

flexible panel sizes

Our range of Nuance panels gives real flexibility to shape the perfect bathroom. The postformed panels and the standard tongue and groove panels can be linked together to create walk-in wetrooms and work with any shower enclosure. And you can finish a wall wherever you please with the versatile 160mm finishing panel. Here we show you what's on offer.

A Postformed panels

The most versatile of our panels for shower enclosures and bath panels.

Features one finished radius edge and one tongue to link to T&G panels.

Size 2420 x 1200mm one finished radius edge and one tongue.

Available in 25 ex-stock designs.

B Tongue and groove panels

Our T&G panels in 600mm widths offer the flexibility for less waste and less cost.

Size 2420 x 600mm tongue and groove.

Available in 25 ex-stock designs.

C Tongue and groove panels

Our T&G panels in 1200mm widths result in less joints, as well as offering the flexibility for less waste and less cost.

Size 2420 x 1200mm tongue and groove.

Available in 25 ex-stock designs.

D 160mm Finishing panels

This panel allows you to finish a run of T&G panels vertically with a neat postformed edge detail, instead of using extrusions. It can also be used as an upstand.

Size 2420 x 160mm one finished radius edge and one tongue.

Available in 25 ex-stock designs.

E Feature panels

With two pre-finished edges, the ideal panel to finish behind WCs and wash basins. It's especially good for cloakrooms and en-suites.

Size 2420 x 580mm with two finished radius edges.

Available in 25 ex-stock designs.
