

ASSEMBLY INSTRUCTIONS

6MM Pivot Door

This Instruction contain installtion with side panel.

BEFORE YOU START, HERE IS SOME IMPORTANT INFORMATION

1) General Information

Please inspect this product upon delivery. any missing parts or manufacturing defects must be reported immediately to the supplier. Damage of defects reported later will not be accepted. **TAKE CARE WHEN HANDLING GLASS PARTS-AVOID HEAVY CONTACT BETWEEN THE GLASS EDGES AND ANY HARD SURFACE.**

Glass breakage claims will not be accepted after the product has been unpacked.

Please note--aluminium is a soft metal, and undergoes a series of extrusion, fabrication, polishing and anodising processes in order to create your finished shower enclosure. Some light surface marks are normal, and is a result of the manufacturing processes. Quality control has ensured that this item is of a good standard, and is fit for purpose.

2) Additional Notes

Please read these instructions carefully before starting installation.
Special care should be taken when drilling walls to avoid hidden pipes or electrical cables.
Note: this product is heavy and may require two people to install.

How to adjust the width of the pivot door

Maximum adjustment

Minimum adjustment

Use a spirit level to make sure the door is square within the frame. There should be an even gap top & bottom between the door and the frame.

7

Note: when fit the bottom seal, can just be cut as two pieces to fit glass. Or which better
Where the bottom seal is to be cut please take care not to fully cut the blade all the way through

8

Silicone (outside edge only) where the vertical profiles meet the wall, and the horizontal profiles meets the tray
