Beautiful *inside* and *out*.

The new **Ceraplan** is more comfortable and ergonomic thanks to adjustments to the spout length and handle height, and easier to clean due to its smoother exterior.

#### IDEALCOMFORT

**Ceraplan** comes in a variety of what we call comfort height. It means **Ceraplan** adapts to the usage you will do of the tap and will make your every day more comfortable. Height options from 60mm to 250mm.

#### EASYFIX+

EasyFix+ system makes fitting quicker and easier than ever. It's up to 50% faster than standard fitting, and 15% faster than our original EasyFix system.

#### BLUESTART

BlueStart delivers only cold water when the tap is in the middle position.

#### LIGHTMOVE

Enjoy a great experience thanks to the light smooth cartridge which ensure that the water flow is just right for you.

#### SMARTSHINE®

**Ceraplan** is now easier to clean, thanks to the smooth lines and absence of recesses, and features SmartShine finish – making fittings feel as though they've always been part of the space, but look brand new.
