

Product Overview

The product is a fixed glass screen with a pivoting deflector panel on the end.

Features

- + Matt black finish aluminium profile
- + 6mm toughened glass tested to EN12150
- + 20mm compensator adjustment on wall fixing
- + Panel turning with lift feature
- + The panel turns 180° and blocks at 90° and 270° from the fixed panel

Benefits

- + Matt black finish for a contemporary look
- + Rising butt hinge for the deflector panel, allowing an easy manipulation
- + The advantages of 6mm glass over 8mm or thicker glass are: lighter weight panel, making it easier for the user to open (important feature for the care market) and in addition, it puts less stress on the door hinges, which is important for long-term performance
- + Easy installation
- + Compatible with shower trays, wet floors and vinyl flooring
