

VALVES & ACCESSORIES

The **NEW** Oswest Wi-Fi Enabled Smart Heating Element

The new Oswest Wi-Fi Enabled Smart Heating Element connects the latest smart technology with elegant design and reliable home heating.

This must-have heating accessory turns a standard towel rail into an intelligent heat source, controlled by your smartphone 24/7.

A dedicated Oswest App allows you to control heat levels and timings, with anti-freeze and open window functions to reduce your household's energy consumption.
