

Product Overview

This product is a sliding glass door for an alcove installation. The addition of one optional side panel will allow the screen to be converted to a corner installation. The addition of two optional side panels allows the construction of a three-sided installation.

Features

- + Modern framed design with no bottom frame
- + Fully reversible side panel
- + 20mm profile adjustment
- + 4 door sizes available
- + 3 side panel sizes available
- + 6mm glass
- + AKW's Stay Clear coating on the glass
- + Elegant contemporary chrome easy grab handles
- + Polished chrome anodised aluminium frame
- + Assisted soft opening and soft closing doors

Benefits

- + No threshold strip ensures clear access into the shower
- + Allows right or left hand installation
- + Adjustable to fit most installations
- + 1200mm, 1400mm, 1500mm & 1700mm Screen Widths
- + 700mm, 800mm & 900mm side panels: Allow 2 or 3 sided assemblies
- + The advantages of 6mm glass over 8mm or thicker glass are: lighter weight panel making it easier for the user to open – important feature for the care market – plus it puts less stress on the door mechanisms, which is important for long-term performance
- + Ensures glass is easy to clean and remains cleaner for longer
- + Provide a finishing touch and make it safe and easy to use
- + Aluminium frame finish matches other bathroom finishes
- + Easy opening and closing

Guarantees & Approvals
