Product Code:	AR2 THLBAS C
Finish:	Chrome plated
Product Type:	Contemporary
Construction:	Bodies are of all brass construction
Valve Type:	Ceramic disc valve
Cartridge Type:	Thermostatic
Supply:	Suitable for nominally equal (balanced) inlet supply pressures only
Inlet Connections:	15mm copper connecting pipes
Working Pressures:	Min 0.2 Bar Max 5.0 Bar

Additional Information

- Dual control – Flow and temperature are controlled separately giving accurate control of both bath and shower functions.
- Thermostatic cartridge maintains showering temperature to +/- 1° C by compensating for changes in the incoming water temperature and pressure giving stable outlet temperature.
- Automatic shut off in the event of hot or cold water supply failure, thus reducing the risk of any injury.
- Factory set to 38°C to eliminate the ability to select unsafe temperature, this can be overridden by the user.
- Chrome plated to BS EN 248.
- This product must have nominally equal (balanced) inlet supply pressures to function correctly. If pressures are unequal, then a pressure reducing valve should be used.
