

Cleargreen Baths

cleargreen[®]
BATHS

Part of the Britton Contemporary Range

A wide range of well designed, high quality baths

Bathing

Britton offers an extensive collection of free-standing, single or double-ended, off-set and showering baths from the Cleargreen range. Each of the baths are manufactured to produce a greener product using 30% recycled material, built stronger to withstand an enormous weight of 2.3 tonnes. The baths manufactured in this way also retain heat for 30 minutes longer than a standard bath providing you with a longer, more relaxing bathe. The combination of the unique manufacturing process and steel re-inforcing rods within the bath rims, make Cleargreen baths the most rigid on the market.

For full technical details go to www.brittonbathrooms.com

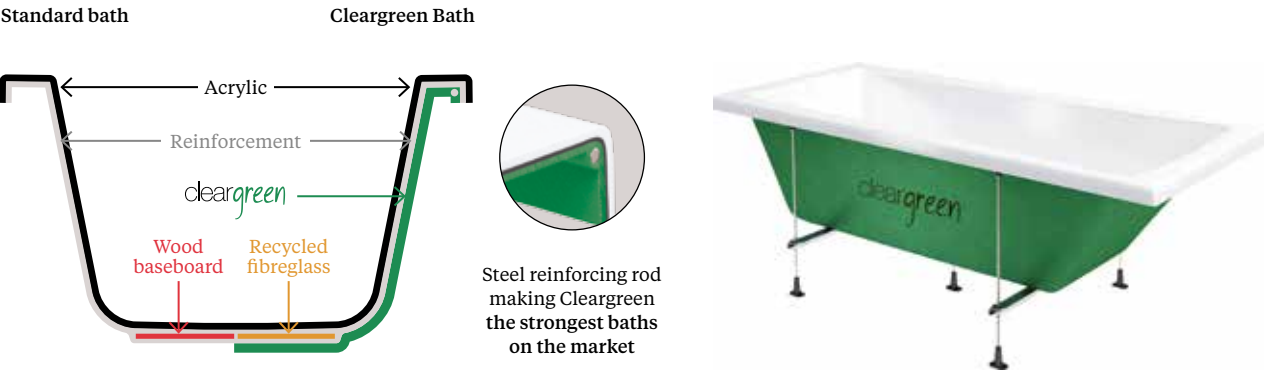

- Looking for a stronger bath?
- > Built stronger to withstand 2.3 tonnes

> Retains heat 30 minutes longer than a standard bath

> 10 year guarantee

> Supplied with galvanised steel leg frame

> Manufactured from 30% recycled material

Why Cleargreen baths are the best

- Built stronger to withstand 2.3 tonnes!
- Retains heat longer than a standard bath
- 10 year guarantee on all Cleargreen baths
- Supplied with galvanised steel leg frame
- Manufactured from 30% recycled material
- Cleargreen baths use encapsulated recycled composite baseboards which is stronger and greener than chipboard
- Cleargreen baths use reinforced quality Lucite acrylic
- 10mm diameter steel reinforcing rod runs inside rectangular bath rims

SUSTAIN SINGLE ENDED BATH - SQUARE

The Sustain provides a square internal shape for those preferring the more geometric and angular look. With the taps situated at one end of the bath, this is a great option to place into corners or against a wall.

10 YEAR GUARANTEE
ON ALL OUR BATHS
See website for details
www.brittonbathrooms/home/guarantee

Optional bath grips (pair)

180cm	90cm	£459
190cm	80cm	£459

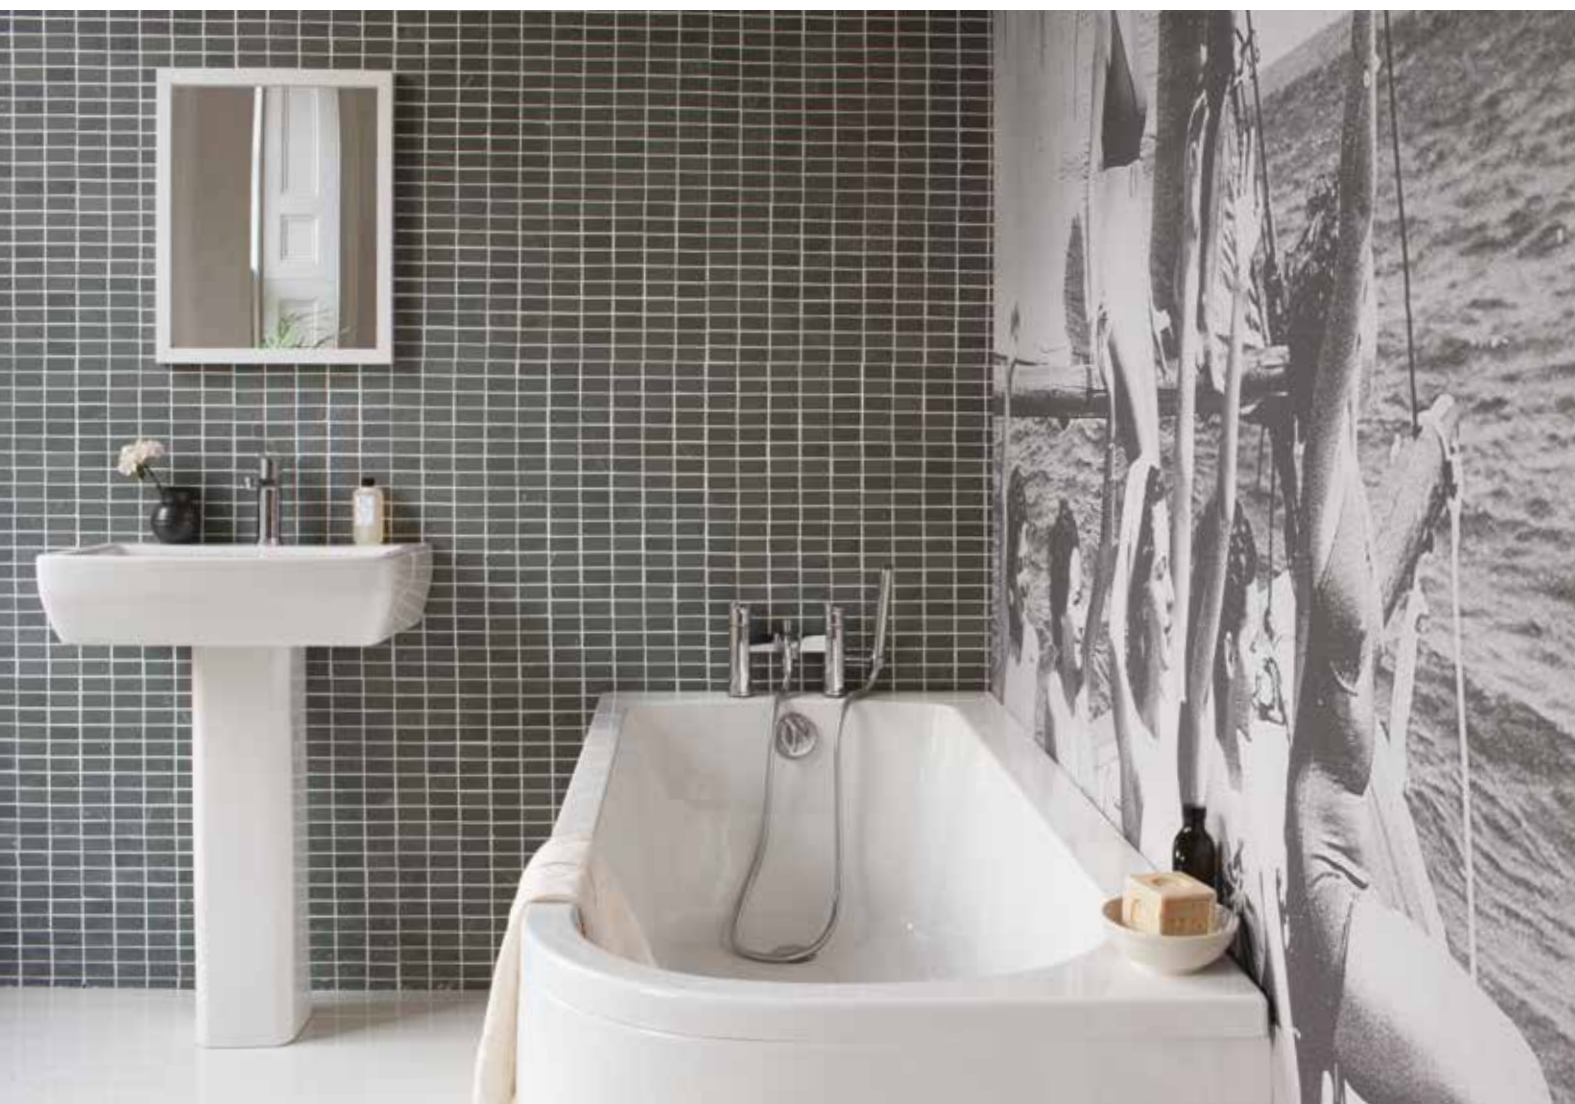

A double-ended bath gives a great amount of flexibility. Place your bath against a wall or into a corner and select the front and end panels you require. Alternatively, set your bath into a boxed unit, which creates a floating appearance and gives you the ability to seamlessly set your bath into its surroundings. The major benefit is that the taps are fitted in the centre of the bath, allowing you to sit at either end of the bath without them in the way.

10 YEAR GUARANTEE
ON ALL OUR BATHS

See website for details
www.brittonbathrooms/home/guarantee

VIRIDE OFFSET BATH This offset bath is available in either right or left-handed options to give you the flexibility of placement within your bathroom. The soft curves gives this bath a contemporary feel and allows the piece to blend harmoniously into its surroundings.

Slotted for use with overflow basins
6cm x 6cm x 7cm W18 £22

Cabinet basin waste bottle trap
Reduces space taken up by normal bottle trap inside cabinet
W26 £11

Cleargreen ergonomics

Practitioners of New Ergonomics believe comfort happens when an equal amount of work is performed by complementary muscle groups, also referred to as ‘tonus’. The ‘Tonus’ school hold the view the legs should be at an angle of 135 degrees to the spine. This keeps the pelvis and therefore the spine in a similar position as walking. At this angle the work of sitting is distributed between the front and back of the spine and along its length most evenly. In the early 1970’s Peter Opsvik created the Norwegian Balans Chair™ in response to this knowledge.

When using a zafu and zabuton, one achieves the desired 135 degree leg-to-spine sitting angle. This is the best position to allow ease of movement, either to get up or to change the angle or direction slightly. Today many people who have been introduced to these ‘devices’ or ‘furniture’ for meditation are finding them completely suitable for other purposes.

New Ergonomics calls for a complete rethinking of the way we design and use furniture. The aim is to incorporate movement and wise use of the body into every activity.

As far as possible (within the constraints of a bath’s shape) all our baths are designed to have the angle between the back and leg between 113° and 133°.

Whenever you are tired and begin to slump, lay down in your ClearGreen® bath for a few minutes to regain energy. Prop your feet up if possible!
