

When you need slimline sanitaryware you need a macerator pump to match. Sanislim needs just 145mm depth behind the WC and, with an inlet either side, it can take waste from a WC, a shower, wash basin and bidet if required.

Why choose this product?

- Designed to fit behind the latest slimline styles of WC
- Deals with all waste from a small bathroom
- Inlets either side of unit

Vertical/horizontal performance

Only 145mm depth required behind the WC. Clearance of 320mm is required from floor level to the underside of a close coupled suite to accommodate the discharge elbow.
