

Product Overview: The Luda Twist[®] is a special fluted grab rail offering added benefits for a seated user during showering. An optional extra to the Luda[®] Shower.

- Features:**
- Designed specifically to incorporate a paddle lever at the base of the rail
 - The 1m rails offers flexibility in positioning the shower head and also gives the added benefit of being a grab rail
 - The rail boasts a ribbed surface for additional grip and strength
 - Available in a choice of white or blue with blue accessories for visually impaired users
 - The grab rail support loads of up to 85kg
 - Soap Dish

- Benefits:**
- The unique paddle at the base of the rail enables a seated user to direct the shower spray towards or away from themselves easily. This offers the user more independence when using the shower and enables them to be less reliant on a carer or having the ability to stand and stretch to turn the shower head
 - Designed to be easy to use for those who have limited dexterity, the paddle can be easily moved either with a clenched fist or side of hand
 - The riser rail uniquely doubles as a grab rail offering the user extra support in the showering area
 - Equipped with an easy slide shower head holder to adjust the position of the shower head to suit the user
 - The Luda Twist[®] has a soap dish at the base of the rail with additional hooks for face cloth, soap or shampoo containers, keeping everything accessible

- Delivery:**
- Standard next day delivery on all orders placed by 2pm Monday - Friday (weekdays)
