floor installation

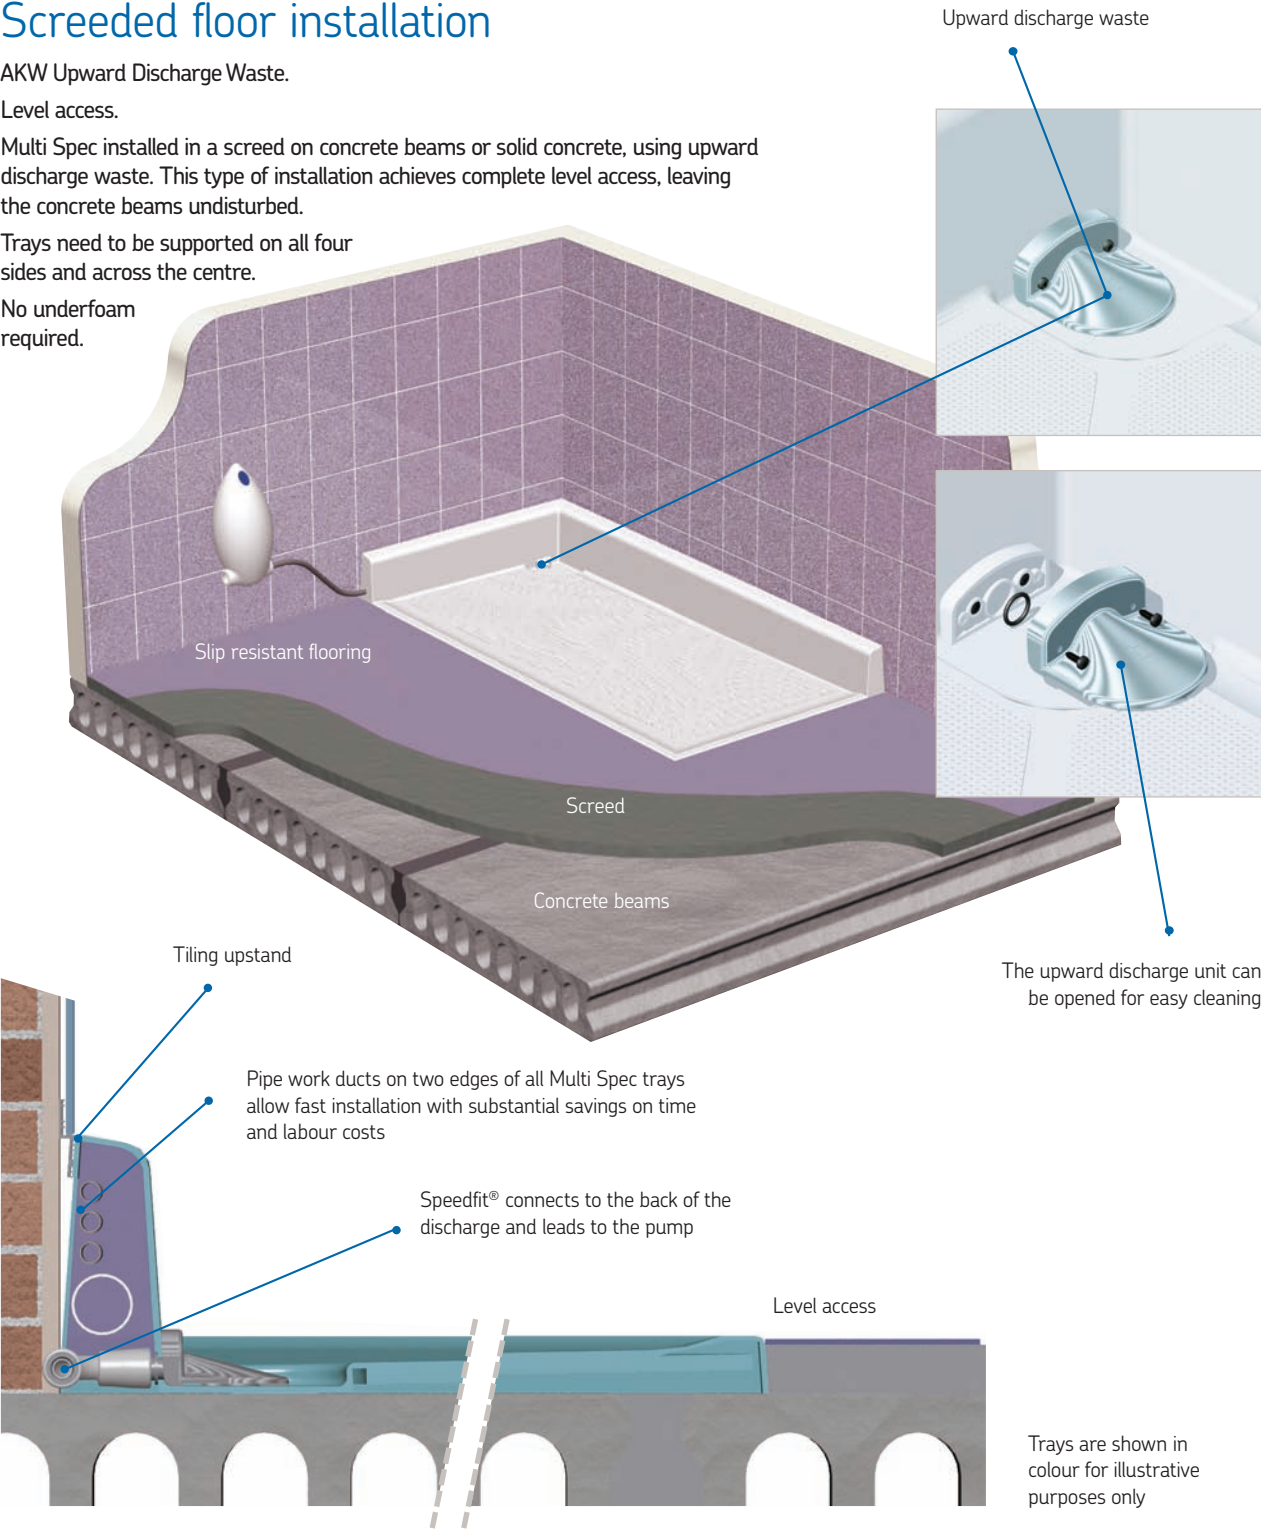

AKW Upward Discharge Waste.

Level access.

Multi Spec installed in a screed on concrete beams or solid concrete, using upward discharge waste. This type of installation achieves complete level access, leaving the concrete beams undisturbed.

Trays need to be supported on all four sides and across the centre.

No underfoam required.

# Waste options

For shower waste options see pages 158-167.

# Integral pipework duct

The Multi Spec tray has the advantage of a large integral pipe work duct on two sides as standard. Not only does this help to avoid the re-routing of pipework but it also allows faster installation providing substantial cost savings on time and labour.

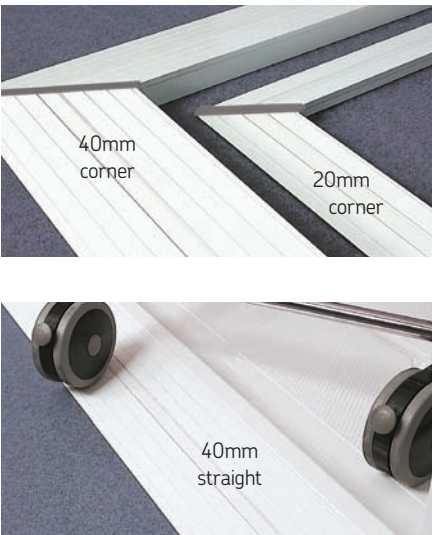

# Ramp kits

Aluminium 20/40mm

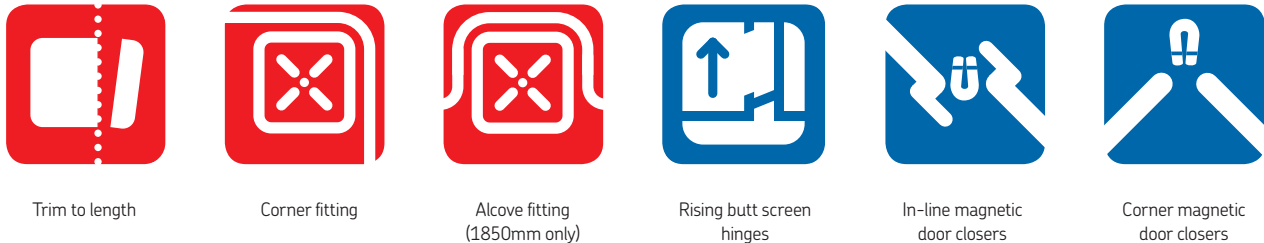

Braddan ramp kits allow easy wheelchair access and are available for surface mounted or semi recessed trays in 20mm and 40mm heights. Ramps kits are supplied for corner or straight access and can be cut to size on site.

| Aluminium ramps description        | Product code |
|------------------------------------|--------------|
| 20mm straight ramp (length 1800mm) | 25000        |
| 40mm straight ramp (length 1800mm) | 25002        |
| 20mm corner ramp (1045 x 1045mm*)  | 25001        |
| 40mm corner ramp (1045 x 1045mm*)  | 25003        |

Note: Actual height for 20mm ramp is 19.4mm. Actual height for 40mm ramp is 38.5mm.  
\*Outside dimensions

# Features at a glance

# Low Profile

Suited to wooden floors and one of the easiest trays to install, Low Profile can be fitted for either level or low level access

## Benefits

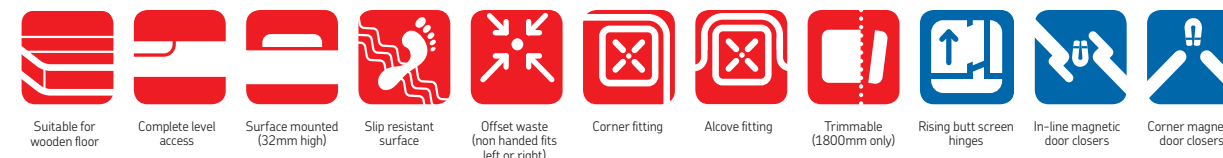

- At just 32mm high, the Low Profile tray is ideal for where level or low access is needed
- Excellent water drainage with a 25mm fall inside the tray
- Reinforced with steel sections for extra strength
- A large selection of screens, curtains and rails give real choice
- Slip resistant surface for added safety
- Robust and easy to clean

## Features

- Easy installation, thanks to offset waste position to avoid joists
- 'Non handed' – it fits left or right
- 1800mm trays supplied with a trim to length kit
- No under tray foaming required
- Tiling flange supplied
- Pipe duct kits available

Please note. Low Profile is for use only with gravity wastes, and NOT for pumped wastes.

## Wooden floor installation

AKW 90mm Gravity Waste.

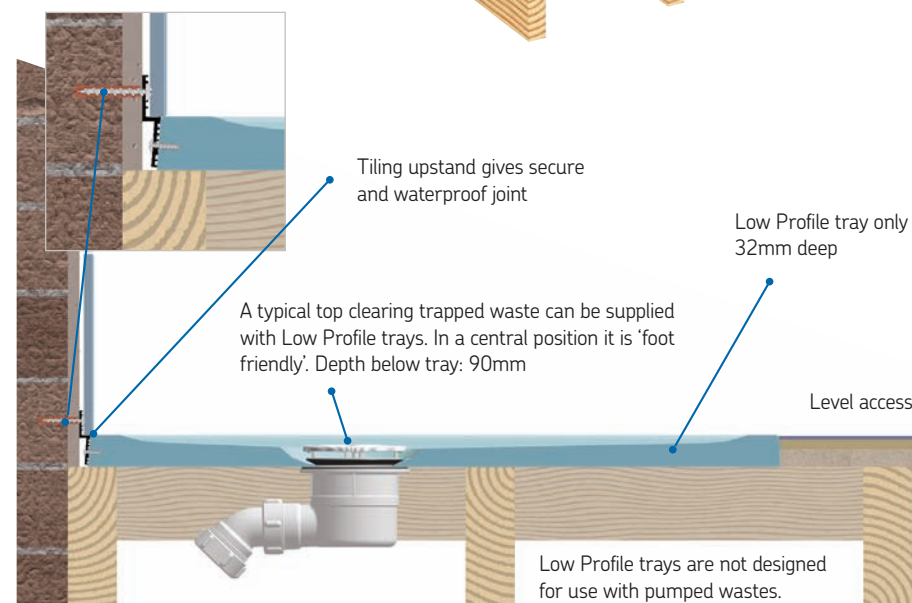

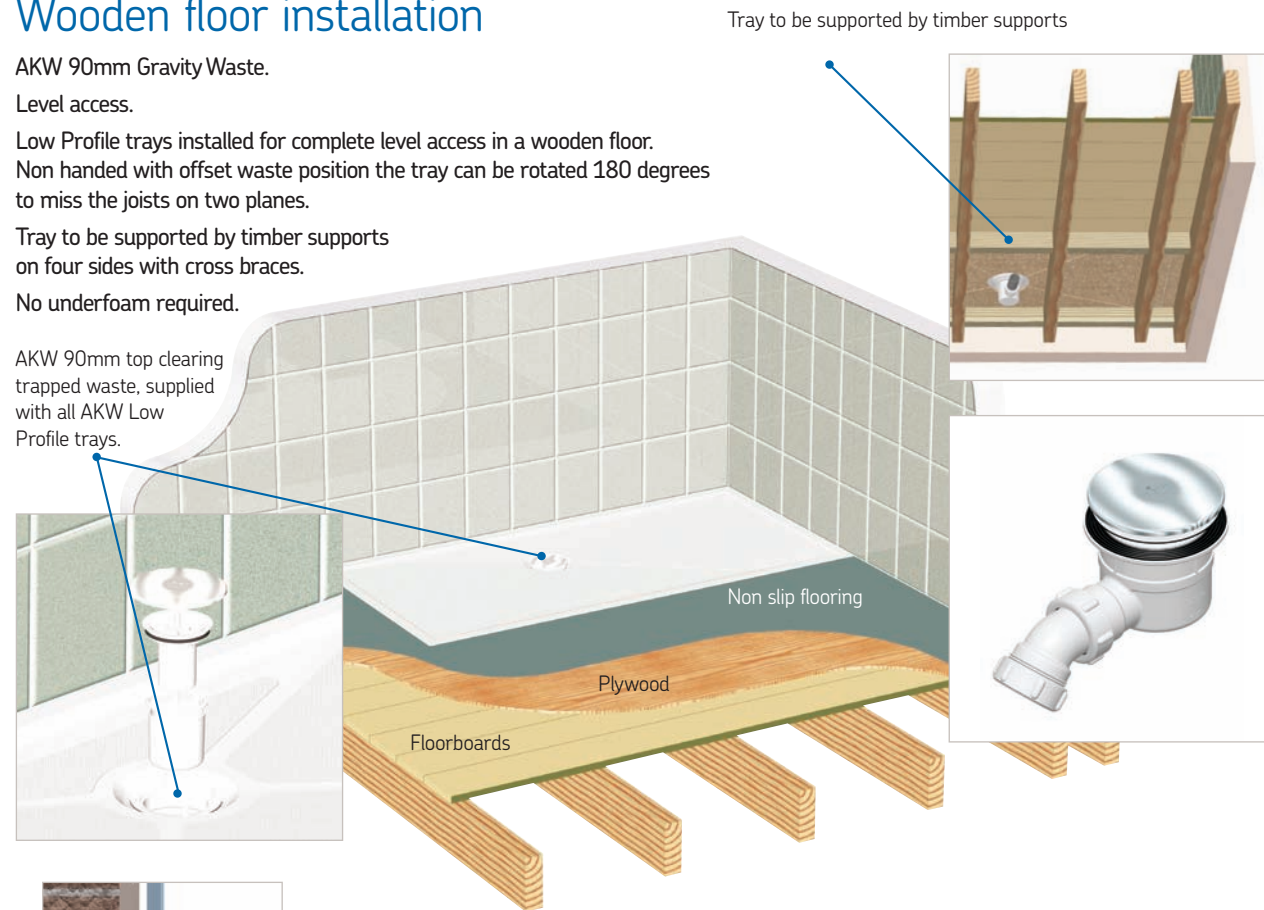

Level access.

Low Profile trays installed for complete level access in a wooden floor. Non handed with offset waste position the tray can be rotated 180 degrees to miss the joists on two planes.

Tray to be supported by timber supports on four sides with cross braces.

No underfoam required.

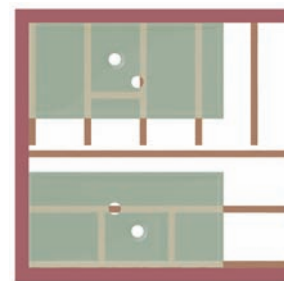

AKW 90mm top clearing trapped waste, supplied with all AKW Low Profile trays.

Trays are shown in colour for illustrative purposes only

### Rotate tray to avoid floor joists

By rotating the rectangular trays by 180 degrees the waste position moves in two directions to avoid the joists and pipework. Square trays rotate in 90 degree increments for four alternative waste positions

## Waste options

For shower waste options see pages 158-167.

### GW90

90mm Diameter Gravity Waste  
Patent Pending, Code: 25120

### Low depth GW90

Low depth 90mm Gravity Waste  
Patent pending  
code: 25404

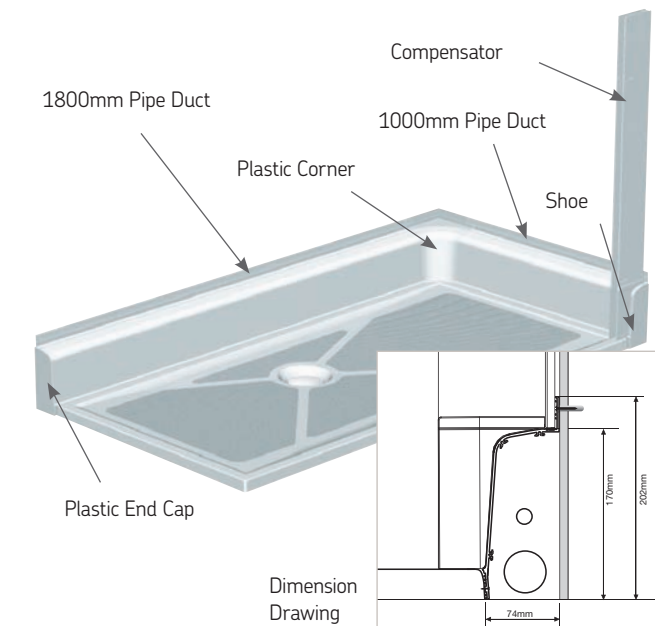

## Pipe duct kits

Available separately pipe duct kits fit on to the edge of the tray to avoid re-routing of existing pipework.

- Fully waterproof mouldings
- Quick installation
- Substantial savings on time and labour costs
- Requires extra wide compensator (see opposite)

| Kit 1 contents            | Product code |
|---------------------------|--------------|
| 1 x 1800mm pipe duct      | 25038        |
| 2 x Plastic end caps      |              |
| Kit 2 contents            | Product code |
| 1 x 1000mm pipe duct      | 25039        |
| 2 x Plastic corner supply |              |

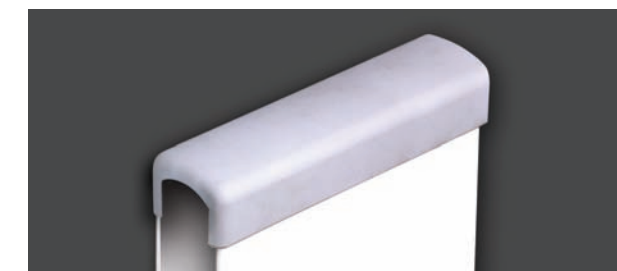

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm

Height: 750mm, 900mm or 1870mm

| Description |                | Product code |
|-------------|----------------|--------------|
| 750mm       | Non handed     | 24130        |
| 750mm       | Left (short)*  | 24131        |
| 750mm       | Right (short)* | 24132        |
| 900mm       | Non handed     | 24133        |
| 900mm       | Left (short)*  | 24134        |
| 900mm       | Right (short)* | 24135        |
| 1870mm      | Non handed     | 24136        |
| 1870mm      | Left (short)*  | 24137        |
| 1870mm      | Right (short)* | 24138        |

\* For use with Pipe duct kits

# Keppel

Elegant and sophisticated Keppel tray is ideal for a modern bathroom

## Benefits

- Exceptional water drainage, with a 30mm fall to waste
- Create the ideal enclosure with our selection of full or half height screens
- Extra safety, thanks to a slip resistant surface
- The surface mounted Keppel is easy to install and offers a low threshold and excellent water handling
- Suits all fitting needs, with five different tray sizes

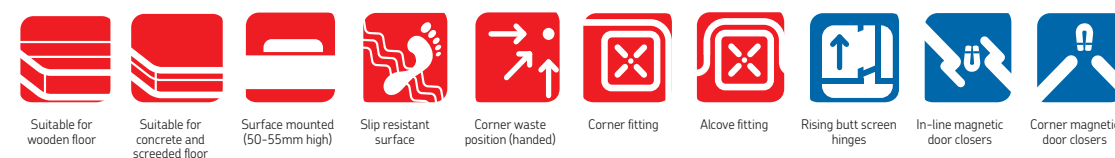

## Features

- Surface mounted
- Handed – fits left or right
- Threshold height of 50-55mm

- |  |                             |                                       |

# Shower Cubicles

## Standalone

Ideal for any room or bedroom, AKW's standalone cubicles give you comfortable showering and a choice of options.

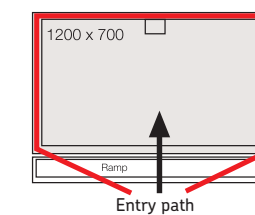

### Benefits

- An excellent solution when bathroom can not be accessed
- Quick to install, causing minimum disruption
- Can be easily moved, giving flexibility if circumstances change
- An open sided option offers the perfect bath replacement for people who need the aid of a carer
- Grab rails supplied for easy access and use
- Ramp supplied (excluding side flow waste option)
- Washbasin pack and accessories can be added to provide a complete adaptation

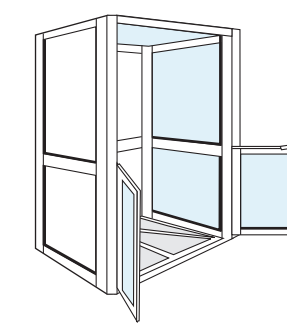

### Features

- All cubicles include tray, screen, waste, glazed ceilings, grab rail, curtain, rail, gliders & fixings
- An entry height of 40mm or 90mm means they're ideally suited for use with a ramp
- Suitable for above floor pumped, side flow waste and below floor gravity waste

## Standalone Shower cubicles – 1200 x 700

# Shower screens

All our shower screens are designed specifically for the mobility and domestic markets and are both extremely practical and stylish

## Benefits

- Full height screens compliment any elegant bathroom
- Half height screens give easy carer access
- A stronger magnetic strip increases water retention
- Robust frames for a longer life
- Stronger fittings provide better wear and tear
- PET panels gives shatterproof glazing and added safety
- Quality curtains provided as standard

## Features

- New improved smooth modern latches and D handles
- 180° hinges enable doors to open both inwards and outwards
- Bi-fold screens feature 360 degrees hinges
- Unique locking rising butt two-way hinges
- Elastomeric gaskets provide a high integrity, watertight seal
- Stronger and better designed seals for a continuous water barrier
- Drop rods are 600mm long where supplied
- All hinges and caps made from hardwearing Nylon 6

Please note: all measurements are taken from outside the screen and are not the tray size. Screens are not guaranteed water tight. Any 760mm screen is achieved with an extra wide compensator.

# Wet floor

## Option PW screen, handed

Fixed panel with bi-parting, overlapping doors, opening in and out. Straight curtain rail can be cut to fit. Supplied with special corner blocks designed to be trimmed on site to accommodate any radius to coved slip resistant flooring. Handles are included with Option PW.

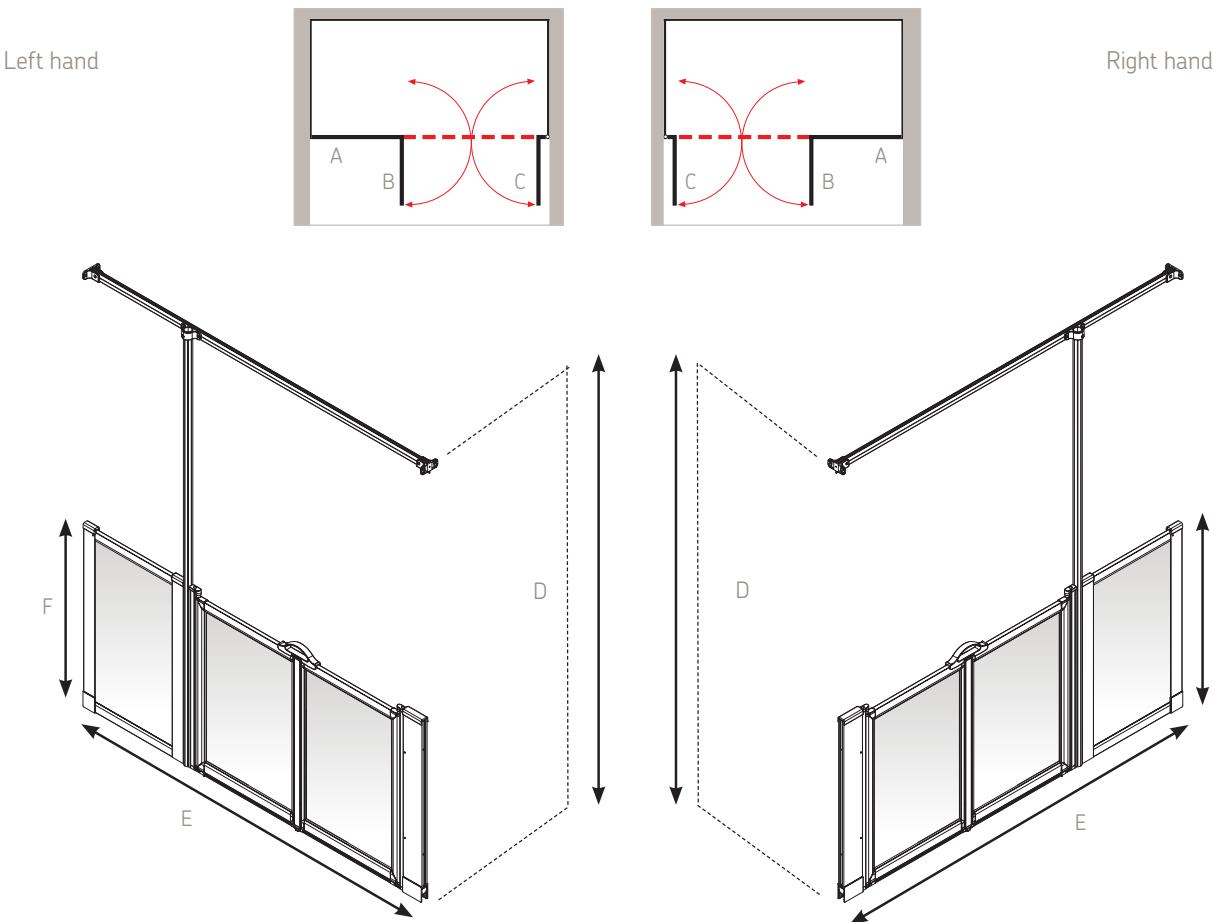

| Overall tray dimension | A     | B     | C     | D      | E             | F        |          |
|------------------------|-------|-------|-------|--------|---------------|----------|----------|
|                        |       |       |       |        |               | 900mm    | 750mm    |
| 1800mm                 | 560mm | 629mm | 641mm | 1880mm | 1500 - 1800mm | 91182L/R | 91183L/R |

Please Note: Compensators are set at mid point giving 14.5mm in and out adjustment on both sides  
**Column E - measurements account for adjustment with overlapping doors**  
Overlapping doors enable the Option P screen set to be adjusted on site to accommodate different alcove widths. This avoids the need for accurate pre-measurement and specially made screens.

# Wet floor

## Option TTW screen, handed

Trimmable panel with bi-parting doors, opening in and out. Straight curtain rail. Handles are an optional extra.

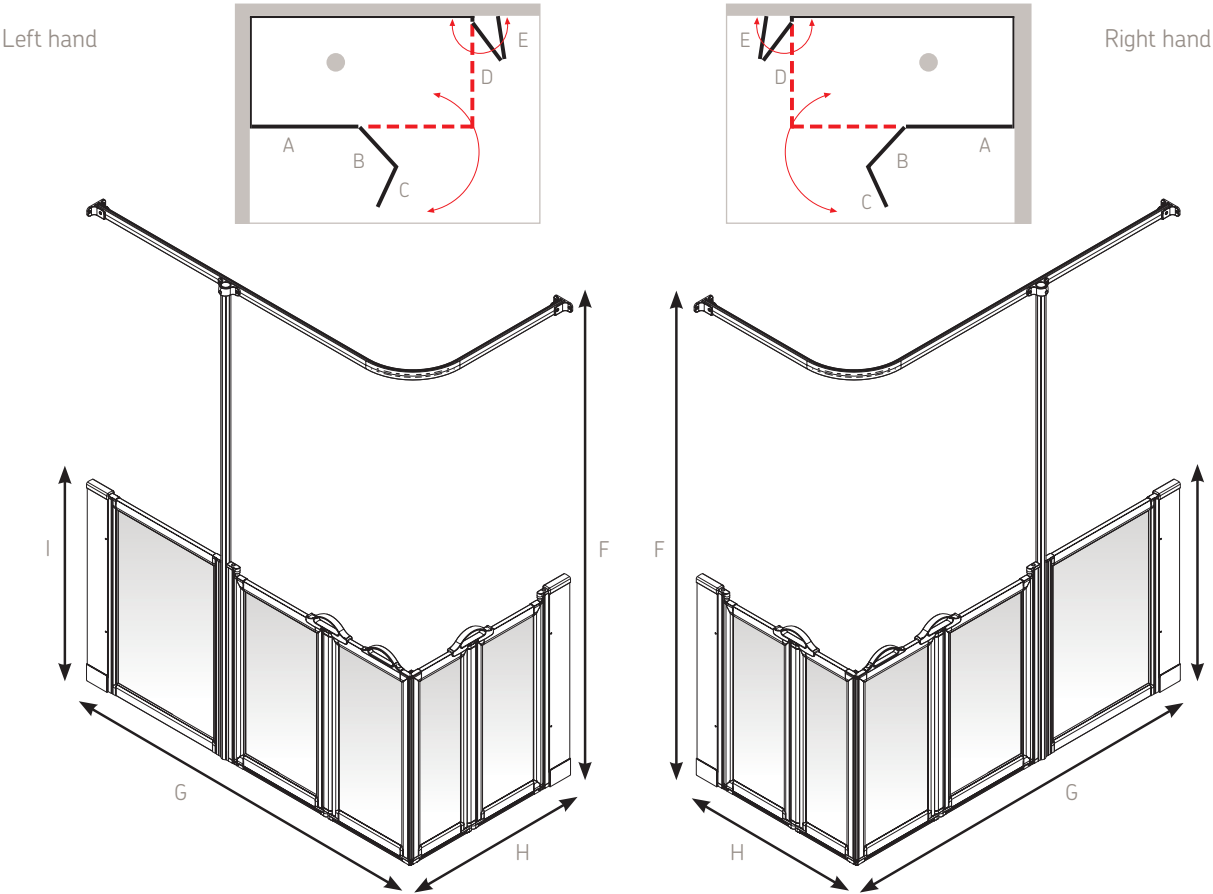

| Overall tray dimension | A     | B     | C     | D      | E             | F        |          |

## Support poles

### 1. Upright pole extension kit

Designed to give additional strength and rigidity to any screen options with a post. The upright pole extension is 940mm long and can be cut to length as required.

Pole diameter is 32mm.

Product code: 24212

### 2. Back support pole

Suitable for vertical poles where upright support posts may need additional support. The back support pole is 870mm and can be cut to suit tray width.

Pole diameter is 32mm.

Product code: 24211

## Extra wide compensator

Designed to give approximately 50mm additional width to a standard shower screen enclosure area. Also for use with a pipe duct kit or where pipes have been boxed in.

Width: 105mm

Height: 750mm, 900mm or 1870mm

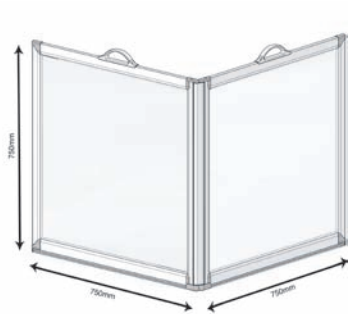

| Description |                | Wet floor |

## Made to measure

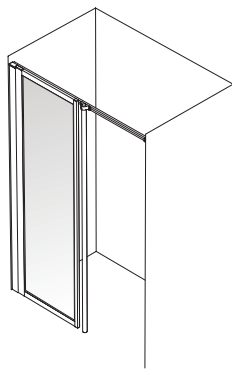

In addition to standard screens, AKW offer a made to measure screen service and can manufacture almost any screen combination to your requirements. Below are illustrations of some of the more typical requirements. Made to measure screens are normally despatched 2 working days from agreed specification. All handed screens are shown left handed. Non-handed screens are marked 'non handed'. For quotations please fax us your drawing or phone for template form to be sent to you.

**Note: MM screens are non-returnable and non-refundable**

### MM1/MM1F Made-to-measure screen

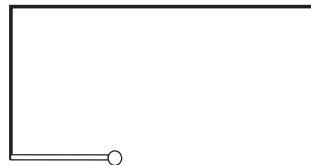

Product code: **91160**  
MM1

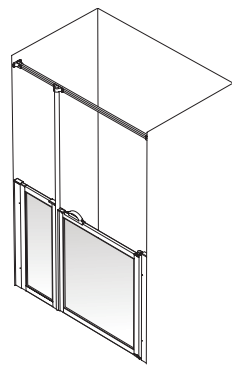

Product code: **91161**  
MM1F

Various sizes & configurations available.  
**Fixed Panel**

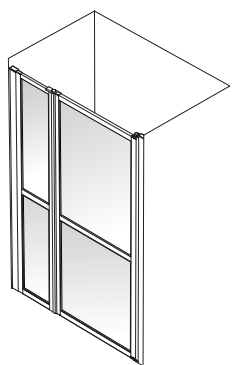

1 panel

### MM2/MM2F Made-to-measure screen

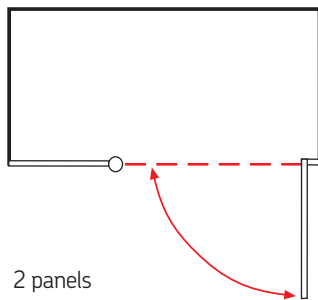

\*Example of half height screen above  
Product code: **91162**  
MM2

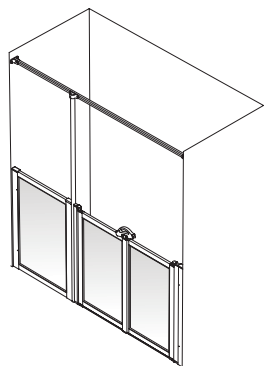

\*Example of full height screen above  
Product code: **91163**  
MM2F

Various sizes & configurations available.  
**Fixed Panel**  
Single door opening out only

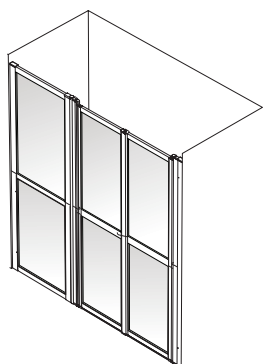

2 panels

### MM3/MM3F Made-to-measure screen

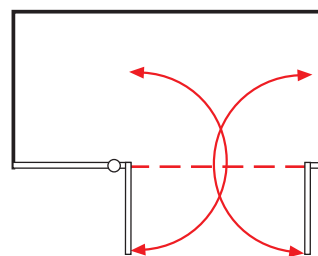

\*Example of half height screen above  
Product code: **91164**  
MM3

\*Example of full height screen above  
Product code: **91165**  
MM3F

Various sizes & configurations available.  
**Fixed Panel**

2 x bi-parting doors

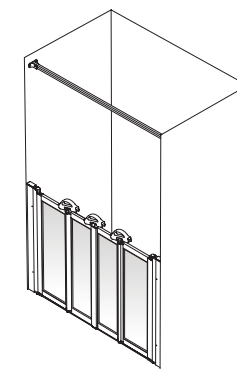

3 panels

## Made to measure

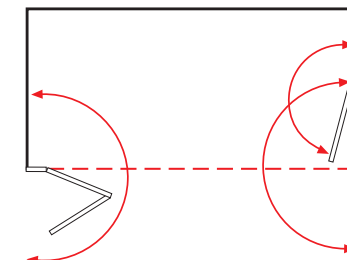

AKW can make special screens to fit alto floors for any of our trays. Alternatively if you require a different screen configuration and can provide us with an accurate drawing, we will be able to quote for individual requirements.

**Note: MM screens are non-returnable and non-refundable**

### MM4 Made-to-measure screen

Example of half height screen above  
Product code: **91166**

4 panels

Various sizes & configurations available.

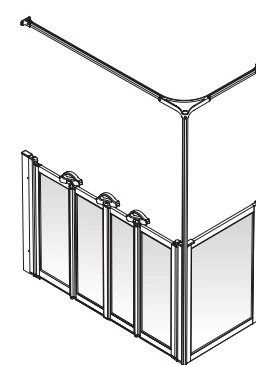

Twin bi-folding doors

opening in and out (illustrated)

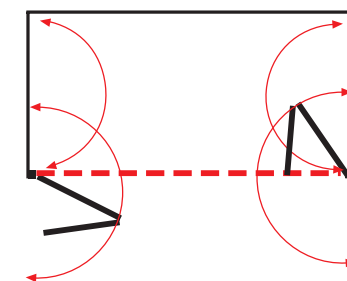

Smallest size 1160mm wide.

Bi-fold not available full height.

### MM5 Made-to-measure screen

\*Example of half height screen above  
Product code: **91167**

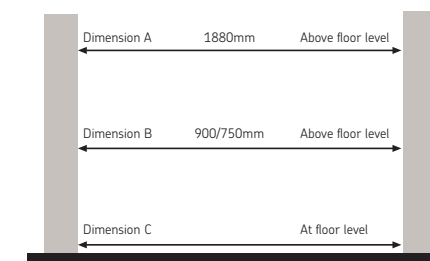

5 panels

Various sizes & configurations available.  
**Fixed Panel**

Twin bi-folding doors opening in and out

## Specifying Made-to-measure screens

Note: Standard Compensators have an overall adjustment of 29mm.

For AKW trays please state:

- Tray type
- Tray size
- Tray handing (if any)
- Accurate drawing (giving measurements for panel and post sizes or door entry width)

For Wet Floor areas please consider:

- Rise and fall hinges to clear the floor
- Corner blocks. Trim to fit on site to fit the corner radius on safety flooring
- Accurate drawing required

For wall to wall made-to-measure screens please state:

- Dimensions A, B and C (after completion of wall tiling)

# Showers

Showering is an important part of life – that's why we've carefully chosen a range of care showers to give you safe and comfortable showering, whatever your space or need

## Benefits

- Developed and selected for the mobility and domestic market
- All designed for easy operation
- Thermostatic control and adjustable temperature safeguards
- Care accessory kits supplied
- 2 year warranty as standard for peace of mind (extended options available)

## Features

- Choice of showers available for varying water pressures and installation conditions
- Waste pump connectivity available
- Easy to operate levers or buttons
- Adjustable flow and anti-scalding features available

- |                           |  |                              |

# Luda®

## A revolution in care showers

The first 'intelligent electric care shower' designed for users of all abilities, LUDA® also offers safe showering for users with restricted mobility or visual impairments.

### Benefits

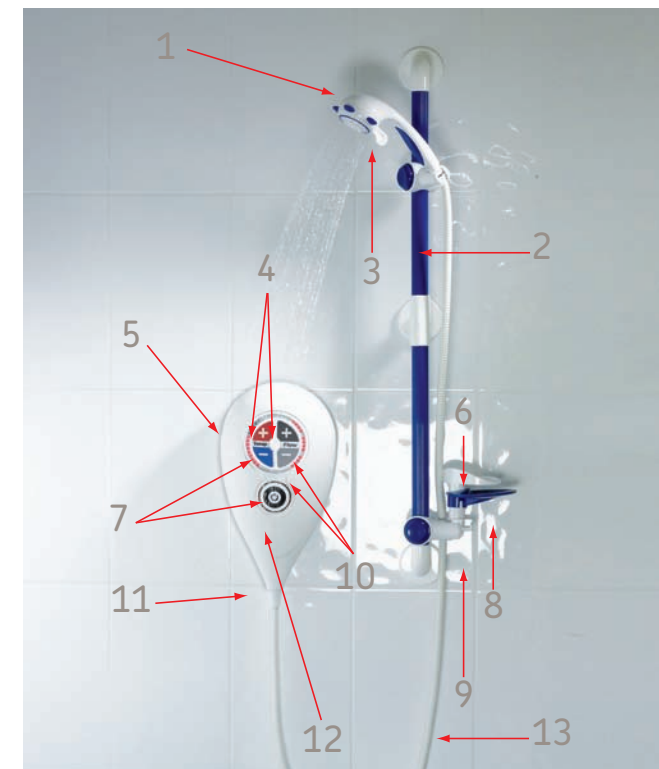

- High visibility tactile buttons and audio recognition make Luda® easy and safe to use
- A unique tear shape design gives more space to seated users
- Adjustable shower head, soap dish & shelf for greater comfort
- 2m extra long shower hose, for carer use
- A fluted riser rail provides extra grip and can support up to 190 kg
- 3 different flow rates to help you save water
- Additional handset holder to accommodate seated or standing user

### Features

- 1 metre long riser rail doubles as a grab rail
- RNIB accreditation, IP45 rated and carries comprehensive BEAB and BEAB care approval
- Non return valve - no retainer required
- Designed for easy cleaning
- 10kW power gives a consistent all year round performance
- Direct connectivity to all AKW waste pumps

Product Code: 23180WH (white riser rail)

Product Code: 23180BH (blue riser rail)

## Luda® characteristics

1. Shower head (5 spray patterns)
2. 1 metre grab rail
3. Shower head spray lever
4. Tactile control buttons
5. Shower unit
6. Shelf
7. Audible & illuminated water temperature indicators
8. Soap dish
9. Handy hook
10. Audible & illuminated flow rate indicators
11. Integral non return valve
12. Audible & illuminated start & stop button
13. 2 metre hose

## Luda Twist®

Optional Luda Twist® features a paddle at the base, allowing the user to twist the shower head and spray where needed from a seated position. Doubles as a grab rail for extra safety.

Available in white or blue for visually impaired users.

- The Luda Twist® is a special fluted grab rail offering added benefits to the seated user
- The paddle lever normally locks the grab rail so it behaves like any other fixed grab rail, but when lifted (even with a clenched fist) the user can twist the rail to direct the shower head & spray just where they need it!
- The paddle can also act as another soap dish
- The Luda Twist main soap dish stays at the base of the rail & has added hooks for face cloth, soap or shampoo containers, keeping them accessible

# Luda® IncLuda Kits & Pump Connections

IncLuda kits are available with all AKW digital pumps without the need for a flow switch or sensor.  
Also available as an AKW Luda® IncLuda Twist®.

**AKW DIGIPUMP® M1**  
Waste water pump

- For use with single supply or low pressure mixer showers
- Pump and controller enclosed in one unit
- Max flow rate: 16.5 litres/min\*
- Non-handed unit (To fit left or right inlet)
- 22mm inlet & 22mm outlet

Additional flow sensors available

**AKW DIGIPUMP® M2**  
Waste water pump kit

- For use with high performance showers or low pressure mixer types
- Pump and controller enclosed in one unit
- Non-handed unit (To fit left or right inlet)
- Works at low voltage to comply with BS 7671
- Max flow rate: 17 litres/min\*
- 36mm inlet & 36mm outlet

Pipework connections are not supplied

**AKW DIGIPUMP® M3**  
Waste water pump

- For use with electric and low pressure mixer showers
- Pump and controller enclosed in one unit
- Max flow rate: 13 litres/min\*
- Non-handed unit (To fit left or right inlet)
- 22mm inlet & 22mm outlet

**AKW DIGIPUMP® 4**  
High performance waste water pump

- Quiet in operation
- For use with single supply, electric or low pressure mixer showers
- Pump and controller enclosed in one unit
- Max flow rate: 12 litres/min\*
- Non-handed unit (To fit left or right inlet)
- 15mm inlet & 22mm outlet
- IP45

## AKW Pump Connections

Direct connectivity to all AKW waste pumps

# Triton Safeguard pumped care

Thermostatic electric shower

- Pumped electric for low or negligible water pressures
- Three stage thermostatic performance
- Timed shower function
- Minimum temperature set at 35°C
- Push button start/stop with phased shutdown
- Power and low flow indicators
- Extended 1m riser rail
- Waste pump connectivity to all AKW waste pumps

\*water supply must be pumped, not mains fed

Product Code: 25336

# Triton Safeguard T100 care

Thermostatic electric shower

- Three stage thermostatic performance
- Adjustable maximum temperature stop
- Minimum temperature set at 35°C
- Operates even when the site has low pressure
- Earth bonding within unit
- Waste pump connectivity to all AKW waste pumps
- Timed shower function
- Raised features and contrasting moving parts
- Power and low flow indicators
- Phased shutdown
- Extended 1m riser rail
- BEAB Care & RNIB accredited
- Suitable for cold mains

Product Code: 25300

# The Mira Advance ATL Flex shower heater

Independent showering for all

- Thermostatic control and adjustable temperature safeguards
- Extended lever control
- Handset with raised areas to aid touch
- Independent temperature and flow selection
- Thermostatic control to +/- 1°C with adjustable maximum temperature limit
- Extended 2m hose, 1m slide bar and additional handset holder
- RNIB Endorsement
- Rate 11 litres max
- Waste pump connectivity to all AKW waste pumps

Please note: Water supply must be mains fed, not gravity fed

Product Code: 25104

## Arka<sup>®</sup> thermostatic mixer shower

This chrome mixer shower is a great addition to any modern bathroom

### Benefits

- Easy to use paddle levers, suitable for users of all abilities
- Adjustable head giving a choice of three spray patterns
- Independently operated flow and temperature controls for safer use
- Wall bracket allows flexible shower head positioning
- Chrome soap dish means all your showering accessories are within easy reach

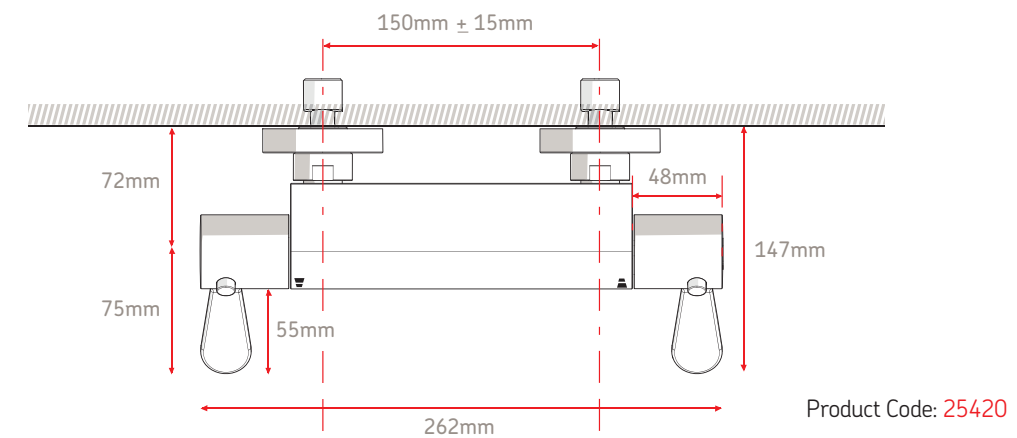

### Features

- Supported by TMV3 approved
- Stainless steel body with chrome finish
- Bottom outlet
- Supplied with 2m chrome hose and 1m chrome riser bar
- Fitted with check valves
- Water pressure min 0.2 bar
- Back water entry
- Maximum temperature can be set to 41 degrees
- No hose retaining ring needed providing greater flexibility

Product Code: 25420

# Digital waste pumps

Designed and manufactured by AKW, our comprehensive range of digital shower waste pumps suits any installation and every need where gravity drainage is not achievable

## Benefits

- Quiet in operation, no disturbing noises
- Compact, with the pump and controller enclosed in one unit
- Easy to install
- Models to suit, electric and low pressure mixer showers

## Features

- Non-handed unit (to fit left or right inlet)
- IP45 rated
- Additional flow sensor are available for use with dual feed showers

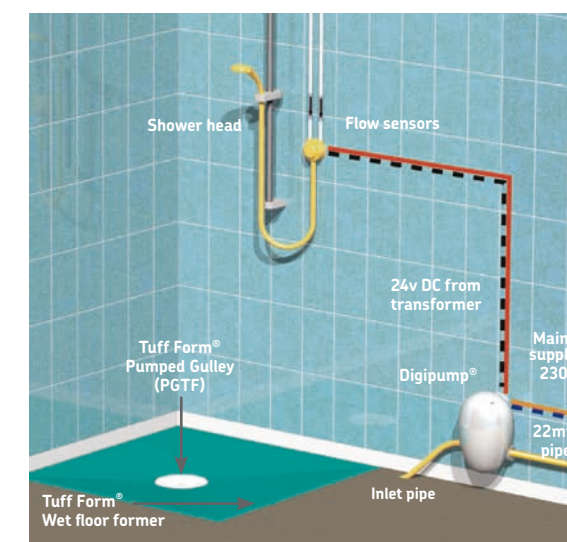

## Digipump® m1, m2, m3 & m4 installation

The unit must be mounted in a vertical position with the inlet and outlet connections at the bottom, ensure the plumbing connections correspond to the arrow of flow indicated on the pump.

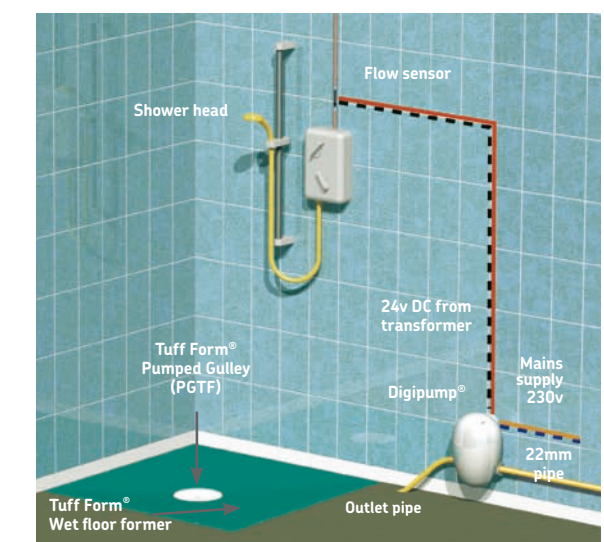

The pump is fitted with two sets of flow sensor wires, either can be used for single flow sensor use (mixer type showers require an additional flow sensor fitted to the hot water supply.) Flow sensors must be mounted in the water feed to the shower.

The pump allows for precise pump control of the shower water by calculating the amount of water the shower is producing. It may be necessary to adjust the pump once installation is complete. The DigiPump® range consists of pump, flow sensor with 3m flex and water filter.

Quiet in operation

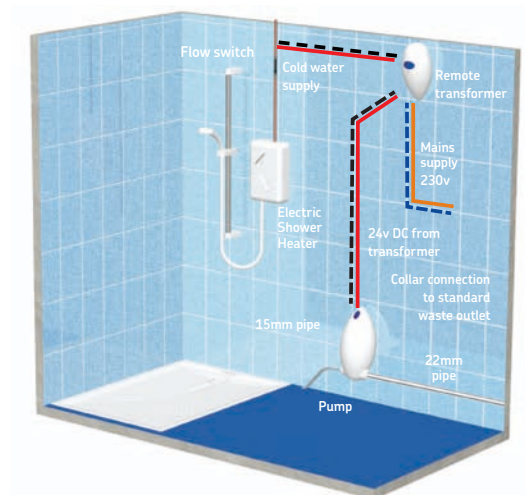

## Electric shower installation

The pump is automatically activated via a flow switch installed in the cold water feed to the shower heater.

When the shower is switched off, the pump continues to run due to an easily adjusted run-on timer, which allows the shower tray to drain completely before the pump switches off automatically.

## Mixer valve shower installation

The pump is automatically activated via two flow switches installed in the cold and hot water feeds. Either one can turn the pump on, but both flow switches need to be off before the pump will switch off.

When the shower is switched off, the pump continues to run due to an easily adjusted run-on timer, which allows the shower tray to drain completely before the pump switches off automatically.

# Manual waste pumps

Designed and manufactured by AKW the manual shower waste pumps accommodate a wide range of needs where gravity drainage cannot be achieved.

### Benefits

- Quiet in operation, no disturbing noises
- Pump and controller enclosed in two units
- Easy to install
- Models to suit, electric or low pressure mixer showers

### Features

- Non-handed unit (to fit left or right inlet)
- IP45 rated
- Additional flow switches are available for use with dual feed showers

# Screedmaster®

With Screedmaster®, you can fit a pumped waste into a floor screed without having to excavate the entire floor.

## Benefits

- Enables quick and hassle free installation
- Strong enough to cope with wheelchairs and chair legs
- The waste cover can be removed for easy cleaning

## Features

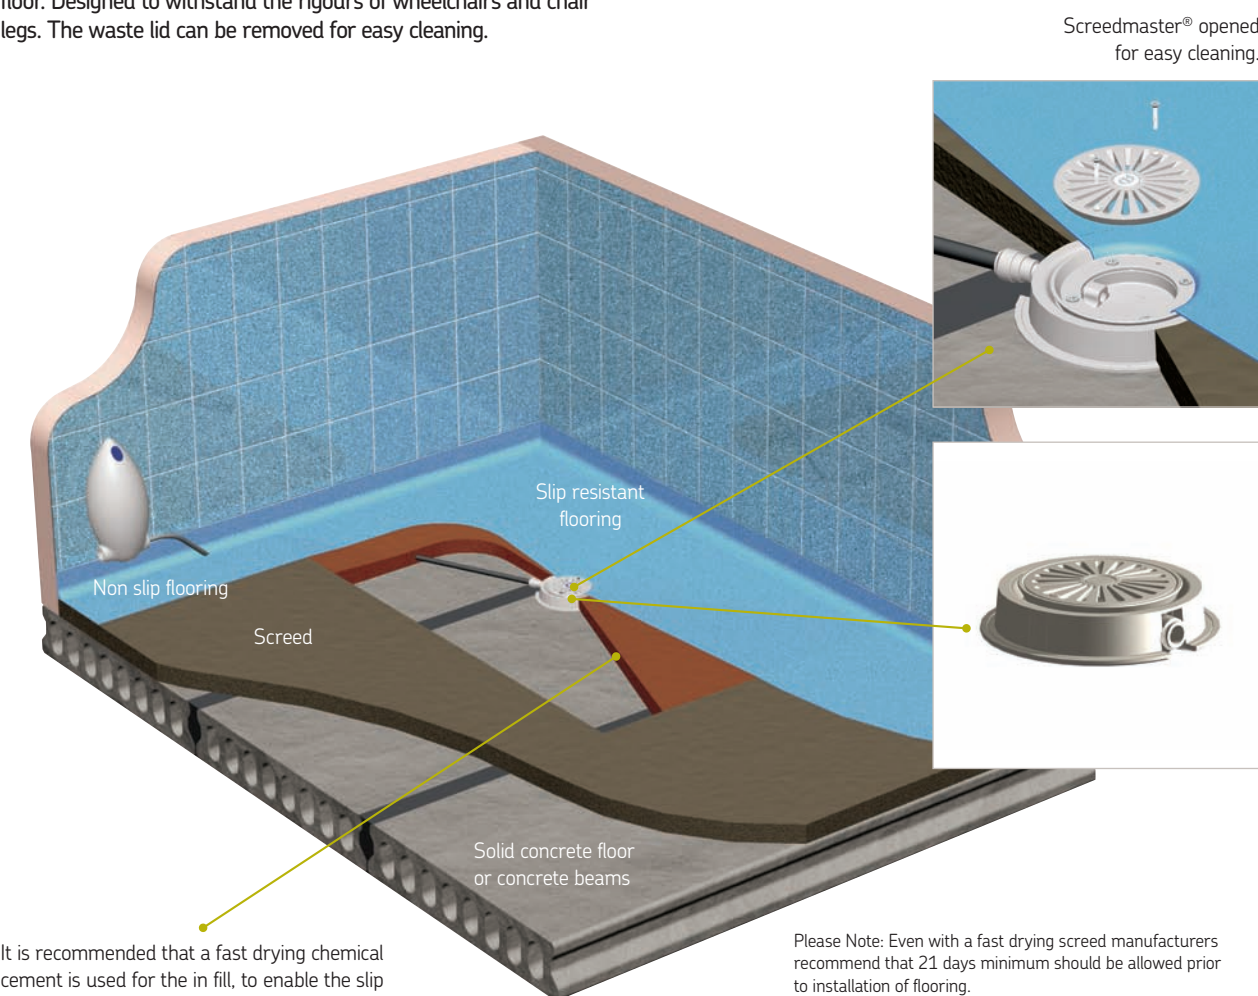

- Choice of waste outlet options 15mm & 22mm these can be used with all AKW waste pumps

## Screeded floor installation

AKW Screedmaster® Pumped Gulley

Complete Level access

Screedmaster® enables installers of screeded floors to fit a pumped waste into a floor screed without excavating the entire floor. Designed to withstand the rigours of wheelchairs and chair legs. The waste lid can be removed for easy cleaning.

It is recommended that a fast drying chemical cement is used for the in fill, to enable the slip resistant flooring to be laid much earlier than with standard sand and cement screed.

Please Note: Even with a fast drying screed manufacturers recommend that 21 days minimum should be allowed prior to installation of flooring.

This delay is unacceptable in most installation situations. Failure to allow sufficient drying time for the screed could result in the vinyl floor covering separating from the screed - causing ponding, leaks and generally uneven surface.

## Screedmaster® Pumped Gulley

For use with graded floor installations with vinyl floor covering.

- Opens for easy cleaning and rodding
- 15 or 22mm outlet
- 32mm or 37mm deep JG Speedfit® outlet

Threshold kit side profile

## PW50 50mm standard pumped waste

Issued as standard with both automatic and automatic mixer valve pump kits.

- Good seals and location
- Built-in filter
- Opens for easy cleaning and rodding
- 36mm deep below mounting surface = 15mm
- 44mm deep below mounting surface = 22mm
- 15mm & 22mm John Guest Speedfit outlets available

Patent GB2375479

15mm Product Code: 25122    22mm Product Code: 25405

## PW90 90mm diameter pumped waste

Specially designed shallow pump gulley (for Dalby®, Mullen® & Keppel) with two baffle features that help to reduce the noise during showering cycles.

- Good seals & location
- Built-in filter
- 36mm deep below mounting surface
- Opens for easy cleaning and rodding
- 36mm deep below mounting surface = 15mm
- 44mm deep below mounting surface = 22mm
- 15mm & 22mm John Guest Speedfit outlets available

Patent GB2375479

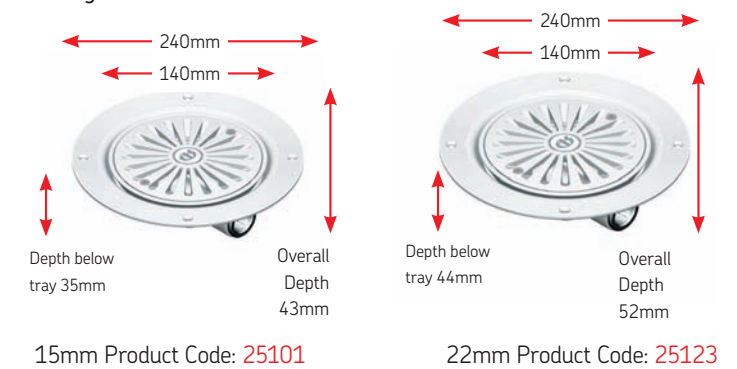

15mm Product Code: 25105    22mm Product Code: 25406

## PGTF Tuff-Form pumped gulley (15mm or 22mm)

Can be specified with any Tuff Form® former with vinyl floor covering.

- 15mm or 22mm outlet pipe versions available
- Opens for easy cleaning and rodding
- 15mm depth below tray = 35mm
- 22mm depth below tray = 44mm
- 22mm John Guest Speedfit outlets available

Patent GB 2373515

15mm Product Code: 25101

22mm Product Code: 25123

## Screedmaster® pumped gulley

For use with graded floor installations with vinyl floor covering.

- Opens for easy cleaning and rodding
- 15mm & 22mm John Guest Speedfit outlet
- 32mm deep = 15mm outlet
- 37mm deep = 22mm outlet

Patent GB2375479

15mm Product Code: 25100

22mm Product Code: 25407

## Upward discharge (factory fitted)

Can be specified for Braddan and Multi-Spec trays for unbreachable floors where a standard pump waste is not suitable.

- Opens for easy cleaning and rodding
- Nothing below tray level
- 15mm John Guest Speedfit outlet

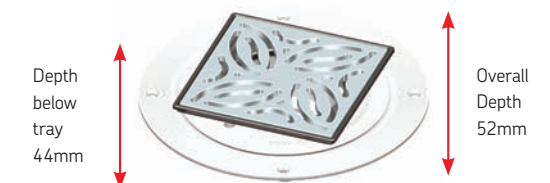

Reg Des. EU000627146-0001  
Patent Pending

## SS-PGTF pumped gulley (22mm only)

Can be specified with any Tuff Form® former with tiles.

- 22mm outlet pipe versions only
- Opens for easy cleaning and rodding
- 22mm depth below tray = 44mm
- 22mm JG Speedfit outlet
- Stainless steel plate dimensions = 120 x 120mm.
- Stainless steel plate height is adjustable to max of 18mm

Product Code: LB00104

All pumped waste outlets illustrated are exclusive to AKW.

## Standard gravity waste with 19mm or 50mm water trap

AKW Standard gravity waste with 19mm or 50mm water trap for Braddan, Multi Spec, and Tuff Form® former with adapter.

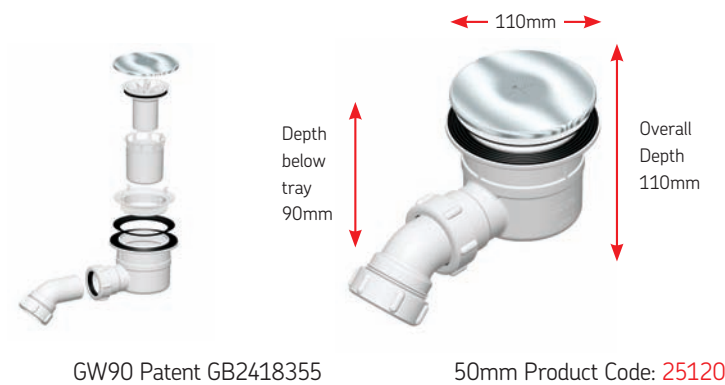

- Good seals and location
- Built in filter
- 93mm or 124mm deep below mounting surface
- 50mm or 19mm water trap depth (seal)
- 50mm threaded waste fitting

## GW90 90mm diameter gravity waste

Can be specified with any Mullen®, Keppel and Low Profile tray.

- Built in filter
- 90mm deep below mounting surface
- Opens for easy cleaning and rodding
- 50mm water trap depth (seal)
- 90mm threaded waste fitting

## Low Depth GW90 gravity waste

The low depth gravity waste has been designed for ease of installation and flexibility of fitting. The 90mm diameter waste with a 50mm water trap is suitable for Low Profile, Mullen, Keppel and Dalby trays where height restrictions are an issue.

- Depth below tray 60mm, overall depth 82mm
- Unique swivel outlet for quick and easy installation
- 50mm water trap depth (seal)
- Opens for easy cleaning
- Built in filter
- Approximate flow rate 14 litres per minute
- Suitable for vinyl wet room floor installations

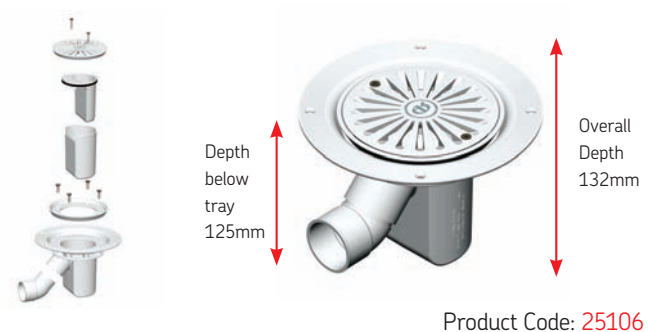

## TF75 Tuff Form® gravity waste

Can be specified with any Tuff Form® wet floor former and for any screeded floor installation in a breachable floor.

- Opens for easy cleaning and rodding
- 125mm deep below mounting surface
- 75mm water trap depth (seal)
- Adjustable elbow for waste pipe exit

Patented GB2402946

## TF75 Tuff Form® waste adaptor

(Includes GW50 50mm or GW19 19mm standard waste)

This adaptor ring allows a typical top clearing waste to be fitted into a Tuff Form® wet floor former.

- Opens from above for easy installation
- 50mm or 19mm trap versions available

EU Reg Des. 000135702-0009  
\* when tested to conditions of BS EN 274 Part2: 2002

## Low Depth GW90 gravity waste Tuff Form® adaptor

The low depth gravity waste is suitable for use with the Tuff Form® tray if fitted in conjunction with the Tuff Form® waste adaptor.

## SS-TF75 gravity waste

Can be specified with any Tuff Form® wet floor former and for any screeded floor installation in a breachable floor

- Opens for easy cleaning and rodding
- 125mm deep below mounting surface
- 75mm water trap depth (seal)
- Adjustable elbow for waste pipe exit
- Stainless steel plate dimensions = 120 x 120mm.
- Stainless steel plate height is adjustable to max of 18mm with adhesive

## SS-TFWA waste adaptor (includes GW50 50mm or GW19 19mm standard waste)

This adaptor ring allows a typical top clearing waste to be fitted into a Tuff Form® wet floor former.

- Opens from above for easy installation
- 50mm or 19mm trap versions available
- Stainless steel plate dimensions = 120 x 120mm.
- Stainless steel plate height is adjustable.
- Stainless steel plate height is adjustable to max of 18mm

EU Reg Des. 000135702-0009

SS-TFWA Product Code: **LB00171**

# Shower seats

AKW offers a wide range of shower seats which have been developed in consultation with occupational therapists, end users and installers to ensure functionality and safety without a compromise in style.

## Features

- Made from strong polyethylene
- Drain holes reduce water retention and helps with cleaning
- Rust proof frames manufactured from stainless steel and powder coated with white finish
- Stainless steel adjustable support legs allow for height adjustment and stability
- Additional 26mm fine adjustment on one leg to accommodate the fall in shower trays or formers
- Feet finished with white rubber ferrule to prevent slipping and damage to the surface
- Drop down arm angle can be finely adjusted to suit the individual
- Cushions and outer body of arms are made from polyurethane which does not absorb water

## Benefits

- Easy to use and suitable for any showering needs
- Designed for strength and comfort from rust proof material
- Rounded and smooth edges, soft feel arms allow for a safe and easy side transfer
- Soft, padded seat and back cushions can be easily removed and cleaned
- Padded arms for additional comfort
- A wide choice of options from wall mounted, hanging, freestanding to portable seats
- Seat size options suitable to accommodate all user types

- |   |                              |                        |

## 4000 series

### Fold up shower seats

4000 series shower seats have been designed to accommodate a variety of individual needs of end users, with options including backrest, padded arms and adjustable legs they provide much needed support to seat users.

#### Benefits

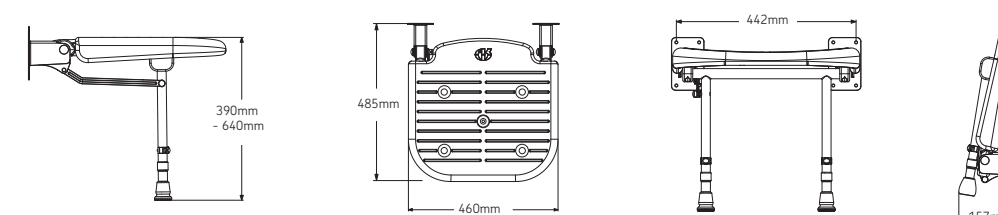

- Designed in consultation with occupational therapists, end users and installers
- Adjustable for comfort, with seat heights of between 390–640mm (provided by two sets of leg height supplied as standard)
- Sturdy design, carries weight up to 254kg/40 stone
- Independent folding arms make it suitable for side transfers
- + or - 13mm fine adjustment to foot or support leg to allow for gradient in floor

#### Features

- Unique and innovative design will give years of trouble free service
- Quality tested to BS EN 12182:1998 & BS EN 12727:2000
- Made from rust proof stainless steel

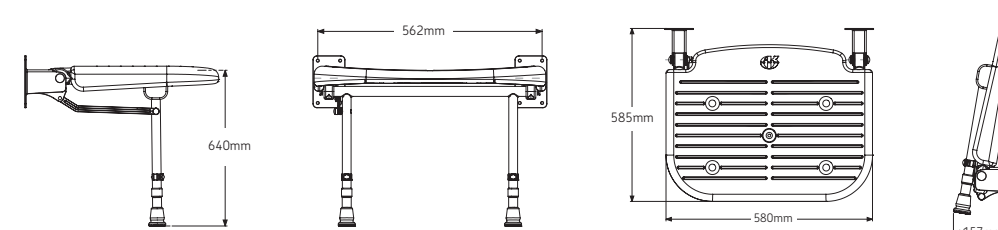

## Standard shower seat

## Abbey moulded bath seat

- 450mm wide x 350mm deep for generous comfort
- Easy to pack away and store or carry, ideal for travelling
- Provides confidence for users up to 30stone/190kg in weight
- Adjustable with four height options
- Plasticised pvc suction feet on each leg for added stability
- Aperture in seat area facilitates intimate hygiene
- Drainage holes allows quick drying after use
- The seat can be set at 150mm (6") or 250mm (10") heights
- If required an additional set of legs can be purchased to increase the height to 200mm (8") or 300mm (12")

Width: 450mm

Depth: 350mm

| Description                     | Product code |
|---------------------------------|--------------|
| Abbey Bath Seat with 6-10" legs | 22400        |
| Additional Set of 8-12" legs    | 22409        |

Designed to allow the seat to be set at 150mm (6") or 250mm (10") heights.

If required an additional set of legs can be purchased to enable the height to be set at 200mm (8") or 300mm (12").

Upper height setting

Patent GBZ410426

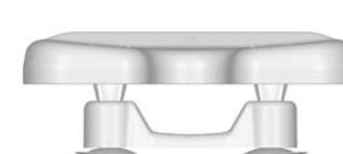

Lower height setting

## 2000 Series shower seat hanging seat bracket

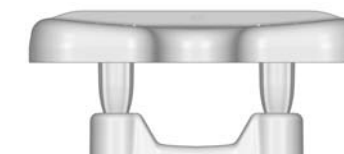

- Enables seat to be hung from versatility grab rail system (page 184)
- Multiple positioning options
- Easy adjustment of seat height without re-drilling the walls
- Perfect for paediatric use - seat height changes as child grows
- Ideal for multiusers - showers and seat can be removed or repositioned in enclosures

# 1900 series

## Heavy duty fluted grab rails & kits

### Benefits

- Reinforced with an aluminium tubular core for added strength
- Rated to a maximum load of 190kg/30 stone\*
- A 38mm rail to wall clearance
- Choice of 5 fixing points for optimum wall fixing
- Fluted surface gives additional grip

### Features

- Made from extruded plastic uPVC
- Available in white or blue for the visually impaired
- Tested to BS EN 12182:1999
- No electrical earthing is required

\* Maximum weight capacity refers to the grab rail only, not the user weight fixings or retention in the mounting surface.

## Heavy duty grab rails

\*Overall length 445mm, effective length (to hold) is 334mm

## 1720 floor to ceiling support rail

- 2750mm x 37mm diameter
- Made from mild steel and ribbed PVC
- Polycoated plates - 3 fixing points
- Trim-to-length to suit ceiling height

## 1730 floor to ceiling support pole

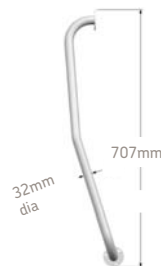

- 2750mm with 740mm high stay
- Made from mild steel and ribbed PVC
- Polycoated plates - 3 fixing points
- Trim-to-length to suit ceiling height
- Stay is not trimmable

1730 floor to ceiling support pole is illustrated

## 1740 Newel rail

- 90° turn around the newel post
- Provides additional grip while using the stairs
- Made from cold drawn mild steel tube
- Finishing process includes rust inhibitor treatment
- 3 hole fixing flange
- Available in left and right handed
- Tested to ASTM B117-87 salt spray test
- White epoxy resin coated

# Mobility ramps

From simple kerb stones to more complex flights of steps, we provide a wide range of solutions for all your access needs.

- **Durable.** We use glass reinforced plastic, one of today's most versatile and rugged materials
- **Easy handling.** Folding ramps can be easily packed away and stored
- **Safety.** Smooth corners prevent damage to upholstery and vehicles
- **Flexible.** Where thresholds on uPVC and external doors create access difficulties, one of the three designs of threshold ramps provide a simple and safe solution
- **Strong.** Each ramp has a distributed carrying capacity of 40 stone/240kgs
- **Proven.** Our standard access ramps are designed to meet the requirements of the DDA (Disability Discrimination Act) by creating a safe and conforming gradient
- **Versatile.** With a choice of smooth moulded side upstands, colour contrasting slip resistant surface and optionally fitted single or double handrails
- **Extendable.** By combining sections from our range of standard ramps with addition level platforms and joining plinths, more complex systems can be created if necessary

Please contact us for details or a survey of particular requirements

## Folding access ramp - Channel ramp

## AKW460L – close coupled toilet pan

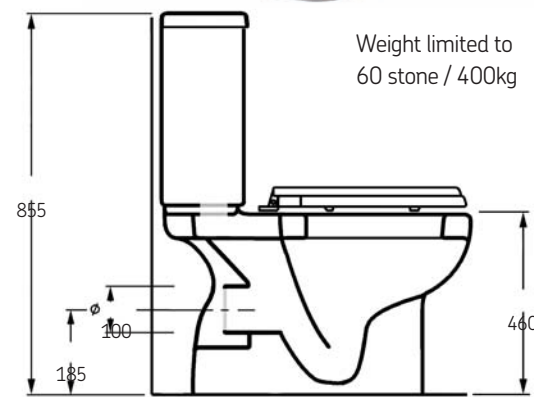

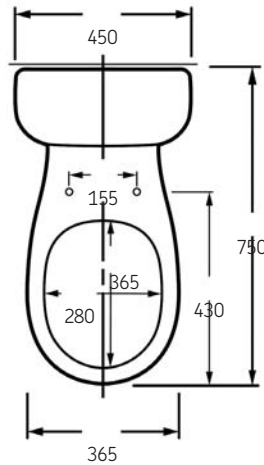

This raised height, long projection toilet pan has been specially designed for use in AKW Doc M packs.

### Features & specification:

- Raised height
- Large footprint
- 750mm projection to assist side transfer
- Attractively manufactured from white vitreous china
- Conforms to BS EN997
- CE Certified
- 4 point fixing to floor supplied
- Height with toilet seat is 480mm, which complies to Doc M guidelines

Toilet pan: **23160**

Weight limited to  
60 stone / 400kg

Weight limited to  
60 stone / 400kg

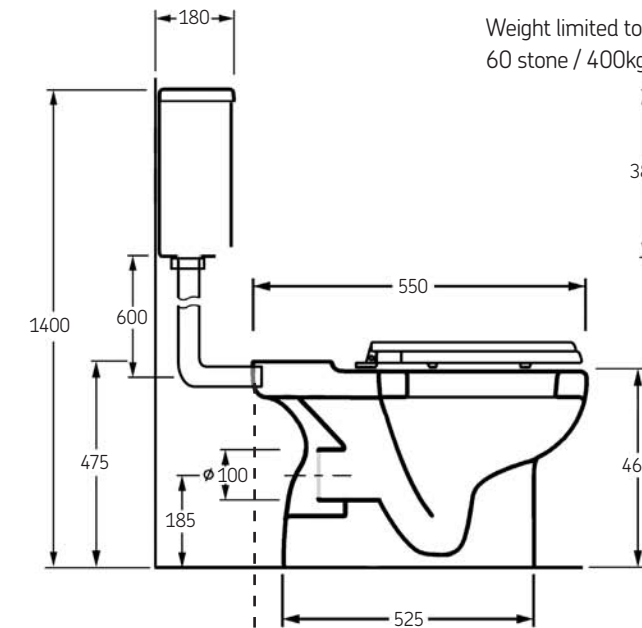

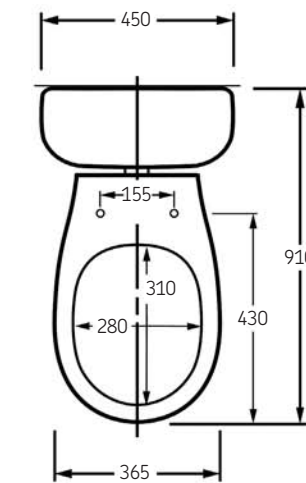

## Raised height back to wall toilet pan

Specially designed for use with the AKW low level cistern and padded back rest.

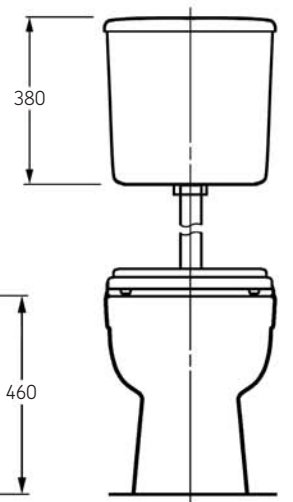

### Features & specification:

- Raised height
- Large footprint
- Manufactured from White Vitreous China
- Conforms to BS EN997
- CE Certified
- 4 point fixing to floor supplied
- Height with toilet seat is 480mm, which complies to Doc M guidelines

Toilet pan: **23161**

Weight limited to  
60 stone / 400kg

## Cistern, flush valve & handle

AKW Cisterns have been designed for use with the AKW toilet pan range. Each comes supplied with a spatula dual flush handle with complete flush mechanism & fill valve. There are two available options:

- AKW close coupled cistern, for use with AKW460L & AKW460S toilet pans
- AKW low level cistern, for use with AKW460U

### Features & specification:

- Manufactured from white vitreous china
- Screw down lid for added safety and security.
- Dual Flush 6 & 4 litre for maximum water efficiency
- WRAS approval to EN997 standards
- Non handed, it fits either left or right
- Low level cistern comes complete with a 760 x 305mm flush pipe

Low Level Cistern: **23164** (Includes the flush pipe)

Close Coupled Cistern: **23163**

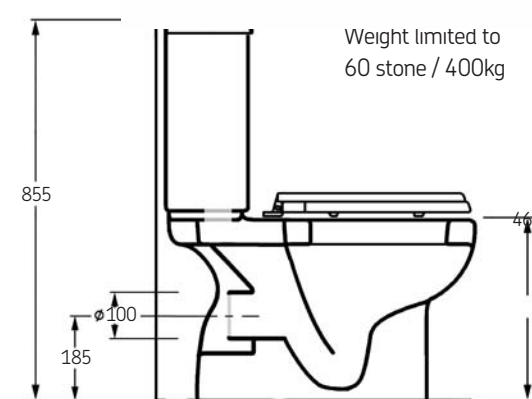

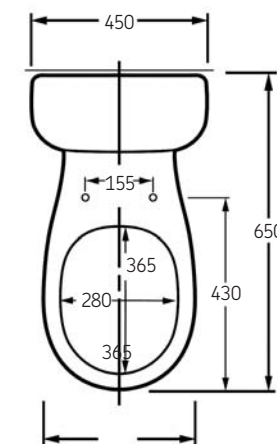

## AKW460S – close coupled toilet pan

### Features & specification:

- Raised height
- Large footprint
- 650mm projection
- Attractively manufactured from white vitreous china
- Conforms to BS EN997
- CE Certified
- 4 point fixing to floor supplied
- Height with toilet seat is 480mm, which complies to Doc M guidelines

Toilet pan: **23162**

Weight limited to  
60 stone / 400kg

Weight limited to  
60 stone / 400kg

## Flush valve and spatula handle

The spatula shaped design is easy to use and dual flush operation helps save water. This handle is only suitable for use with AKW cisterns.

### Features & specification:

- Non reflective satin chrome finish for partially sighted users
- Easy to operate with hand, closed fist or elbow
- Non handed, it fits either left or right
- Handle is unique to AKW flush valve mechanism

Replacement spatula flush handle: **23165**

## Ergonomic toilet seat

Ideal for any situation where side transfer or extra stability is required, AKW toilet seats are ergonomically designed for comfort, easy cleaning and added strength.

### Features & specification:

- Strong metal hinges and lugs grip the inside of the pan for added strength
- Contoured for maximum comfort
- Available in white or blue for visually impaired users, and with or without lid
- Strong metal, soft close hinges
- Easy installation
- Easy to clean
- Made from urea formaldehyde
- Width 375mm front to back 435mm

Blue toilet seat with lid: **23124**

White toilet seat with lid: **23122**

Blue toilet seat with no lid: **23125**

White toilet seat with no lid: **23123**

Weight limited to  
47 stone / 300kg

## AL100 alarm system

The AKW emergency audio alarm operates by a simple pull cord to allow users to raise an alarm from within a toilet or closed room. In standby mode the alarm shows a green 'power on' light. Once pulled, a flashing red 'alarm' light is triggered, along with an audio signal.

### Features & specification:

- Easy to operate control panel with 2 LEDs: green for 'on', red for activated
- Reset Switch
- Long pull cord with two red bangles for ease of grip
- 12V DC Power supply
- 90dbA
- CE Certified
- Can be connected to a 3A fused switched spur or plugged into a dedicated 3A fused, 13A plug and 230V AC supply socket
- Designed to BS8300:2009 guidelines

Emergency alarm & pull cord: **23143**

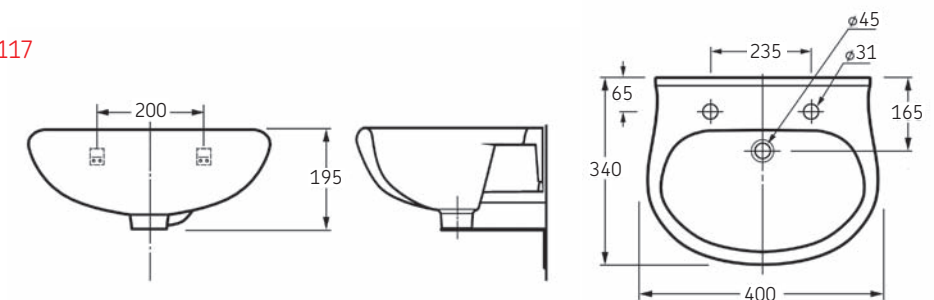

## Finger rinse wash basin

This compact 400mm wash basin is specifically designed for use with the AKW Doc M pack.

### Features & specification:

- 400mm (w) x 340mm (d)
- Additional bracket under washbasin for extra support
- Supplied with a waste
- Non-handed – two tap hole basin, blanking plug supplied
- Easy installation

Wash Basin- 2 tap hole  
complete with waste trap & fixings: **23117**

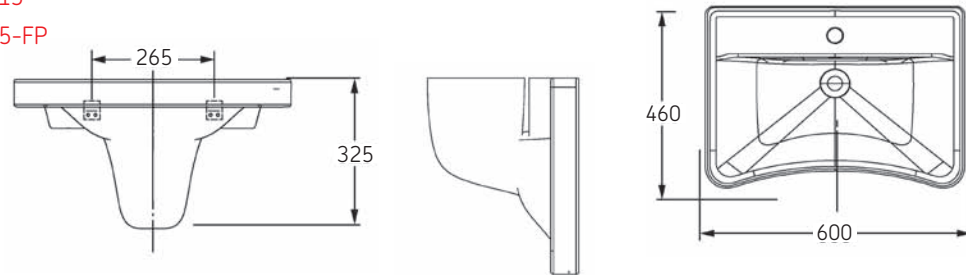

## Concave wash basin

Features & specification:

- Ergonomically designed for wheelchair, walking frame or perching stool users
- Concaved front to allow closer access to basin and taps
- 600mm (w) x 460mm (d)
- Includes waste trap and shroud as standard
- Full height pedestal option available

AKW Concave wash basin: **23115**

Full height pedestal code: **23115-FP**

## Full pedestal for wash basins

- Non-handed – two tap hole basin, blanking plug supplied
- Easy installation
- Full pedestal option available

2 tap hole wash

basin 450mm wide: **23126**

Full pedestal code: **23126-FP**

## TMV3 thermostatic mixer tap

The TMV3 thermostatic mixer tap has an extended lever for easy operation using a closed fist or elbow

Features & specification:

- TMV3 approved to prevent scalding
- Integrated mixer valve for improved hygiene
- Non reflective satin chrome finish for partially sighted users

TMV3 Thermostatic mixer tap: **23116A**

## Monobloc spray mixer tap

Features & specification:

- For use with either one or two tap hole wash basins
- Non reflective satin chrome finish
- Easy to install
- User friendly long handle

Monobloc spray mixer tap: **23118**

## 505mm wide wash basin

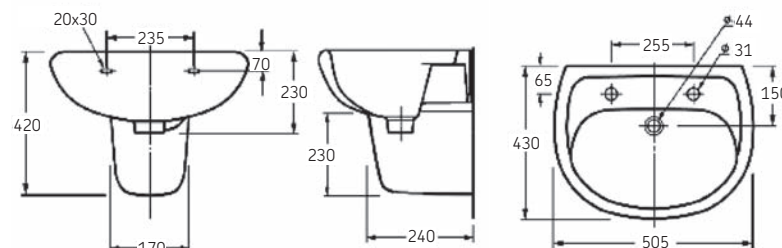

Features & specification:

- 505mm (w) x 430mm (d)
- Supplied with a shroud to cover waste as standard
- Includes waste trap
- Non-handed – two tap hole basin, blanking plug supplied
- Easy installation
- Full pedestal option available

2 tap hole wash

basin 505mm wide: **23127**

Full pedestal code: **23127-FP**

## Lever basin tap

Features & specification:

- Stylish chrome finish to complement modern bathroom designs
- The lever design provides a smooth and controlled 90° turn operation which is easy to operate with either a hand or an arm making it suitable for users with limited dexterity
- Easy and quick installation
- Coloured temperature indicator ring on head of tap
- Minimum working pressure 0.2 bar

Lever tap: **23128CH**

## Hand dryer

Suitable for all applications, the hygienic 1.6kW automatic hand dryer comes complete with a heavy duty steel cover and white powder coated finish.

Features & specification:

- Strong durable case
- High output element for rapid drying
- Installer adjustable hand proximity sensor
- 60 second auto power cut out switch
- Temperature cut off protection
- IP21 Rated
- Power supply 230V
- Weight 4.8kg
- Dimensions: W:30 H:27 D:19
- 5 year warranty

Hand dryer HD2401: **23136**

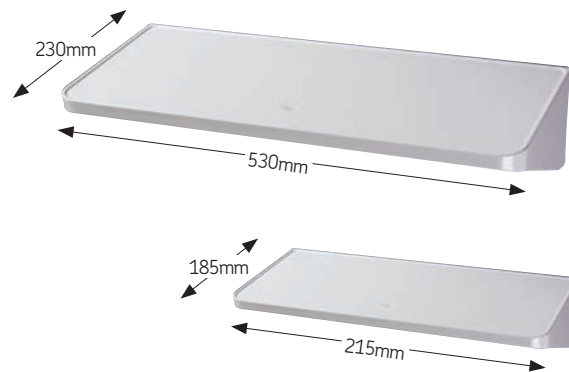

## Shelving

AKW's range of white polypropylene shelving is designed for use next to the W/C, wash basin or showering area.

Features & specification:

- Easily removed for cleaning
- Two sizes available
- Rounded edges for safety
- Hole for water drainage
- Small shelf next to the toilet is designed for placing a colostomy bag onto if required
- Larger shelf next to washbasin is available to place any items on when entering the bathroom

Small Shelf: **23145** Large Shelf: **23146**

## Swing bin

This easy to operate swing bin is available in white, with a blue lid for the visually impaired.

Features & specification:

- Wide opening
- Durable - will not rust, chip or peel
- Dent resistant
- Swing top keeps waste out of sight
- Height: 61cm
- Width: 31cm
- Depth: 16mm

Swingbin: **23148**

## Liquid soap dispenser

The AKW lever operated soap dispenser has been designed for easy operation, by hand, closed fist or elbow. It is refillable by simply topping up the soap bottle using liquid soap.

Features & specification:

- Lever operated
- Extended blue lever provides better colour contrast and visibility
- Refillable
- Manufactured from ABS plastic
- Dimensions: W:120mm H:260mm D:200mm

Lever Operated Soap Dispenser: **23142**

## Toilet tissue dispenser

Features & specification:

- Easy installation
- Refillable using tissue up to 110 x 110mm in size
- 240mm stack capacity
- Lockable
- Manufactured from ABS plastic
- Dimensions: W: 135mm H:290mm D:130mm

Toilet Tissue Dispenser: **23138**

## Paper towel dispenser

Features & specification:

- Easy installation
- Large capacity - up to 350mm stack
- Accepts interleaved or C fold hand towels up to 255mm (W)
- Lockable
- Manufactured from ABS plastic
- Dimensions: W: 285mm H: 380mm D: 110mm

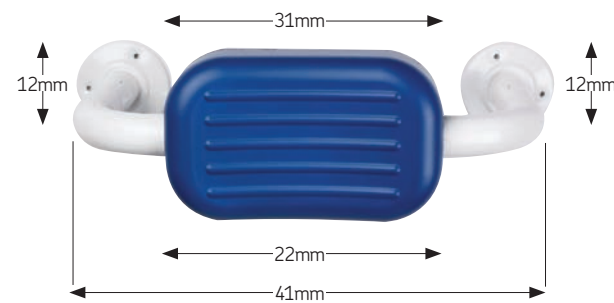

Paper Towel Dispenser: **23139**

## Padded back rest

Features & specification:

- Aids side transfer
- Available in grey and blue
- Pad made from polyurethane foam for easy cleaning
- Made from polyurethane foam for easy cleaning
- Cushion thickness 60mm

Padded Back Rest - Blue: **01190BU** Padded Back Rest - Grey: **01190GR**

## Mirror

Made from toughened glass, the AKW mirror is ideal for use in public bathrooms. It features an adhesive backing sheet for added safety.

Features & specification:

- High colour contrast blue border
- Manufactured from toughened glass
- Adhesive backing sheet
- 4 pre drilled fixing holes
- 1000mm high x 400mm wide

Mirror: **23147**

## Clothes hooks

Though AKW clothes hooks have been especially designed for use in AKW Doc M packs. Their practical design and easy installation makes them suitable for many other applications.

Features & specification:

- Finished in blue for high contrast
- Easy to install with fixings supplied
- Removable for cleaning

Blue Clothes Hooks: **23144**

## Bathroom light

Features & specification:

- IP54 2D surface mounted light fitting
- Supplied with 28 watt 2D lamp
- Diameter: 326mm
- Depth: 105mm
- Class 1 - must be earthed

Bathroom Light: **23133**

## Low voltage bathroom extractor fan - AKW100 series

The AKW100 Series low voltage extractor fan range has been specifically designed for extra safety when used in bathrooms and showers.

### Benefits

- An extra low 12VAC SELV voltage and thermal fuse give you added safety at all times
- Can be wall or ceiling mounted, so suits a wide range of locations
- Made from lightweight ABS thermoplastic for long-life - and easy cleaning
- IP27 rating - a mark of its safety in environments where water is present
- Three different models to match your needs exactly
- 3 Year warranty as standard for extra peace of mind

### Features

- 100mm ducting diameter for safe and efficient extraction of moisture (in line with industry standards)
- Slim plastic casing for easy and discreet fitting
- Can be wired directly into bathroom light circuit
- Three different models with product options including a humidistat and adjustable overrun timer
- Designed to exceed Building Regulation (Document F) requirements

AKW100P Product code: **23152**

AKW100T Product code: **23154**

AKW100THP Product code: **23156**

AKW100P - Extractor fan with pull cord

AKW100T - Extractor fan with timer

AKW100THP - Extractor fan with timer humidistat

# Doc M

Purpose designed to comply with the latest building regulations relating to special needs, AKW's DOC M range offers quality and choice.

## Benefits

- Wide choice of variants, to meet the needs of all users
- Ergonomically designed for maximum comfort
- Fully compliant to BS8300:2009 guidelines for a unisex accessible WC
- Options to fit all budgets and spaces

# Wheelchair-accessible unisex toilets

## Design considerations

It's essential that wheelchair users are able to approach, transfer to, and use the sanitary facilities provided within a building. This means a wheelchair-accessible unisex toilet must be made available. Considerations for this facility include:

### The relationship of the WC to the finger rinse basin and other accessories.

The arrangement should allow the user to wash and dry their hands while still seated on the WC.

### The space provided for manoeuvring.

This should enable easy transfer from wheelchair to WC, whether the user is alone or has assistance.

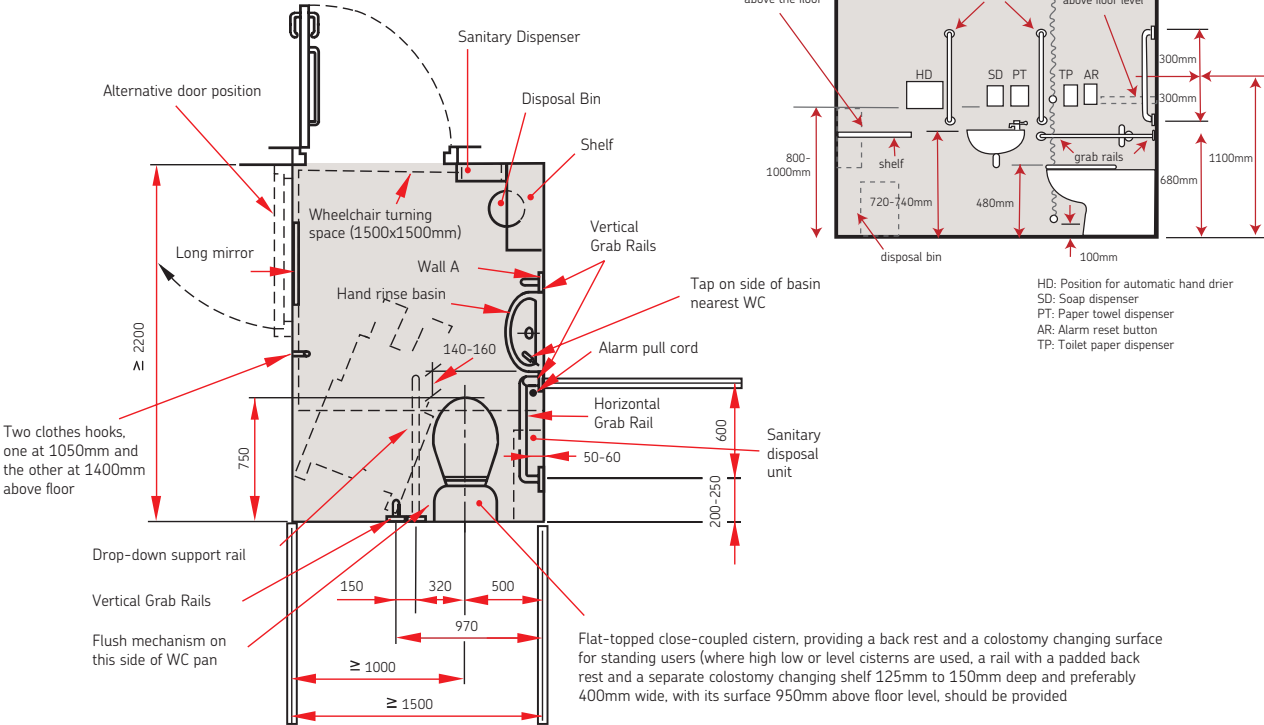

## Typical Doc M layout

In compliance with

## Typical Doc M layout

## Further information

### Option 1 & 2

Fully compliant to BS8300:2009 guidelines for a unisex accessible WC.

### 2 tap hole wall mounted wash basin

This allows a mixer tap to be fitted left or right handed and without overflow for additional hygiene.

### Thermostatic sequential mixer tap

TMV3 approved to prevent scalding, the thermostat is within the mixer (and not separate, as is the case with other suppliers). This reduces the risk of legionella bacteria forming between separate parts.

### Easy operational flush handle

Allowing for flushing with elbow or hand, this also offers full and half flush operation for water saving. It comes in a non-reflective stain chrome finish and can be fitted left or right handed. Conforms to EN 997.

### Raised height WC

Set at 460mm high (480mm with toilet seat), it's specially designed for wheel chair access. It comes with 4 fixing points.

### Ergonomic toilet seat with lid

Metal hinges and lugs secure the pan for easier side transfer. In some Doc M options it's available in high visibility blue for users with impaired vision.

### Cistern

Has a screw down lid for security and safety.

### Grab rails

4 x 600mm long with concealed fixings (tested up to 190kg/ 33 stone weight). In some Doc M options, they're also available in high visibility blue for users with impaired vision.

### Fold up grab rail

Tested to 190kg/ 3 stone weight. In some Doc M options, they're also available in high visibility blue for users with impaired vision.

### Liquid soap dispenser

An extended blue lever provides high visibility colour contrast and is easy to operate with either elbow or closed fist.

### Mirror

With toughened glass for extra safety and a blue contrasting border for visually impaired users.

### Hand drier - 1.6kW

Has a heavy duty steel cover and a white powder coated finish.

### Large paper towel dispenser

Uses standard size towels.

### Toilet tissue dispenser

Takes standard tissue and comes with contrasting colours for visually impaired users.

### Large white polypropylene shelf

530mm wide x 230mm deep with rounded edges and a hole for drainage. The shelves can be easily removed for cleaning.

### Small white polypropylene shelf

215mm wide x 185mm deep with rounded edges for safety, and a hole for drainage. It can be easily removed for cleaning.

### Alarm and pull cord

Mains fed and easy to install, it's manufactured to CE requirements 90dbA.

### Clothes hooks

Coloured blue for visual contrast, they're easily removed for cleaning.

### Swing bin

In grey plastic with contrasting blue swing top.

### Heavy duty padded back

Helping aid side transfer, it's made from PU foam for easy cleaning. Available in grey or blue for visually impaired in some Doc M options.

General information

Cleaning instructions

For all AKW and mobility support products

To help maintain long-life, you should periodically clean all AKW and Mobility support products. Use normal domestic bathroom cleaning materials, and avoid any strong or concentrated acidic, alkaline or other cleaning materials. These may discolour or otherwise damage the products. After cleaning, always rinse with water and wipe thoroughly with a damp cloth to remove any cleaning material residues.

Installation information

AKW products

AKW products should be installed by an experienced and competent person. Fixings should be appropriate to the maximum rated user load, and selected to suit the condition of the surfaces to which it is being attached. The selection of any specific fixings should be made by the installer based upon the requirements for each individual installation.

Power showers / high pressure systems

AKW trays and screens are not suitable for use with power showers or high pressure systems. We recommend that you should use only AKW screens with AKW trays. These products have been designed and manufactured to be used together. Their use with non AKW products may adversely affect the integrity of the water seal between the tray and screen.

Most of our products are kept in stock for next day delivery. A few items are not immediately available and will need to be ordered. Please contact our Customer Services Team on **01905 823298** for more information.

Legal information

For all technical information please refer to the installation instructions, available as a hard copy on request or online at [www.akwmedicare.co.uk](http://www.akwmedicare.co.uk)

# Terms & conditions

## 1. DEFINITIONS

- 1.1 The "Company" means AKW Medi-Care Limited.
- 1.2 The "Customer" means any person, firm or company purchasing the Goods.
- 1.3 The "Contract" means the contract between the Company and the Customer for the sale and purchase of the Goods, comprising the quotation (if any) made by the Company, the Customer's order for the Goods, the Company's acceptance thereof and these terms and conditions.
- 1.4 "Credit Reference Agencies" means Experian Limited and/or any other organisation that maintains and provides information concerning the credit history of any person.
- 1.5 "Data Subjects" means (1) the Customer, (2) where the Customer is a company, the directors of that company, (3) where the Customer is a partnership, the partners of that partnership, (4) where the Customer is a limited liability partnership, the members of that limited liability partnership and (5) where the Customer is a business conducted by an individual, that individual.
- 1.6 The "Goods" means any goods or services agreed in the Contract to be supplied to the Customer by the Company (including any part of parts of them).
- 1.7 "Group Company" means the Company and any holding company of the Company from time to time and any subsidiary from time to time of any such holding company.

## 2. PREVAILING TERMS & CONDITIONS

- 2.1 The Company is only willing to contract on these terms and conditions and any printed or standard conditions which appear or are referred to on any document emanating from the Customer or any variations from the Company's standard terms and conditions are to have no legal effect unless agreed in writing by a director of the Company.
- 2.2 The Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of the Company which is not set out in the Contract. Nothing in this condition shall exclude or limit the Company's liability for fraudulent misrepresentation.

## 3. FORMATION OF CONTRACT

- 3.1 Any quotation is given on the basis that no Contract will come into existence until the Customer's order is accepted by the Company delivering a written or electronic acknowledgement of order to the Customer. If the Customer's order is not preceded by a quotation from the Company, the Customer's order shall not become binding on the Company until it is accepted by the Company delivering a written or electronic acknowledgement of order to the Customer.

## 4. QUOTATIONS AND PRICING

- 4.1 All prices quoted are exclusive of VAT, which will be added to the price at the prevailing rate. The quoted price may be varied by the Company in accordance with cost variations but will not result in any right by the Customer to cancel the contract. Carriage may be charged extra in accordance with rates as published in current AKW and/or Trays Direct price lists.
- 4.2 The Company reserves the right to alter carriage charges without notice in the event of fuel surcharges being imposed by our carriers. Small consignments may include a small order charge as published in current AKW and/or Trays Direct price lists.

## 5. DELIVERY

- 5.1 Unless otherwise agreed in writing, delivery of the Goods shall take place at the Company's place of business.
- 5.2 Any quotation by the Company of a time for delivery is not guaranteed and time for delivery shall not be made of the essence by notice.
- 5.3 No liability is accepted for direct, indirect or consequential loss (all three of which terms include, without limitation, pure economic loss, loss of profits, loss of business, depletion of goodwill and similar loss), costs, damages, charges or expenses caused directly or indirectly by any delay in the delivery of the Goods (even if caused by the Company's negligence). Nor shall any delay entitle the Customer to terminate or rescind the Contract unless such delay exceeds [180] days.
- 5.4 The quantity of any consignment of Goods as recorded by the Company on despatch from the Company's place of business shall be conclusive evidence of the quantity received by the Customer on delivery unless the Customer can provide conclusive evidence proving the contrary.
- 5.5 The Company shall not be liable for any non-delivery of Goods (even if caused by the Company's negligence) unless the Customer gives written notice to the Company of the non-delivery within 3 days of the date when the Goods would in the ordinary course of events have been received.
- 5.6 Any liability of the Company for non-delivery of the Goods shall be limited to replacing the Goods within a reasonable time or issuing a credit note at the pro rata Contract rate against any invoice raised for such Goods.
- 5.7 No claim for damage to the Goods or shortages in the Goods will be considered unless the Company is advised within 3 days of delivery and the Customer also notifies the carrier in the manner and within the appropriate time limit prescribed by the carrier's terms and conditions.
- 5.8 If for any reason the Customer fails to accept delivery of any of the Goods when they are ready for delivery, or the Company is unable to deliver the Goods on time because the Customer has not provided appropriate instructions, documents, licences or authorisations:

- (a) risk in the Goods shall pass to the Customer (including for loss or damage caused by the Company's negligence);
- (b) the Goods shall be deemed to have been delivered; and
- (c) the Company may store the Goods until delivery, whereupon the Customer shall be liable for all related costs and expenses (including, without limitation, storage and insurance).

## 6. PAYMENT TERMS

- 6.1 Payment terms are strictly 30 days after date of invoice. The Company reserves the right to charge interest at the rate of 4% over Lloyds Bank base rate on all overdue accounts. The due date for payment is of the essence of the contract. The Customer will have no right to set-off statutory or otherwise.

## 7. PROPERTY AND RISK

- 7.1 The property (both legal and equitable) in the Goods shall not pass to the Customer until:
- (a) the purchase price of the Goods has been paid in full, and
- (b) payment is made to the Company of any sum which is at the date of the

- Contract or may thereafter become due or owing from the Customer to the Company.
- 7.2 Until property in the Goods has passed to the Customer the Customer will hold the Goods (or their proceeds of resale) in a fiduciary capacity.
- 7.3 Notwithstanding that the ownership remains with the Company until Goods are paid for in full, the Customer shall accept the risk in the Goods on delivery and shall appropriately insure them.
- 7.4 Until property in the Goods has passed to the Customer, the Customer shall keep the Goods separately identifiable and shall not destroy, deface or obscure any identifying mark or packaging on or relating to the Goods.
- 7.5 The Customer grants an irrevocable licence to the Company to enter on to the Customer's premises with agents and vehicles if appropriate to recover the Goods.
- 7.6 The Customer's right to possession of the Goods shall terminate immediately if:
- (a) the Customer has a bankruptcy order made against him or makes an arrangement or composition with his creditors, or otherwise takes the benefit of any statutory provision for the time being in force for the relief of insolvent debtors, or (being a body corporate) convenes a meeting of creditors (whether formal or informal), or enters into liquidation (whether voluntary or compulsory) except a solvent voluntary liquidation for the purpose only of reconstruction or amalgamation, or has a receiver and/or manager, administrator or administrative receiver appointed of its undertaking or any part thereof, or documents are filed with the court for the appointment of an administrator of the Customer or notice of intention to appoint an administrator is given by the Customer or its directors or by a qualifying floating charge holder (as defined in paragraph 14 of Schedule B1 to the Insolvency Act 1986), or a resolution is passed or a petition presented to any court for the winding-up of the Customer or for the granting of an administration order in respect of the Customer, or any proceedings are commenced relating to the insolvency or possible insolvency of the Customer; or

- (b) the Customer suffers or allows any execution, whether legal or equitable, to be levied on his/its property or obtained against him/it, or fails to observe or perform any of his/its obligations under the Contract or any other contract between the Company and the Customer, or is unable to pay its debts within the meaning of section 123 of the Insolvency Act 1986 or the Customer ceases to trade; or
- (c) the Customer encumbers or in any way charges any of the Goods.
- 7.7 the Company shall be entitled to recover payment for the Goods notwithstanding that ownership of any of the Goods has not passed from the Company.

- (b) the Customer has failed to provide documentary notification and proof of a defect or suspected defect or returned the goods for inspection within 14 days of the same coming to the knowledge of the Customer, or
- (c) the Customer is in breach of this or any other contract with the Company.
- 8.2 SAVE AS PROVIDED IN THE PRECEDING PARAGRAPH IN NO CIRCUMSTANCES WILL THE COMPANY OR ITS EMPLOYEES, AGENTS OR SUB-CONTRACTORS BE LIABLE FOR ANY LOSS OR DAMAGE OF ANY KIND CONSEQUENTIAL OR OTHERWISE (OTHER THAN DEATH OR PERSONAL INJURY RESULTING FROM THE COMPANY'S NEGLIGENCE) WHETHER UNDER THE CONTRACT OR NOT, OR CAUSED DIRECTLY OR INDIRECTLY BY ANY NEGLIGENCE OR OTHER TORTIOUS ACT OR BREACH OF STATUTORY DUTY ON THE PART OF THE COMPANY OR ON THE PART OF ANY OF ITS EMPLOYEES, AGENTS OR SUB-CONTRACTORS IN CONNECTION WITH OR ARISING OUT OF THE MANUFACTURE OR SUPPLY OF THE GOODS OR IN CONNECTION WITH ANY STATEMENT GIVEN OR MADE (OR ADVICE NOT GIVEN OR MADE) BY OR ON BEHALF OF THE COMPANY. THE COMPANY HEREBY EXCLUDES ALL CONDITIONS, WARRANTIES AND STIPULATIONS EXPRESS OR IMPLIED, STATUTORY, CUSTOMARY OR OTHERWISE WHICH BUT FOR SUCH EXCLUSION WOULD OR MIGHT SUBSIST IN FAVOUR OF THE CUSTOMER.

- 9.1 the Company disclaims liability for goods returned without the written authority of the Company. Any goods approved for return must be advised in writing quoting the Company's invoice number and returns number. The Company disclaims any risk or liability for any returns whilst in transit to the Company. If for any reason you are unhappy with your goods please notify AKW MediCare within 28 days for showering goods and 3 days for Kitchen products. Please also remember to check goods ensuring you are happy with them before signing.
10. RIGHT TO SUB-CONTRACT OR ASSIGN
- 10.1 The Company shall be entitled to sub-contract or assign any part of the Contract to any person, firm or Company.
- 10.2 The Customer shall not be entitled to assign the Contract or any part of it without the prior written consent of the Company.

11. FORCE MAJEURE
- If the Company is prevented or hindered from making delivery of any Goods or completion of any work by reason of acts of God, civil disturbance, industrial action (including labour disputes involving the work force or any part of the work force of the Company), government action or any other cause whatever beyond the Company's control, the Company may give notice to the Customer either: (a) cancelling the Company's outstanding obligations under the Contract, or (b) extending the time for delivery or completion by a period not exceeding four months.
