PRODUCTS

We are a British family run business with over 100 years of experience in producing bathroom products. Our experience, together with a strong belief in style, quality and value has positioned April as one of the UK's top brands for shower enclosures.

Our Guarantee

At April we design and manufacture high quality products that will stand the test of time.

All products are rigorously tested to ensure they meet the high industry standards, because of this we are able to provide a lifetime guarantee with all our enclosures when they are installed with one of our April trays.

Made in Britain

All our shower trays are proudly designed & manufactured in Britain and ensure a perfect fit with our enclosures. Together they are backed by a lifetime guarantee.

Our range of Classic freestanding baths are also designed and manufactured in Britain.

Nº1 for Installers

April Products are not only designed to enhance the look of a customer's bathroom, we also understand how important installers are to our business. Our aim is to be the Nº1 choice for installers by making installers the Nº1 priority when designing our products.

Design features to speed up installation:

- Easy clip on cover strips
- Pre-fitted rollers
- Easy fit fixed panel seals
- Pre-fitted u gaskets

Service features:

- Dedicated and experienced technical advisors are on hand to provide telephone diagnostics
- Field engineers are available for onsite visits
- Comprehensive and user friendly installation instructions
- The April website (www.aprilproducts.co.uk) provides technical specifications for April ranges and also allows spare parts to be ordered easily

Ranges

The contemporary **Identiti** 8mm wetroom range incorporates practicality and style, whilst maximising the illusion of space.

The comprehensive **Identiti** 6mm glass range of shower enclosures is a mix of timeless and innovative designs.

The **Prestige** semi-frameless range is made with high quality 8mm glass and has an uncompromising attention to detail.

The new luxurious range of **Prestige Frameless** 10mm wetrooms is a modern and versatile option that makes a bold style statement in any bathroom.

Prestige Frameless is a premium range of striking 8mm frameless enclosures made to the highest specification, designed to last a lifetime.

We proudly design and manufacture a range of both classic and contemporary double skinned freestanding baths.

Clean & Clear™ benefits:

- Creates a ‘non-stick’ surface
- Resists lime scale build-up and water spots
- Easier to clean and keep clean
- Maintains the pristine appearance for longer
- Hinders bacteria growth for a more hygienic environment

Normal Glass

Clean & Clear™ Glass

Description	Code	RRP inc VAT (20%)
Clean & Clear™ Reapplication Kit	KIT01	£47.00

CLEAN & CLEAR™ GLASS TREATMENT
IS APPLIED AS STANDARD TO ALL APRIL
ENCLOSURES AND BATH SCREENS

The Clean & Clear™ glass protection system is both innovative and highly beneficial creating a protective barrier on the glass.

The Problem with Untreated Glass

The surface of glass is not completely smooth; under a microscope glass has a rough surface of peaks and potholes. Water, limescale and mineral salts can quickly build up in this uneven surface causing permanent staining and damage.

How Clean & Clear™ Works

Clean & Clear™ nano-molecules chemically fuse with the surface of glass and acts as a long lasting protective barrier. The hydrophobic or repellent properties stop limescale and other residue from bonding to the glass. It is completely transparent, non-hazardous and unlike traditional coating applications, Clean & Clear™ will never discolour, peel or crack.

Kinder to the Environment

Typically Clean & Clear™ reduces the frequency of cleaning by half. Just like ‘non-stick’ cookware, the maintenance of Clean & Clear™ protected glass does not require harsh and abrasive cleaning chemicals which can be expensive and damaging to the environment.

Aftercare

Clean & Clear™ glass can be cleaned with any suitable non-abrasive glass cleaner - with a PH value of between 3-11; the coating will not be damaged. Avoid surfactants and heavily perfumed products. Vinegar and water based products are very effective. Do not use abrasive scrubbing cleaners or equipment for cleaning.

identiti

A leading trend in bathroom design, Wetroom Panels are not only a luxurious option but also extremely practical. Sheer panels of glass provide the illusion of space even in the smallest of bathrooms, with panel sizes starting from just 500mm. They also provide easy access which is ideal for those who are less mobile or children.

Return Panel Pivots 260°

Support Arm & Joining Bracket

8mm Glass

Return Panel

The pivoting Return Panel acts as a deflector to minimise water splashes and can be fitted to all **Identiti** wetroom panels. It can also be added to existing **Identiti** wetroom panels and pivots through 260° for ease of access to and from the showering area.

Support Arm

All **Identiti** wetroom panels include a stainless steel support arm and joining bracket as standard, the support arm is contemporary in design and provides strength and rigidity. The joining bracket can be used to join two support arms when using a second wetroom panel as a side panel.

Quality Materials

British & European standard 8mm toughened safety glass is used on the **Identiti** Wetroom panels.

Floor to Ceiling Post

Support Arm & Joining Bracket

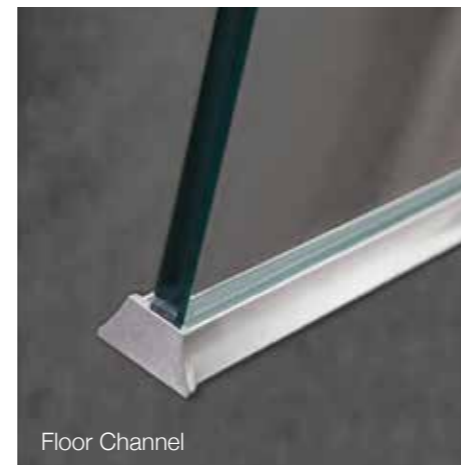

Clean & Clear™
Easy Clean Glass Treatment

Floor to Ceiling Post

For a style statement the optional Floor to Ceiling post can be used in place of the support arm to create the ultimate wetroom look. These striking posts can easily be cut to the appropriate height for your room.

Clean & Clear™

Clean & Clear™ easy clean glass treatment is applied as standard to all **Identiti** wetroom panels. This glass treatment creates a 'non-stick' surface which resists limescale build up and water spots making the enclosure easier to clean.

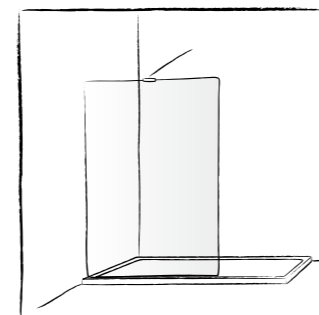

Floor Channel

Floor Channel

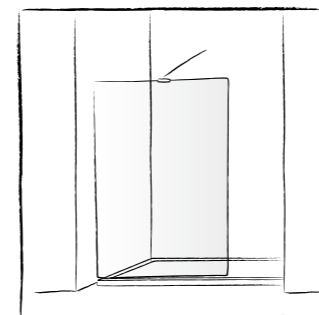

The Floor Channel creates a stylish watertight seal where the glass meets the tiled floor.

Our Panels are so versatile that they can be installed within a recess, in a corner or along a wall as a walk-through, allowing them to be the perfect solution for any bathroom. Illustrated are the many possible configurations that can be made with **Identiti** Wetroom Panels. Each configuration can be fitted with one of our slimline trays or with a wetroom system for which we recommend the use of our Floor Channel (AP2093).

identiti

The comprehensive Identiti range is a mix of innovative designs, creating a stunning centre piece in any bathroom. With a wide choice of enclosures and sizes to choose from, Identiti can cater for all spaces and style requirements.

Top Rollers

Quick Release Bottom Rollers

Soft Close Buffer

product development

Years of design and manufacturing experience have resulted in our top rollers. These enviable rollers have stainless steel roller bearings ensuring the smoothest sliding movement.

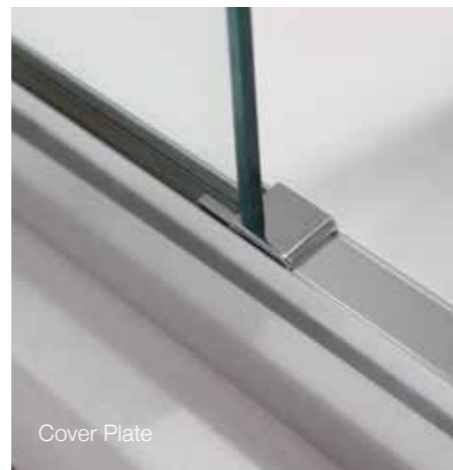

All April **Identiti** sliding enclosures benefit from our quick release feature which allows the glass to be swung inwards for easy cleaning.

Handle

Cover Caps

Cover Plate

finishing touches

Even the smallest details can add to the functionality and feel of quality in a shower enclosure. Cover caps at the top of wall profiles and corner profiles, cover plates on fixed panels and colour matched soft close door seals are amongst the finishing touches on the **Identiti** range.

6mm Glass

quality materials

British & European standard 6mm and 8mm toughened safety glass is used throughout the **Identiti** range.

easy installation

The **Identiti** Cover Strips have been designed to include an 'easy fit' clip on feature which can be fitted quickly and easily. The Cover Strips are supplied as standard on all **Identiti** enclosures and hide internal fixings for a fully concealed finish. Another time saving feature of the range are the pre-fitted u gaskets which replace the need for a gasket seal, allowing the glass to push into grooves in the profiles.

Features

- 6mm and 8mm toughened safety glass
- Lifetime Guarantee
- Clean & Clear™ easy clean glass treatment
- Polished Silver finish
- 1850mm high*
- Quick release rollers for ease of cleaning on all sliding doors
- Stylish handle
- Fully concealed fixings
- Colour matched soft close door seals
- Generous adjustment for out of true walls
- Extension wall profiles available to add up to 50mm

*Height changing to 1900mm.
This will be introduced gradually during the first half of 2016.

Clean&Clear™
Easy Clean Glass Treatment

Clean & Clear™

Clean & Clear™ easy clean glass treatment is applied as standard to all enclosures & bath screens in the **Identiti** range. This glass treatment creates a 'non-stick' surface which resists limescale build up and water spots making the enclosure easier to clean.

guarantee

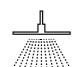

April designs & makes products that stand the test of time which is why we include a Lifetime Guarantee with every one of our enclosures when fitted with an April tray.

PRESTIGE

The Prestige range of semi-frameless enclosures, made with high quality 8mm glass, has an uncompromising attention to detail and quality. With improved features, these enclosures continue to be an excellent choice.

Soft Close Buffer

soft stop buffer

At April we are constantly looking at ways to enhance our products. The **Prestige** soft stop buffers take the door to a cushioned stop and add a luxury feel to the enclosure.

Handle

finishing touches

Our stylish handle completes the finishing touch to our enclosures.

Top Rollers

product development

Years of design and manufacturing experience have resulted in our rollers. These enviable rollers have stainless steel roller bearings ensuring the smoothest sliding movement.

Quick Release Bottom Rollers

quick release bottom rollers

All April **Prestige** sliding enclosures benefit from our quick release feature which allows the glass to be swung inwards for easy cleaning.

8mm Glass

quality materials

British & European standard 8mm toughened safety glass is used throughout the **Prestige** range.

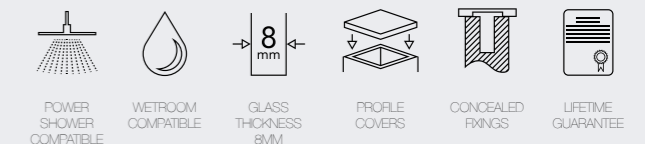

easy installation

The **Prestige** Cover Strips have been redesigned to include an 'easy fit' clip on feature which can be fitted quickly and easily. The Cover Strips are supplied as standard on all **Prestige** enclosures and hide internal fixings for a fully concealed finish. Another time saving feature of the range are the pre-fitted u gaskets which replace the need for a gasket seal, allowing the glass to push into grooves in the profiles.

Features

- 8mm toughened safety glass
- Lifetime Guarantee
- Clean & Clear™ easy clean glass treatment
- Polished Silver
- 1900mm high
- Contemporary bar handle
- Quick release runners for ease of cleaning
- Soft stop buffer (excludes Pivot Door)
- Fully concealed fixings
- Colour matched soft close door seals
- Generous adjustment for out of true walls

Clean & Clear™
Easy Clean Glass Treatment

Clean & Clear™ easy clean glass treatment is applied as standard to all enclosures & bath screens in the **Prestige** range. This glass treatment creates a 'non-stick' surface which resists limescale build up and water spots making the enclosure easier to clean.

guarantee

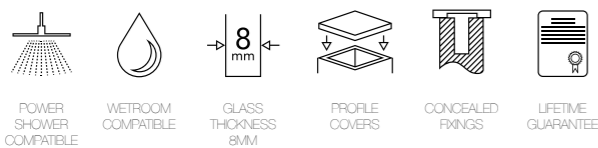

April designs & makes products that stand the test of time which is why we include a Lifetime Guarantee with every one of our enclosures when fitted with an April tray.

FRAMELESS

Prestige Frameless is a premium range of frameless shower enclosures and 10mm wetrooms designed to the highest specification and made to last a lifetime. Boasting 8mm glass on all enclosures, the range is minimalistic and contemporary styling at its best.

design details

The high specification of **Prestige Frameless** means that even the smallest of details have been designed to add to the luxury of the range. Cover caps and cover strips not only conceal all fixings, they enhance the overall design of the enclosures.

sliding door

Our **Prestige Frameless** Sliding Door features the very latest in door design. Soft stop buffers take the door to a cushioned stop and add a luxury feel to the enclosure.

sliding door

For a striking and luxury finish, the **Prestige Frameless** Sliding Door handle & top rail are available in a highly polished stainless steel or matt black finish.

Hinges

Handle

black profiles

The **Prestige Frameless** Sliding Door enclosure is now available with new matt black profiles and smoked glass options, making a bold style statement and giving an instant contemporary look.

finishing touches

Our chrome plated brass hinges provide the quality expected from our 8mm frameless range, whilst the stylish chrome plated handle creates the perfect finishing touch.

10mm wetroom

10mm wetroom

The new **Prestige Frameless** 10mm Wetroom panels offer a striking and luxurious option for your showering space.

smoked glass

The new Smoked Glass option is available in our **Prestige Frameless** 10mm Wetroom and Sliding Door ranges, making a bold statement in any bathroom.

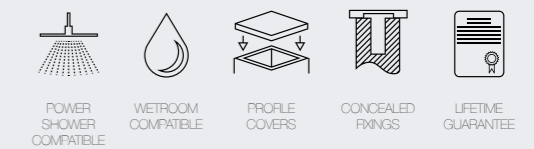

quality materials

British & European standard 8mm and 10mm toughened safety glass is used throughout the **Prestige Frameless** range.

Classic freestanding baths

- Proudly manufactured in the UK
 - Double skinned freestanding bath
 - The bath is tested to BS EN 14516 and BS EN 198 standards

The image shows a classic white clawfoot bathtub with chrome fixtures and feet. It is positioned in front of a large window that offers a view of a city skyline, including a prominent tower. The bathtub is set on a wooden floor. In the top right corner, there is a logo for 'Made in Britain' featuring a stylized Union Jack flag.

Haworth skirted freestanding bath

Contemporary soaking bath. A prominent flat rim flows smoothly into radial curve and down the bath. Freestanding taps only - not supplied.

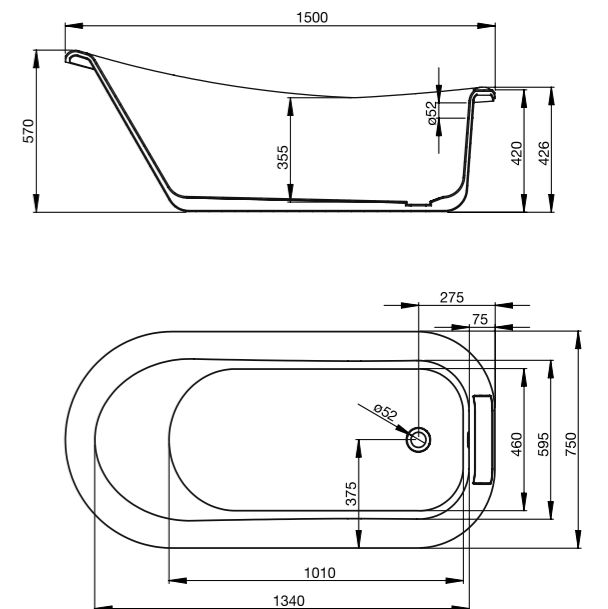

Code	Height (mm)	Width (mm)	Depth (mm)	RRP inc VAT (20%)
28A1815	570	1800	800	£820.00

Bath supplied undrilled as no tap holes can be drilled into the bath, waste and taps not included. Bath drilled for waste and overflow. See page 81 for wastes. **Underfloor access to plumbing is required for this bath.**

Waste Options
7407, 7408

Eldwick slipper freestanding bath

Traditional Slipper with elegant smooth curves. Tap deck at one end of the bath. See page 63 for feet options - feet sold separately.

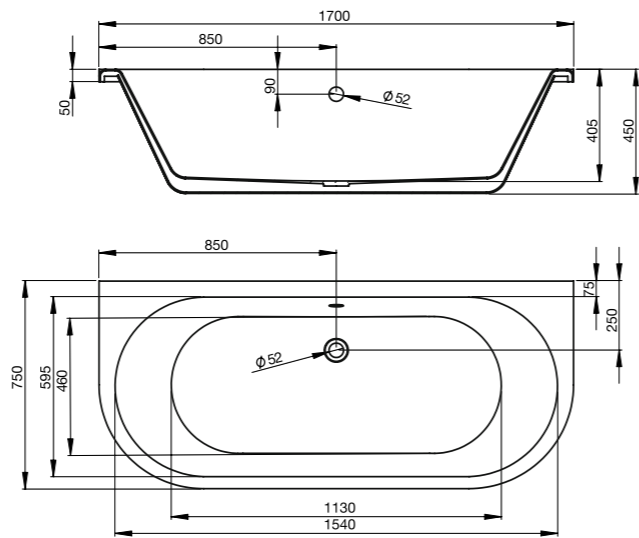

Code	Height (mm)	Width (mm)	Depth (mm)	RRP inc VAT (20%)
28A1510	426/570	1500	750	£572.00

Bath supplied undrilled for tap holes, waste & taps not included. Bath drilled for waste and overflow.
See page 81 for wastes.

 Waste Options
7401, 7402, 7403, 7404, 7405, 7406
7414, 7415

Kildwick back to wall freestanding bath

Flat sided bath to place up against a wall. A flat rim at the back to house the taps, which blends smoothly into a roll top at the front. See page 71 for feet options - feet sold separately.

Bath Wastes explained

Bath Waste Guide

With so many different wastes to choose from picking the right one can be daunting. With the aid of our Bath Waste Guide we hope to help you choose the right waste for your bath.

Non Exposed

A non exposed waste fits to the bath but cannot be seen. Waste 7401 is a non exposed Plug and Chain waste, 7402 is a non exposed Pop Up waste and 7403 is a non exposed Click Clack waste. These wastes are manufactured in plastic and the only parts seen are the parts which will be fitted to the inside of the bath.

Code: 7402 Non Exposed Pop Up

Exposed Wastes

These wastes are manufactured with the intention of being seen, these have to be pleasing to the eye and not made out of plastic. Exposed Plug and Chain 7404, exposed Pop Up waste 7405 and exposed Click Clack 7406 are examples of exposed wastes.

Code: 7404 Exposed Plug & Chain

Click Clack Wastes

This waste is opened or closed by pressing on the waste cover. The Click Clack wastes are available in exposed and non exposed options.

Code: 7406 Exposed Click Clack

Pop Up Wastes

This waste is opened or closed by simply turning the overflow. The Pop Up wastes are available in exposed and non exposed options.

Code: 7405 Exposed Pop Up

Bath Fillers

The water emerges from a hole on the underside of the overflow. The on/off flow to the filler is controlled by either a pair of deck valves mounted on the bath, or by a manual or thermostatic valve set into the wall. 7407 is a Pop Up version, 7408 is a Click Clack version.

Code: 7407 Bath Filler with Pop Up Waste

Code: 7408 Bath Filler with Click Clack Waste

P Trap

P traps are fitted to the waste tail underneath the bath. It releases the water out of the bath and down to the outlet pipe, the P shape allows a little water to remain in the bottom of the trap to stop any foul smells venting back up into the bath from the soil pipe. This comes supplied only as an exposed version, in either shallow or ultra shallow format.

Code: 7409 Ultra Shallow P Trap

Exposed L Pipe

This is an exposed outlet pipe which connects to the P trap and goes underneath the floor to connect to a plastic outlet pipe. Again the pipe is for exposed use and fits with all the other exposed waste pipes.

Code: 7413 Exposed L Pipe

Pipe Shrouds

There are two different types of pipe shroud we provide.

Telescopic 7411; these pipe shrouds are used when tap holes are drilled in the bath.

Over edge pipe shroud 7412; these pipe shrouds are used when there are no tap holes in the bath.

Code: 7412 Over Edge/Rim Pipe Shrouds

Exposed Telescopic Pipe Shroud Kits

The Pipe Shroud Kits (7414 & 7415) are both exposed versions and include an exposed waste, telescopic pipe shrouds and a P trap. The difference between the two is that one kit has a plug and chain waste and the other kit has a pop up. These kits are a complete set, instead of ordering everything separately.

Code: 7414 Chain Waste Kit

Code: 7415 Pop Up Waste Kit

7415	Pop Up Waste Kit (Waste, P Trap, Telescopic Pipe Shrouds - Exposed)	£353.00

We strongly recommend the use of our wastes with our baths as we cannot guarantee other wastes will fit our baths.

April trays

An extensive range of contemporary designed shower trays combining style with function.

FEATURES

- Slimline 45mm height
- ABS capped stone resin
- Optional riser leg and panel pack fits the majority of trays
- Extensive range of sizes
- Optional fast flow waste
- Lifetime guarantee
- New Waifer® slate effect tray

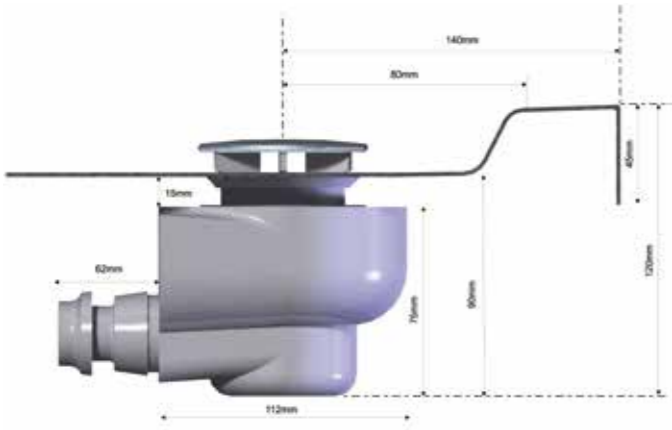

RISER

An optional riser leg and panel pack allows the majority of April trays to be upgraded to a riser tray. The easy fit adjustable legs and panel clips allow for a quick and easy installation and maintenance access, ideal for use on solid floors.

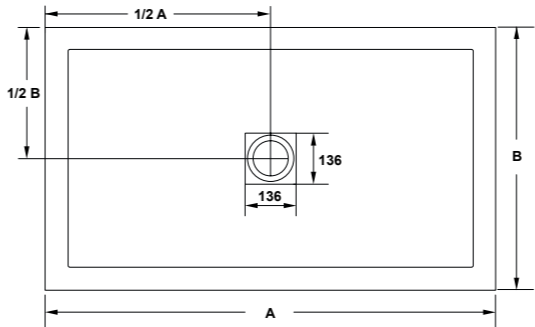

APRIL FAST FLOW WASTE

The April fast flow waste removes up to 54 litres of water every minute. The stylish chrome plated domed cover provides top access for ease of cleaning.

It is recommended that the April Fast Flow Waste is used with all April trays.

- Waifer® slate effect tray available in black or white
- Waifer® 90mm stainless steel waste with grate
- Grate colour options - Chrome effect, Matt Black & White
- Generous size options available
- Stone effect resin 37mm high

Product Information

Shower Enclosures

All products are manufactured in accordance with ISO 9001 and ISO 14001. All glass fully conforms to the relevant EN standards for toughened safety glass. All Aluminium sections are extruded from alloys which comply with the relevant EN standards. Doors and enclosures are tested in accordance with the relevant EN standards and are suitable for use with modern power showers. Products are supplied with full installation instructions and fixings.

Guarantee Information

April guarantees cover all manufacturing defects. This guarantee does not cover damage during fitting or misuse. The guarantee applies only to the original purchasers of the product and is not transferable. Further terms and conditions are available from our website www.aprilproducts.co.uk.

Shower Enclosures

All shower enclosures carry a lifetime guarantee (with the exception of the Destini range) when fitted with an April shower tray. A 10 year guarantee will be given when fitted with any other manufacturer's tray.

Wetroom panel guarantee applies as above. When panels are installed without a tray, a lifetime guarantee applies.

Shower Trays

All shower trays carry a lifetime guarantee.

Freestanding Baths

All freestanding baths carry a 10 year guarantee.

Prices

The prices included within this brochure supercede all previous publications with goods being invoiced at prices ruling on date of dispatch. Prices are subject to alteration without notice.

Errors & Omissions

In the interest of continuing design and development and product improvement, April reserve the right to change colour, designs and product specifications without prior notice. All colours/finishes in this brochure are as accurate as the printing process will allow.

Measurements

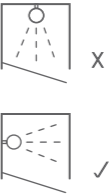

All dimensions are in millimetres and are nominal, they are provided as guidance only. They are not to be used as a template for a wetroom floor design.

Cleaning Instructions

It is important to clean your April shower enclosure after every use. Please wipe down all the glass and metal parts with a clean soft cloth. Ensure that all residual water on the glass is removed after every use. Clean and Clean™ glass can be cleaned with any suitable non-abrasive glass cleaner - with PH value of between 3-11; the coating will not be damaged. Avoid surfactants and heavily perfumed products. Vinegar and water based products are very effective. Do not use abrasive scrubbing cleaners or equipment for cleaning. Install your enclosure in a well ventilated area.

Usage

For reliable, watertight performance from your April enclosure your shower head should not be positioned so that the shower sprays directly onto the enclosure door. Failure to comply with this may cause the shower to leak. Outward opening doors may cause water to drip onto the floor, please ensure that the floor covering immediately outside the enclosures will not be affected by water.
