SMART TECHNOLOGY.  
AN ELEGANT CHOICE OF  
DIALS AND ACCESSORIES  
LETS YOU EXPRESS YOUR  
INDIVIDUALITY.

## INFINIA™

Engineered by the Smart Shower experts, Aqualisa Infinitia™ combines all of the quality and premium feel of the best dual control mixers, with Aqualisa Smart Technology.

With one-touch start/stop, LED temperature indicator, precision temperature control and Smart Dual Outlet, Aqualisa Infinitia™ delivers the perfect shower, every time.

No need to be in the shower for it to start. With dry-side remote control, your shower will warm up before you step in. Plus, with an Eco setting delivering a perfect shower with 33% less water, Aqualisa Infinitia™ is a true guilt-free pleasure.

Infinitia™ valve with Piazza dials and remote control.

## LESS IS MORE

The thinnest shower in its class.

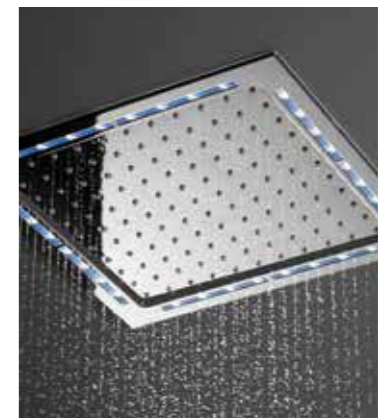

Aqualisa Infinia™ boasts an ultra-thin control plate of just 2.5mm, which sits flush to the wall, for the most seamless look available.

## ENDLESS CHOICE

With Aqualisa Infinia™ you can express your own sense of style and individuality. The hand polished shower control can be tailored with a choice of three different and equally elegant designer dials: Piazza, Tondo or Astratta. All of which come in a choice of two different finishes: Chrome and White/Chrome.

Infinia™ valve with Piazza dials.

Infinia™ valve with Tondo white dials.

Q™ EDITION with Pewter accent ring

## Q™ EDITION

Introducing Q™ EDITION, our next generation Smart Mixer Shower that's set to revolutionise the way we shower. Q™ EDITION breaks the mould. As well as the high performance and precision temperature control that come with an Aqualisa Smart Shower, Q™ EDITION offers personalisation capabilities that take the showering experience to a whole new level. The on/off touch switch has been specifically designed to work in a wet environment and landmark technology includes a proximity sensor that reduces flow to save water when you step away from the shower, to wash or condition your hair or shave.

MORE THAN  
JUST A  
SHOWER,  
A PERSONAL  
SHOWERING  
EXPERIENCE

Q™ EDITION with Pewter accent ring.

Q™ EDITION with Bright Chrome accent ring.

## Q™ EDITION

Q™ EDITION is not just a shower, but extraordinary showering. Crafted with high quality materials, it has been designed with individuality and style in mind. From the seamless motion of the multi-functional Q™ lever to the five customisable metallic accents.

Personalisation is at the very heart of Q™ EDITION: MyQ™ gives you the ability to choose from a range of five pre-set experiences that we have created for you to suit your mood and lifestyle, like 'Sport', 'Eco' or 'Comfort', as well as the option to create and save your own shower experiences so that you can repeat that perfect shower every time.

Intuitive and easy to use, with its simple on/off touch switch, Q™ EDITION greets you with a friendly 'Hello' displayed on its screen before it powers on. Its warm up feature will hold the water at your desired temperature until you're ready to start your shower, and the multi-functional Q™ lever adjusts the flow when you move it up and down and navigates you through the menu. As with all our Premier Smart Showers, it comes with a remote control so that you can power on your shower and have it perfectly pre-warmed before you step in.

# HIQU™ SHOWER

The elegance of HiQu's™ contemporary design combines with the intelligence of Aqualisa's award-winning smart technology to deliver an intuitive shower.

Single touch start/stop with precision water-blending and lighting display that intuitively indicates the water temperature and flow. When the lights are red the water is heating up, blue means it's cooling down and when they are white and steady, that's HiQu's™ advanced smart valve telling you that your ideal shower is ready.

Whether you choose a HiQu™ Smart Shower or a HiQu™ Smart Dual Outlet system, with its neat remote control you can enjoy the convenience of setting your shower running from outside the enclosure. The Smart Dual Outlet system offers the added bonus of allowing you to choose between two outlets to commence showering or begin filling a perfect bath.

## HIQU™ BATH

Indulge yourself in a truly smart bathing experience at the touch of a button and without a tap in sight.

Select full, half or shallow fill: HiQu™ Bath will fill your tub to the depth and precise temperature you choose. The intuitive lighting display will tell you when the water is flowing at your specified temperature. HiQu™ will safely stop filling your bath when your chosen depth has been reached, so you can just 'fill and forget'.

If you choose to stay in your bath a little longer, go ahead and indulge yourself with HiQu's™ Top Up function. It can add more hot water to bring a cooling bath back to perfection. HiQu™ Bath Dual Outlet can be accessorised with your choice of stylish hand showers for a totally co-ordinated bathroom.

For family bathrooms, place a HiQu™ Shower Dual Outlet system over the bath and team with a bath fill, so that at the touch of a button you can effortlessly switch between the bath fill and shower.

## RISE™ Smart Shower

Rise™ is all about simplicity: beautifully simple aesthetics, thoughtful features and simple installation.

A single touch will have the Rise™ Smart Shower warming up, whilst the sophisticated LED display lets you know when it's time to step in once it's reached the perfect temperature, so you never need to wait in the shower for the water to warm up. A remote control allows you to start the shower remotely and to divert when necessary.

Rise is suitable for single and dual outlets, enabling you to switch instantly between shower heads and/or a bath fill.

## RISE™ Smart Bath

The Rise™ Bath makes life easy and convenient offering the ultimate family-friendly bathroom solution. You will be able to programme the bath's depth so you and other members of your family can have the same perfectly filled bath every time. What's more, if the hot water runs out, the bath simply stops filling up.

With Rise™ Bath, you are reassured that even at steamy temperatures, the bath's control will stay cool to the touch, essential for everyone but especially for vulnerable users.

A simple Smart Bath fill combined with a single hand shower will take care of every bathing scenario. One touch will have your bath running in seconds, whilst pressing again would divert water to the hand shower, with temperatures remaining reassuringly safe and constant throughout.

# RISE™ DCV

Rise™ DCV is a thermostatic dual control mixer shower designed with clean, simple lines made with quality materials. Sophisticated and timeless, it is the perfect solution if you are looking for a stylish and contemporary look.

Whether you choose a single, divert or three-way solution, teamed with your choice of accessories and fittings, Rise™ DCV will ooze elegance and luxury, whilst also offering you maximum flexibility with its divert system.

# HIQUXT™

HiQuXT™ is a thermostatic shower and bath shower mixer range that combines modern looks with an exceptional showering experience. From its high quality all-metal chrome finished controls to its sleek lines and architectural details, HiQuXT™ will have pride of place in any bathroom.

With HiQuXT™ you will enjoy a powerful, invigorating shower, every time. For low pressure gravity water systems add a twin ended booster pump to deliver a drench-like showering experience.

HiQuXT™ delivers more than just high-performance showering with precise temperature control. It also comes with a host of thoughtful features, like the Eco Flow control and a temperature override button for safety and peace of mind.

The HiQuXT™ Bath Shower Mixer features an integrated diverter that lets you switch seamlessly between bathing and showering, and can be bath or wall mounted, making HiQuXT™ an elegant and ergonomic choice for any bathroom space.

# FUTORI™

The discreet, integrated diverter in Futori™ allows you to customise with your choice of drencher shower head and hand shower, which you can seamlessly switch between. When you want to keep your hair dry, Futori's™ drencher head arm swivels aside.

The thermostatic technology at the heart of Futori™ delivers perfect water temperature and flow to the shower head. And for added reassurance, there's a temperature override button to ensure safe family showering.

With its luxurious brass controls, everything about Futori™ exudes quality and superior attention to detail. You can tailor Futori™ with your choice of accessories to create a seamless, classic bathroom to match your style.

Futori™ is suitable for high pressure, combination boiler and boosted gravity water systems.

# Build Your Shower

## Choice 1: Design your own shower

Build your perfect shower from our range of controls and accessories. See pages 50-51 for inspiration, but the choice is entirely yours.

### Step 1: Choose a controller

Choose a Smart shower or bath control, which include Smart valve and remote control, or standard thermostatic mixer, suitable for your water system and number of outlets.

INFINIA™  
pages 28-29

Q™ EDITION  
pages 30-31

HIQU™  
pages 32-33

RISE™ DCV  
page 34

HIQUXT™  
page 35

FUTORI™  
page 35

### Step 2: Accessorise

Tailor your shower with your choice of heads and accessories, listed on pages 44-51.

## Choice 2: Buy a complete shower pack

There are 2 ways you choose a ready-made shower.

### Either: Premier Option Kit Packs

1: Choose a controller from the list below.

INFINIA™ (pages 28-29)  
Q™ EDITION (pages 30-31)  
HIQU™ (pages 32-33)  
RISE™ DCV (page 34)  
HIQUXT™ (page 35)  
FUTORI™ (page 35)

eg: Q™ EDITION

+

2: Choose a Premier Option Kit Pack (page 41-43)

eg: OPN5009

### Or: Rise™ Smart Packs

1: Simply choose one of our Rise™ Smart kit packs for the complete smart shower solution. (page 36-40)

RISE™ Smart controllers and remotes (pages 36-37) are included in the Rise™ Smart kit packs

eg: RSD.PACK1

Aqualisa tests all of its Smart Showers with accessories, including handsets, hoses and outlets, that deliver a flow rate of no less than 9 litres per minute to ensure thermostatic stability.

# INFINIA™

## Infinia™ Shower and Infinia™ Shower Dual Outlet

Aqualisa Infinia™ delivers all the trusted benefits of a thermostatic valve, with the increased efficiency and sleek design of intelligent, Smart Showering. You can tailor the look of the control to suit your bathroom style with a choice of three designer dial shapes and finishes.

- 1

## Programming HiQu™ Bath

Press the Start/Stop button to start the water flowing. Select ‘Bath Set Up mode’, put in the plug and press and hold the Start/Stop button until the LED flashes purple. When the water has reached the depth you desire for a full fill, press Start/Stop again and the controller will remember the depth you have chosen. It will also automatically convert this into shallow fill and half fill depths. All you have to do is decide how hot or cool you want your bath, select the bath depth and press ‘Start’ for a perfect bathtime.

Product dimensions are in mm and are for guidance only.  
Please refer to installation guide for installation requirements. VAT quoted at 20%.

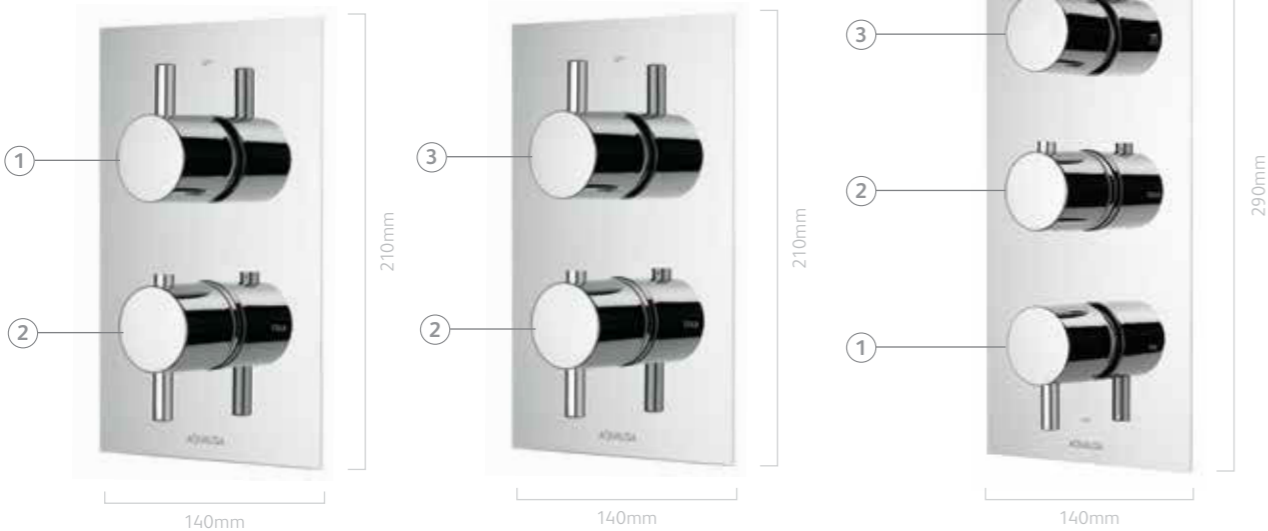

# RISE™ DCV

## Rise™ DCV controls

Rise™ DCV is a classic mixer shower, ideal if Smart Showers are not for you or if you want a different look in another bathroom. A Rise™ DCV Divert system offers total flexibility, whether you want an adjustable and drencher head, a drencher head and handset or a three-way over bath combination. Each Rise™ control comes with a pair of 25mm metal levers which can be fitted if required, giving you more choice.

- 1 Flow control
- 2 Temperature control
- 3 Combined Divert and flow control

# HIQUXT™

## HiQuXT™ controls

A bathroom classic with a design twist, HiQuXT™ comes with easy to use controls, and thoughtful features such as the 'eco-stop' control that reduces water usage up to 50% without compromising performance. HiQuXT™'s Bath Mixer Dual Outlet system allows you to switch easily between water flowing from the spout and the shower head.

# FUTORI™

Built from solid brass, the temperature control in Futori will stop at 38°C for safer family showering and a temperature override button will allow you to choose a hotter shower. A built-in Diverter allows you to switch from the fixed head to a hand shower which sits neatly in the adjustable handset holder.

Product dimensions are in mm and are for guidance only.  
Please refer to installation guide for installation requirements. VAT quoted at 20%.

# RISE™ Smart

## Rise™ Smart Single and Dual Outlet Shower Control

Rise Smart Shower has been designed to deliver an intuitive, intelligent showering experience. Its thoughtful water saving features can be activated as required to suit you and your family’s needs. The LED lighting comes as standard and the clever display will show you when it’s time to step in – whilst the remote control allows you to start the shower without reaching into the enclosure.

- 1 **Start/Stop button (Rise™ Smart Shower single outlet)** – Press button to start/stop.
- 2 **Temperature control**
- 3 **LED Display**  
A white LED will spin clockwise or anticlockwise to denote increases or decreases in temperature and flow.
- 4 **Start/Stop and Divert button (Rise™ Smart Shower Dual Outlet)** – Press button to start/stop. Water will dispense to the preferred outlet.

Rise Smart Shower dual outlet control

## Water saving features

You can programme a number of water saving features on the control:

**Warm up\*** - Step in when your shower reaches temperature

**Pause\*** - For up to 2 minutes when shampooing or shaving

**Timer** – You can decide how long you want the shower to run

*\*Due to the performance characteristics of combination boilers, it is not recommended to activate these options*

## Rise smart remote control - concealed

Switch on the shower or bath fill remotely from up to 10 meters away. Push and hold to Divert if you have a Divert option.

Included in the price  
RSD.B3.DS.14  
**£144.00** RRP inc VAT

## Rise smart wireless remote control

The wireless remote features LED lights to show the shower is switched on. It can be fitted with or without a wall plate.

Sold separately  
RSD.B3.WR.14  
**£144.00** RRP inc VAT

Product dimensions are in mm and are for guidance only.  
Please refer to installation guide for installation requirements. VAT quoted at 20%.

## Rise™ Smart Bath Control

Belying its understated styling, a Rise™ Smart Bath fill delivers perfect, thermostatically blended water through a contemporary overflow filler – making bulky taps a thing of the past. Simply press the button or use your Rise™ Smart remote control – and your bath will be up and running.

- 1 **Start/Stop button (Rise™ Bath)** – Press button to start. Water will dispense at the temperature and depth level set by the controls.
- 2 **Temperature** – For warmer water move dial to the right, cooler to the left.
- 3 **Top Up**
- 4 **Bath depth setting** – The bath fill level can be preset.

# Smart Valves

Powered by Aqualisa’s award-winning smart technology, Q™ EDITION, Infinia™, ilux™ and HiQu™ Smart are controlled by a compact smart valve. The correct smart valve solution will be determined by the water system in your home. This small but powerful device blends the hot and cold water and controls the flow with smart precision to exactly the flow and temperature selected, regardless of the external temperature or conditions. It can be located up to 10 metres away from the bathing area, in the loft, airing cupboard or under the bath and delivers the perfect bath or shower every time.

Smart Valves also benefit from Aqualisa’s 5 year manufacturer’s guarantee.

## High Pressure/Combi smart valves

This smart valve, which is no larger than a shoe box, is for use with high pressure water systems which can include a combination boiler or mains fed water. It can also be teamed with a suitable twin ended booster pump for low pressure systems requiring a powerful boost.

## Gravity Pumped smart valve with integral pump

Suitable for homes with low pressure gravity fed water systems. This smart valve integrates a pump to provide extra power.

## Smart Diverter

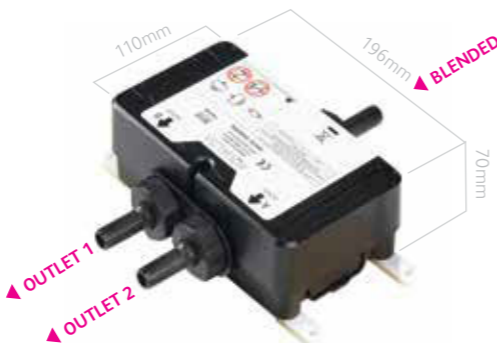

Approximately half the size of a smart valve, the Smart Diverter simply connects to the smart valve and converts a single outlet smart product into a dual outlet smart product.

The ingenious Smart Diverter has the ability to enable either outlet to work separately, or simultaneously if required on certain products. It can even select your preferred outlet to operate first, every time – ideal when switching your shower on using your remote from outside of your shower area.

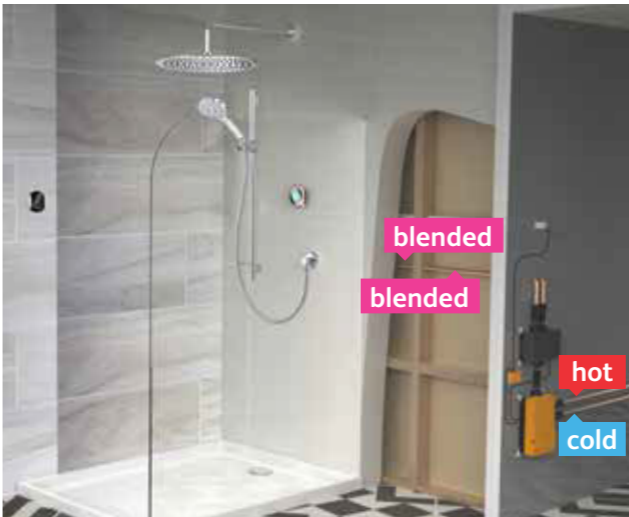

If fitting a smart Diverter and HP/Combi smart valve complete with a separate booster pump, a suitable universal pump (which works on both positive and negative head conditions) will be required.

Product dimensions are in mm and are for guidance only. Please refer to installation guides for installation requirements.

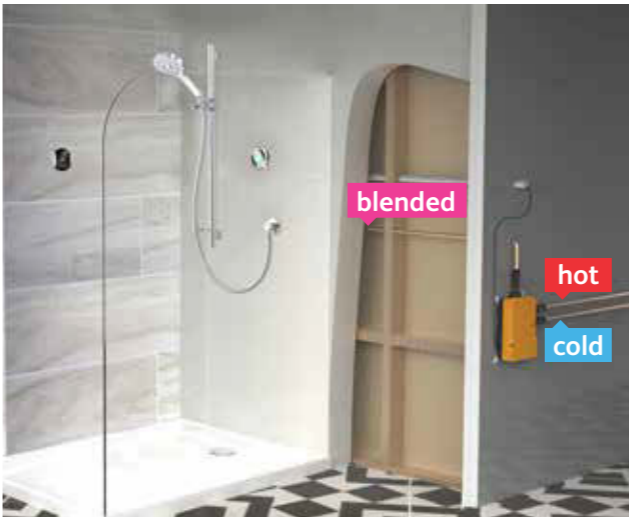

# The Premier Collection suits any home

Before planning your ideal Aqualisa bathroom, it’s important to understand how your choice of shower or bath will work with your water system. The following diagrams are just a few examples of different configurations, which will give you a good idea of how the set-up will fit around your bathroom.

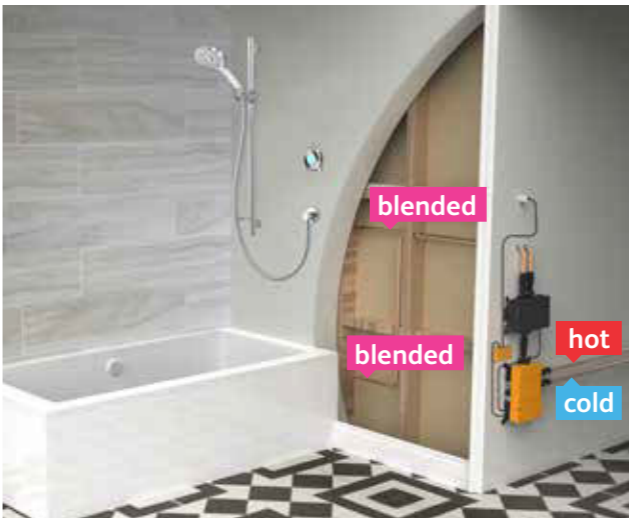

## Smart Dual Outlet Shower

Q™ EDITION Smart Dual Outlet with Option Kit OPN5009 and Remote Control (Wireless)

## Smart Shower

Q™ EDITION with modular accessories, including options handset and rail system

## Bath Dual Outlet

Q™ EDITION Smart Bath Dual Outlet with overflow filler, options handset and rail system

Icon key

Simple and easy to use, each of these icons allows you to see at a glance what additional benefits a particular product or accessory comes with.

 **High pressure water systems**  
Suitable for use with high pressure, combination boiler and boosted gravity systems

 **Gravity systems**  
Suitable for use with gravity systems

 **All water systems**  
Suitable for use with all water systems

 **Spray pattern**  
This shower has 1 spray pattern

 **Spray patterns**  
Select from 3 spray patterns to suit your mood

 **Spray patterns**  
Select from a choice of multiple spray patterns to suit your mood

 **Water saving**  
Offers 25% water saving, while maintaining a satisfying shower

 **Easy to install**  
Quick and simple installation causing minimal disruption to tiles and decor. Exposed Smart showers can be fitted in as little as 2 hours

 **Cool touch**  
The surface of the product is cool to touch with no heat transmission of the water

 **Safe touch**  
The surface of the product is safe to touch with minimal heat transmission of the water

 **Proximity sensor**  
When the shower is on, if you move away from it, flow will reduce by 10% and full flow resume when you move back in front of it

 **Thermostatic**  
Instantly reacts to temperature fluctuations and water flow for consistent performance

 **Remote control**  
A remote control positioned in any convenient location up to 10 metres away

 **Wireless remote control**  
A wireless remote control positioned up to 10 metres away, dependent on building materials and construction of the property.

 **Smart ready**  
Head/ Handsets that allow full flow therefore enabling the Smart products to work at their full functionality.

 **5 year guarantee**  
All components come with a 5 year parts and labour guarantee

 **Brass body**  
A valve made from quality solid brass which prevents the possibility of rusting
