

## Product Overview

The Onyx 2 T&L Shaped Grab Rail is a shower riser rail that cleverly incorporates a horizontal grab rail for additional stability when showering. The rail can be installed in either a T or L-shaped configuration to suit the users' preference and mobility needs.

Featuring a polished chrome, triangular-shaped rail for improved grip, the Onyx 2 T&L Shaped Grab Rail is made from durable aluminium alloy and is supplied with a choice of matt-finish cool white or bold black components.

Onyx 2 Grab Rails are designed to complement the Onyx collection of contemporary showering accessories and mobility aids.

## Features & Benefits

- + Includes 1200mm vertical riser rail with connecting 600mm horizontal grab rail
- + Can be installed in either a non-handed, T or L-shaped configuration depending on user preference, handing, and mobility needs
- + Ergonomic, triangular-shaped grab rail offers improved grip for greater stability when showering
- + Available with a choice of cool white or bold black matt-finish components
- + Strong and durable aluminium alloy construction ensures rail provides a maximum weight capacity of 100kg / 16st (vertical riser rail) and 150kg / 23.5st (horizontal grab rail)
- + 4 fixing points per wall bracket for strength and stability; rail has 3 wall brackets
- + All fixing points are concealed by removable bracket covers, making the rail easier to clean and protecting internal components from exposure to water, dust, and dirt
- + Minimalist, industrial-inspired design complements the wider range of Onyx mobility aids
- + Supplied with lever-operated handset holder slider that can be easily adjusted to suit the user's height, and installed on the left or right side of the riser rail depending on user preference

### Features & Benefits (continued)

- + Supplied with soap dish/shelf with integral shower hose retaining holes to prevent shower handset (not supplied) from falling and potentially being contaminated
- + Supplied with non-handed shower handset holder that can be fitted to exterior wall brackets and allows users to position a shower handset at a lower height, ideal for those seated when showering
- + Not supplied with shower valve/heater unit, handset, or hose

### Technical Specification

- + Colour/Finish: Polished chrome rails and wall brackets, matt finish cool white or bold black wall bracket covers and connecting component
- + Materials: Aluminium alloy rails, die-cast aluminium alloy wall brackets, handset holder and slider, ABS plastic bracket covers and soap dish, stainless steel washers and bolts
- + Maximum Weight Load: 100kg / 16st (vertical riser rail), 150kg / 23.5st (horizontal grab rail)
- + Fixing Points: 4 per wall bracket (3 wall brackets per rail)
- + Wall Clearance: 38mm
