Complete bathroom solution

AQUALUX
BATHROOM DESIGN

Aqualux has a solution for you - whether a full bathroom project, a new enclosure or bath replacement

We can provide the complete bathroom solution from shower enclosures, trays and bath screens to bathroom accessories and flooring.

Enclosures

Aqualux offers a range of solutions to cover most aspirations and installation types with a broad range of sizes and matched styles.

Whether you are looking for minimalist or luxurious designs, the design style is in the detail.

Trays

Our trays are only 25mm high offering a minimalist style and ideal for an in-floor wet-room look. Aqualux trays are available in three styles; Definition, Reflection and Sphere series, with square, round and offset waste designs, suitable for installation, in or on the floor, enabling the best solution for your home. The AQUA 25 (Sphere range only) comes with a 90mm waste (available separately), for quick and efficient water discharge. Aqualux also offers a new anti-slip range. The trays are made from stone resin combined with a gel coating. Available in a variety of shapes and sizes. All designed and produced in Europe.

Bath screens

A range of bath screens from 4-fold designs that optimise the use of space to clear glass panels for a clean and clear look.

Accessories

Aqualux's portfolio includes a range of accessories to mix and match your style, creating a seamless design across your bathroom. Offering a variety of styles, from timeless vintage to contemporary round and square designs.

Flooring

100% waterproof, robust flooring available in 20 unique designs, including wood imitation and tiles, with a repetition of 1/60 covering 15m².

Whatever the solution, we want you to love your bathroom.

What's your space?

Style and design features

Whatever size or shape your bathroom or ensuite, Aqualux has an enclosure to suit

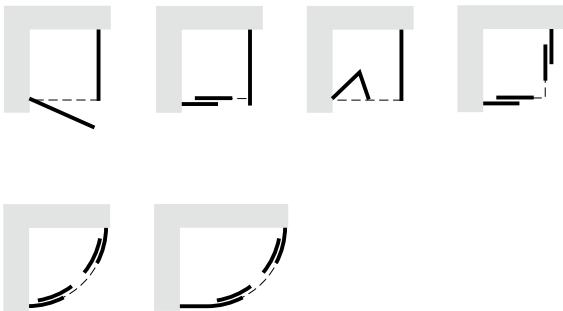

Recess fit

For installations between two walls, from space saving bi-fold doors, to luxurious enclosures for families and couples. Available in square and rectangular formats.

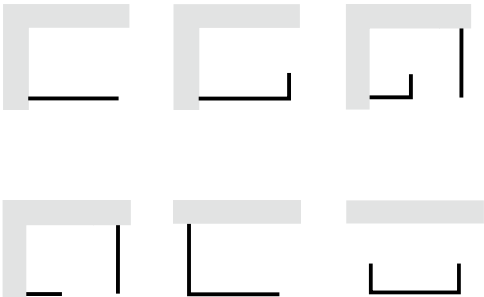

Corner fit & Quadrant

The classic corner installation, whether a door and a side panel or two doors for corner entry, there is a perfect solution. Available in square, rectangular, and round quadrant formats.

Walk in shower panels

For a minimalist open plan room feel, from Walk in to Walk through, we have a range of modular solutions to create the bathroom design you aspire to whether using a tray or wetroom installation.

Origin 8
Walk in panel

Origin 8

Walk in panel

Origin 8

Walk in panel

Key features

Minimalist Push'&'Fix wall profile with concealed fittings

Adjustable stabilisation bar

Smooth corner profile

Create your space

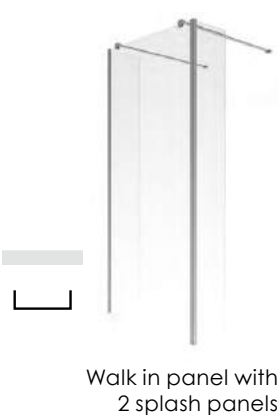

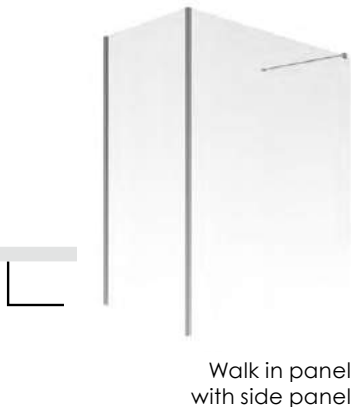

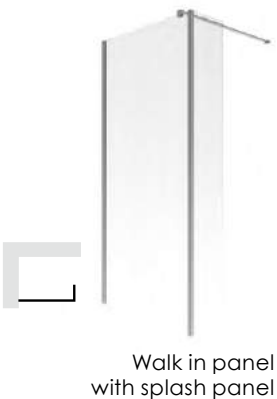

Origin 8 is a modular system that allows your creative inspiration to flow. It's simple Push'&'Fix modular construction offers flexibility in both size and format from Walk in and Walk through, to full enclosure.

- Minimalist Push and Fix profile with hidden fittings
- Square fittings
- Enclosure height 2000mm
- 8mm safety glass with Aquaglean treatment
- To complete your design with accessories see the Pro 5000 square series
- For both wetroom and on tray installations
- For a compatible tray see the AQUA 25 ranges, that allow "in floor" installation for a wet room feel
- 12 year guarantee for peace of mind

How to order

The modular design of these Walk in panels means selecting the panels and installation kits separately. Apart from the **Walk in panel** and the **Walk in panel with splash panel**, which are supplied complete with an installation kit.

AQUA 25 Shower Trays

Sphere anti slip trays
now available

AQUA 3 PIVOT DOOR WITH SIDE PANEL, WHITE FRAME WITH WHITE STRIPED GLASS

Style and design features

Whether square, rectangular or quadrant, Aqualux has a solution for you

Sphere

Sphere's round waste located in the corner or side of the tray.

Square

Rectangular

Sphere anti slip

Quadrant

Offset quadrant

90mm Waste

Chrome domed waste suitable for use with Sphere shower trays (available separately).

Reflection

Reflection's square centrally positioned drain for a symmetrical design. Supplied complete with 90mm waste.

Square

Rectangular

Quadrant

Offset quadrant

Definition

Definition's rectangular waste is located at the edge of the tray for an infinity look. Supplied complete with 90mm waste.

Square

Rectangular

Quadrant

Understanding your design choice

Height

Height of the tray in mm.

Strong

Tested to 300 kg.

Anti slip surface

Sphere trays have an anti slip option, with a market leading anti slip rating

Flow rate

Tested in processing more than 33 litres of water a minute.

Tray waste

All AQUA 25 Reflection and Definition shower trays are supplied with a 90mm Waste.

Guarantee

Years of Aqualux guarantee.

Fitting options

In floor

Recessed into the floor, where the shower tray is level with the floor giving a wetroom look and feel.

On floor

With the shower tray level to the floor, at just 25mm high the step in is almost unnoticeable.

AQUA 25 advantages

The AQUA 25 shower tray is made of stone resin with many advantages:

- Match your style, choose from three different styles
- Comfortable, the shower tray does not feel cold on your feet thanks to the gel coating
- Sphere trays are available in two finishes: smooth and anti slip
- Sphere anti slip trays feature a unique easy clean surface that has almost twice the bathroom industry standard of slip resistance
- Environmentally friendly: 100% recyclable
- Easy clean and repairable finish
- The efficient waste design has a self-cleaning function and will discharge the water quickly
- Suitable for wheelchair users
- All quadrant trays 550 radius
- Suitable for use with enclosure designs from Walk in to fully framed, for the widest possible solutions

Finesse
Floor

AQUALOX
BATHROOM DESIGN

A NEW GENERATION OF
MODULAR FLOORING

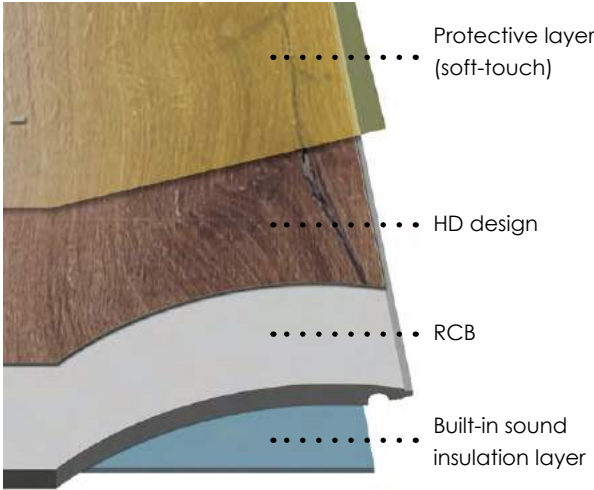

Style and design features

A revolution in modular flooring

Our Finesse Flooring consists of exquisite craftsmanship offering 20 unique designs.

Create your Signature style with a design that works for your unique space. As Finesse flooring brings you an abundance of choice with a versatile and adaptable way to effortlessly create the look you want, with 20 trending designs in tiles and wood imitation to choose from.

Finesse Flooring make up

Finesse Flooring

	Price PER PACK RRP incl. VAT	Price PER SQ METRE RRP incl. VAT
Planks	£105.00	£47.29
Tiles	£126.00	£47.50

Perfect for any interior; in the dinning room, bedroom, bathroom, kitchen or hallway, including commercial spaces including offices and shops.

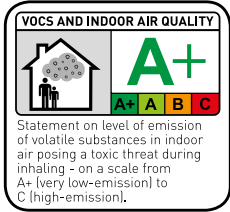

Our premium print quality and repetition of 1/60 through combining HD and 3D creates an appearance which is almost identical to natural wood or stone.

The RCB has many advantages: it's very hard wearing but with a natural and soft texture.

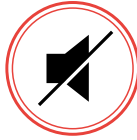

Our Collection

Finesse Flooring has many key features to offer - it's 100% waterproof, has a one-click installation system, soundproof, easy to clean, safe and free of formaldehyde.

Finesse flooring is very hard wearing and made of substantial quality material, making it not only last a lifetime but also offers a long-term investment.

Digital printing with 700dpi and a 1/60 repetition covering 15m²

Integrated underlay for exceptional sound reduction

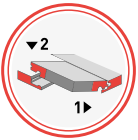

100% waterproof

Child and pet friendly flooring due to being free from formaldehyde

High underfoot comfort for warm, soft feeling

Fast & simple click system

Due to our click system and the integrated sound insulating underlay our floor is easy to install.

Stain resistant

The unique properties of RCB together with the specially developed surface protection result in a floor that is stain resistant and clean.

Anti-slip class R9

A specially developed surface structure ensures more safety, especially in wet rooms.

Easy to clean

Our floors are very easy to clean with just water and soap, as often as you want.

Microscratch protect surface

The unique properties of RCB together with the specially developed surface protection result in a very wear resistant floor.

ABC Anti Bacterial Coating

The anti bacterial coating ensures a clean floor, free from bacteria's. This effect is obtained with the specially developed surface structure of the product and it allows you to install our floors in every room with a clear conscience.

DIRECT INSTALLATION OVER EXISTING FLOORS WITHOUT EXTRA FLOOR LEVELLING

Cleaning and maintenance

Caring for enclosures and bath screens

Caring for shower trays

Cleaning and maintenance of your enclosure and bath screen

To prevent damage and complaints related to both the use and cleaning of your of your enclosure and bath screen, we recommend following the cleaning recommendations provided here. Our guarantee does not cover damage due to improper use or cleaning.

Daily maintenance

- For the easiest maintenance we recommend using one of the Aqualux Pro Series wiper blades to keep your enclosure beautiful, and taking only a few seconds after your shower. These can be installed hanging in the enclosure for maximum convenience.
- For routine cleaning of the glass and aluminum we recommend using warm soapy water followed by rinsing and drying with a soft cloth for best finish.
- Do not allow lime scale to build up in hard water areas.
- Clean the glass regularly using warm soapy water.
- A 50:50 solution of water and vinegar may help to remove water marks. Ensure all vinegar residue is rinsed away with clean water. Alternatively a solution of baking soda and vinegar can be used.

Please note

- Do not use abrasive products or cleaners containing bleach or solvents, scouring pads or any sharp instruments on any of the surfaces.
- Install the enclosure in a well ventilated area, excessive steam can cause mould to grow.

Spare parts

For spare parts visit www.aqualuxbathroom.com and click on spare parts for our easy order guide.

Warranty

- Aqualux offers a up to a 12 year warranty from the date of purchase on the enclosures and up to 10 year on the bath screens.
- Always follow the instructions in the manual during installation.
- The warranty only applies to demonstrable material irregularities and manufacturing errors, insofar as these can be attributed to the product.

For installation drawings please visit www.aqualuxbathroom.com

Cleaning and maintenance of your tray

To prevent damage and complaints related to both the use and cleaning of your tray, we recommend following the cleaning recommendations provided here. Our guarantee does not cover damage due to improper use or cleaning.

Daily maintenance

- Clean regularly with a clean sponge or a damp cloth followed by a soft dry cloth.
- Occasionally use a non-abrasive cleaner to remove stubborn stains and buff with car polish annually to give a perfect finish.
- In hardwater areas, limescale will mark the surface of the tray. To prevent this use a good quality water softener

Please note

- Do not use stiff brushes or abrasive cleaners as, these will damage the surface of the tray.
- The use of rubber mats may cause a reaction with the surface of the tray and is therefore not recommended.
- Some hair dyes may mark the surface of the tray if not fully washed away.

Warranty

- Aqualux offers a up to 25 year warranty from the date of purchase on the tray.
- Always follow the instructions in the manual during installation.
- The warranty only applies to demonstrable material irregularities and manufacturing errors, insofar as these can be attributed to the product.

For installation drawings please visit www.aqualuxbathroom.com

Caring for bathroom accessories and flooring

Cleaning and maintenance of your bathroom accessories

Skin and haircare products like shampoos, shower gels and liquid soaps can damage sanitary fittings. This includes soap residue in soap containers, shampoo and shower gel residue on bottle holders and toilet cleaner residue on the toilet brush handle. To prevent damage and complaints related to both the use and cleaning of your accessories and showers, we recommend following the cleaning recommendations provided here. Our guarantee does not cover damage due to improper use or cleaning.

Daily maintenance

After each use of your accessories we recommend:

- Cleaning the product with a little soap and a moist cloth. There is often no need to use harsh detergents. Rinse and wipe dry after cleaning.
- Rinse your toilet brush thoroughly with water after using toilet cleaners to prevent the cleaning agent from forming residue on the handle and damaging the metal.
- Prevent soap build-up on the end of the soap dispenser pump by cleaning the pump thoroughly and removing all residue. Dried-up soap can damage the metal and clog the pump.
- Prevent lime stains by drying all accessories with a soft cloth immediately after use. If limescale builds up, you can remove it using a mild cleaning agent.

Please note:

The following products damage surfaces and can cause scratching or dulling of your accessories and shower. We advise against using the following products:

- Cleaning agents containing hydrochloric acid, other acids or bleach.
- Household vinegar or cleaning agents containing vinegar.
- Abrasives, scouring pads and microfibre cloths.
- Limescale removers.

Warranty

Aqualux offers a up to a 5 year warranty from the date of purchase on the shower products and up to 12 year warranty from the date of purchase on the accessory products.

- Always follow the instructions in the manual during installation.
- The warranty only applies to demonstrable material irregularities and manufacturing errors, insofar as these can be attributed to the product.

For installation drawings please visit

Product standards

All Aqualux shower enclosures and bath screens are manufactured in accordance with EN14428. This standard requires that all products pass rigorous tests for water retention, durability, stability and cleanability. It also sets the specifications for the quality of the materials and finishes used within the products.

All toughened glass conforms to EN12150.

All Aqualux trays are manufactured in accordance with EN14527.

All Aqualux chromed accessories are manufactured in accordance with EN ISO 1456:2009.

Prices

The prices included in this brochure supersede all previous publications with goods being invoiced at pricing ruling on date of dispatch. Prices are subject to alteration without notice.

Errors & Omissions

In the interest of continuing design and development and product improvement, Aqualux reserve the right to alter product specifications without prior notice. All colours/finishes in this brochure are as accurate as the printing process will allow.

Measurements

All dimensions are in millimeters and are nominal, they are provided as a guidance only. They are not to be used as a template for design.
