

Twyford

Floor Standing Extension

Maintenance and Care Instructions

Important

Please read these instructions carefully before installation.

Disclaimer

1. The specifications of this product can change without notice as a result of continual product development.
2. These instructions are intended to be a general guide only as specific conditions vary from installation to installation.
3. The images in these instructions are for illustrative purposes only and may vary slightly from the actual product as a result of continual product development.
4. Check the product for defects or damage prior to fitting. Fitting the product is an acceptance that the product is free from defects and Twyford Bathrooms cannot retrospectively accept responsibility for any defects subsequently discovered.

Component Checklist

1. Floor Standing Extension
2. Instruction leaflet

Unpacking

1. Unpack the Extension and rest on a soft grit free surface to avoid scratches or other damage to the surface finish.
2. Check for any defects.

Maintenance

1. It is not recommended that proprietary products be used for cleaning as the vast range of different chemical composition makes it impractical to test individually with the Extension.
2. Do not use scouring pads, abrasive cleaners, or sharp instruments.
3. In hard water areas lime scale removers can be used to remove lime scale deposits if necessary.
4. Clean regularly using warm soapy water.
5. Matt Finish Extension: Deeper cuts can be removed with 1200 grade wet and dry paper.
6. Gloss Finish Extension: Light scratches and abrasions can be removed by rubbing with a soft cloth and liquid cutting compound.
