

# Velis Pro

**Velis Pro is a compact water heater, boasting an ultra slim design achieved through Ariston's innovative twin tank technology. Thanks to its double tank technology, Velis introduces innovative full comfort features, ensuring minimal heating time and maximum hot water availability\*.**

- / Titanium coated twin tank design
- / Ultra slim – only 27cm deep
- / "Eco Evo" function
- / Electronic control and digital temperature display
- / Anti-legionella and ABS safety system
- / Shower-ready alerts on screen
- / 1.5kW dual incoloy enamelled heating element, ideal for leisure installations
- / Fast re-heat times, Shower-ready in 50 minutes
- / Premium Italian design
- / Available in 45 and 80 litre models
- / Soft touch HMI
- / Must be installed with supplied unvented kit

\* Compared to mechanical product with a single tank

## Double Tank Technology

Velis features **Double Tank Technology**, where each tank is equipped with a specific heating element that can heat independently.

**MORE  
HOT WATER**

The double tank structure allows to minimise the heating time and reduce the heat loss caused by mixing with incoming cold water, **maximising the hot water availability\***. The full electronic control system also provides precise temperature management.

**ECO  
EVO**

**ECO EVO  
FUNCTION**

When you use the ECO EVO function, your water heater **learns your habits in just 15 days**, delivering the right amount of water you need, every time you need it. This function helps you optimise your consumption, preventing energy waste and providing you with the peace of mind you deserve!
