What's Trending for 2019

The New Year encourages all of us to think outside of the box when it comes to bathroom renovations. Gone are the hard, clean lines of minimalism and in its place, a focus on flair and self-expression. As you browse through this brochure, you'll come across graphic shapes, textured materials and uplifting colours that will hopefully inspire you throughout your journey. But if you're wondering where to start when it comes to creating your dream bathroom, here's a summary of our favourite trends for 2019.

Window Dressing

Black framework continues to evoke the beauty of industrial windows, suppling shower areas with architectural oomph. Whilst you might think this trend is purely for large bathrooms, it's also ideal for increasing the look of small spaces. Our new Velar Walk-Ins on pages 386-389 are designed to do just this.

Multifunctional Furnishings

With the power of tech transforming the home, bathrooms are doing more to optimise functionality. Cool innovations, from customisable units to SMART technology, allow you to accommodate different areas of life in one space. Wireless connectivity, high-quality sound diffusers and hands-free lighting are just some of the new hi-tech features shown on page 150.

This season proves that matchy-matchy pairings don't have to be the norm. Why not embrace different textures by mixing up wood, gloss or chrome fixtures with everything from brass, to rose gold finishes? Personally, we're still in love with the warmth of copper, which works well in both modern and traditional settings. See this trend in more detail on page 260.

Black Matt Finishes

The dramatic glamour of the black matt finish is back for 2019 - but this year we're seeing it used on more and more bathroom fixtures. Taps, radiators and basin wastes are all being infiltrated by this design craze, making it easy to incorporate it in one way or another. Turn to pages 253, 278 and 364 to see how to channel this look in your home.

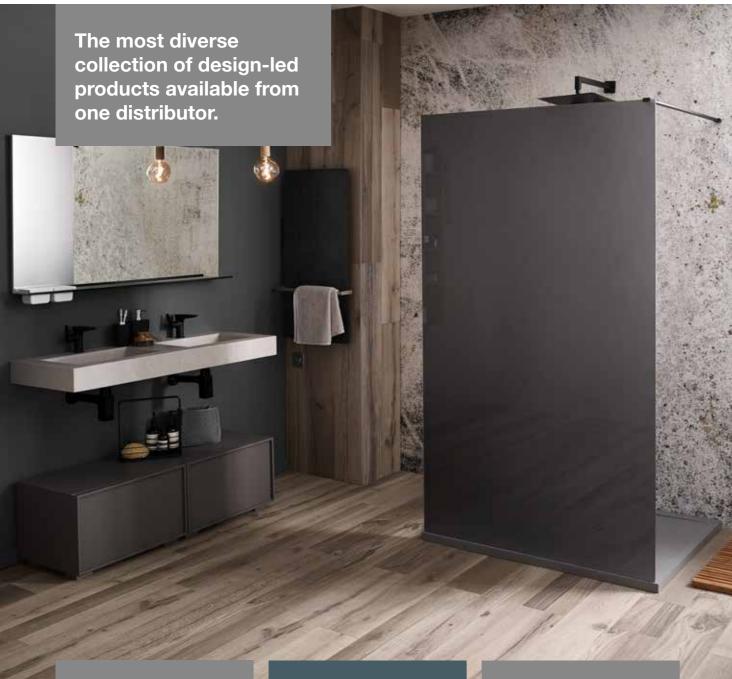

Urban Spaces

Nature-inspired interiors are quickly taking a backseat to urban environments. Designed to celebrate the feel of the modern outdoors, the use of raw, earthy materials like concrete, stone and galvanised steel are becoming more and more visible in the bathroom - and are hard-wearing alternatives to ceramic and chrome. See pages 160-163 for more on this look.

Eclectic Modernism

Bathrooms are going playful with injections of eclectic Modernism. 1920's jazz tiles, irregular shapes and Midcentury influences are used to showcase individuality, offering a cheerful alternative to all-white schemes. Our top pick for this look is our 1950's-inspired furniture finished in candy pop coloured hues on pages 138-141. Guaranteed to make interiors pop.

Compact Rimless

RAK

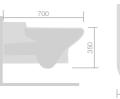

Filled with space-enhancing toilets, this forward-thinking range increases the hygiene level of your bathroom through a rimless toilet design that makes cleaning nooks and crevices fuss free.

450mm basin 1TH 450mm basin 2TH Pedestal (450mm basin) Pedestal (550mm basin)

Rimless toilets mean there's nowhere for germs

to linger, resulting in a significant reduction of bacteria and limescale. As there's no need

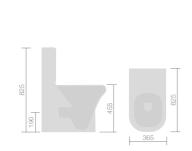

for the cistern to distribute water to the rim, they also improve flush efficiency.

Medici

Inspired by the forward-thinking Renaissance, the Medici range brings the same philosophy to modern bathrooms. It embraces the idea of movement and freedom in the home, with generous heights, well-proportioned shapes, and attentive detailing offering a sense of space and grandeur. Simply give it a try to discover its power for yourself.

Bellisi

Proving minimalist bathrooms don't have to look samey, the breath-taking Bellisi range is a highlight feature of our Italian Collection. Made from smooth, vitreous china ceramic set in a high-gloss glaze, this beautiful selection of structured shapes allows you to achieve a clean and serene interior with plenty of character.

Modo

With its expert and attentive sculpting, it's easy to see why the Modo range boasts a quality like no other. Every aspect of its look is designed to enhance your home, with streamlined shapes, taller frames and slender wrap-over seats all working together to boost the comfort and luxury of your environment. And thanks to a radiant white-ceramic glaze, this range is also incredibly beautiful to look at.

Traditional Toilets Explained...

Our traditional toilets are designed to meet the requirements of your home. Our back-to-wall pans conceal pipework, whilst our close coupled styles save space and expense. If you're looking to create a grand period setting, you'll love how the towering design of our high-level toilets instil regal elegance. Alternatively, our low-level toilets offer timeless style and are especially good for bathrooms with low ceilings.

Practicality or style... why choose?

Our ceramic countertop basins are a great way to get a boutique feel at home.

They sit above units and worktops, helping to keep water off the floor. Amplify their look with floating shelves, or instil a semblance of privacy with his-and-her sinks — the choices really are endless.

Semi-Recess Basins

Semi-recessed basins offer the look of a countertop basin, just with added character. Their pronounced lip hangs over shelves and worktops, creating an eye-catching finish. Our range of styles are also perfect for small interiors.

Whirlpool

In order to provide a little extra luxury in your bathroom, all Frontline baths are available with whirlpool options. There are many options available for you to choose from, as shown on this page, but please be aware that not all options may be suitable for all baths.

To help guide you through the process we have highlighted the best options available for each bath using the symbols shown, but please speak to your local stockist to discern the best fit for your bathroom.

A quick key to finding the right Whirlpool for you...

The Furniture Collection | Kompass

Kompass

Why not break with the norm and embrace a fresh take on iconic, mid-century design? With its classic 1950s influence offset by candy pop hues, Kompass is a collection of bright and cheerful furniture saturated with vintage modern style. Consisting of wall-mounted units, plus optional basin and cabinet extras, it allows you to get creative with your organisation, producing a stunning bathroom look that's refreshingly retro.

Vogue

Surround yourself with the suave glamour of our Vogue range; a collection of fashion-forward furniture that is, quite simply, breathtakingly unique. Taking organic modern style to the max, strong lines, wood textures and exposed copperwork are cleverly combined to create a raw and natural look with elements of indulgence. Vogue can be fitted wall-mounted, or turned into a floor-standing vanity using a copper legset.

Why choose an aluminium radiator? Their incredible heat output makes them five times more efficient than steel. This means aluminium radiators don't have to be switched on for long lengths of time to heat a room. They're also surprisingly lightweight.

Which shower valve to select...

Shower valves offer two functions: they control the flow of your water and the desired temperature.

- Mixer valves mix the hot and cold water flow. The temperature depends on how far you turn the knob or lever.
- Thermostatic valves automatically regulate your temperature, keeping it consistent if water is being used elsewhere in your property.

1-Way Showers

1-way shower valves connect water to a single shower outlet, usually an overhead shower head or slide rail. All of our 1-way valves feature a single handle that controls both the water flow and temperature.

£195

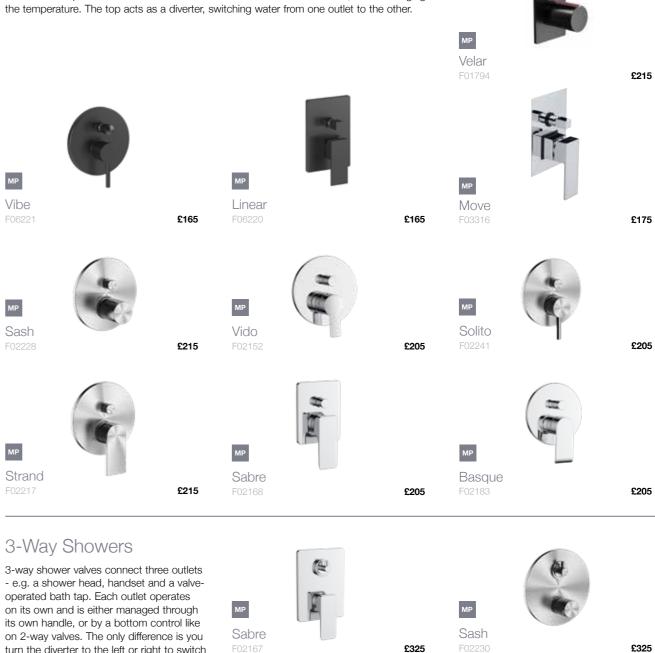

£115

2-Way Showers

2-way shower valves come with two controls, making it possible to operate two shower functions at separate times. The bottom control turns the water on and off, while managing

- e.g. a shower head, handset and a valveoperated bath tap. Each outlet operates on its own and is either managed through its own handle, or by a bottom control like on 2-way valves. The only difference is you turn the diverter to the left or right to switch to the other two outlets.

Concealed Thermostatic Shower Valves

✓ TMV2 Approved

1-Way Showers

Our 1-way thermostatic valves are managed with two controls. They still supply a single outlet, but one handle operates the temperature, while the other offers better flow management. All valves are fitted with an anti-scald shut-off device - keeping you safe in the event of no cold water.

Razor

£495

Pure

£235

£235

2-Way Showers

Twin 2-way valves also have two controls, but one is a diverter that switches water between two outlets. Triple valves feature one temperature control and two on/off controls - allowing you to turn two shower functions on at the same time.

Round concealed thermostatic shower valve with 225mm traditional head and wall-mounted arm £558

Our readymade packs and columns make finding a traditional shower easier. They include a luxury valve and slide rail, and can be used with fixed, mounted or existing shower heads. It's helpful to remember slide rails are used to hold up your shower head. So, if you have young kids who like to shower unsupervised, opting for a hand shower and adjustable rail will give them extra ease.

Traditional valves are great for paying homage to historic periods, but which era is right for your shower? Perhaps it's the Victorian look of the Etros Shower, or the regal elegance of the Georgian Antica? Whatever you choose, you won't go wrong with any of our Holborn valves, which are designed for modern living to help you concentrate on creating your favourite look.

Do you need to install a shower pump?

Only low pressure gravity-fed water systems can be pumped. The flow rate you are currently getting from your water system, combined with the number and type of installations you have in your property, will determine what kind of pump you require.

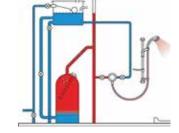

Check with your installer that the cold water storage tank and hot water cylinder are big enough (as the hot water may run out) before purchasing a pump.

All Frontline Deluge shower pumps are fitted with 22mm stainless steel braided hoses and anti-vibration feet.

Low pressure gravity-fed system

This is the most common domestic water system. The system consists of a cold water tank (or cistern) usually situated in your loft and a hot water tank (or cylinder) that is normally in your airing cupboard. It's called a low pressure gravity system because the water is kept under pressure via the gravity-fed water delivered from the cistern.

How much pressure is produced is determined by the height at which the base of the cold water cistern is situated above the outlet. This is typically a minimum height of 1 metre for showers. The greater the height of the cistern above the showerhead the more pressure is

If you have this kind of system you can install a mixer, pumped digital or all-in-one power shower and you will have a great showering experience. If you decide on a mixer and want a more forceful shower, fitting a pump will boost the flow rate and pressure even more.

Deluge centrifugal pump

The luxury Mono walk-in shower is an innovative take on the privacy screen. Its unique, opaque look is actually comprised of three decorative finishes mixed with subtle traces of pigment - giving you a frosted, tinted and contemporary 'ombre' effect in one. Use it to bring a secluded feel to open-plan showers.

Light fittings are assigned an 'IP rating' which indicates how much protection they provide against ingress of water.

The bathroom area is divided up into 'zones' 0-3 with each zone having a minimum IP requirement that must be met if a fitting is to be installed in this zone.

One of a kind

The patented joining system is completely unique, with panels that are connectable along all four sides and the grooves concealed within the panel. This gives an authentic real wood effect floor.

The water-resistant panels ensure a perfect finish in humid spaces, providing a stylish and durable finish throughout your bathroom.

Finesse flooring price per pack (9 panels per pack, 2.21m2)

£145

Finesse Features:

- 100% water resistant
- 3D/HD print
- Easy to clean with an antibacterial coating
- Stain resistant
- Protective coating prevents slipping

An introduction to Aquawall

Aquawall wall tiles provide a great new alternative to traditional bathroom tiles. 100% waterproof, these panels are easily nailed or pasted on to the walls and, if necessary, they can be cut to size with a normal saw. An authentic grout line can be seen and felt, but you no longer need to worry about dirty or crumbling grout as these panels can be easily cleaned. Add to this our stylish aluminium trims and you will have a sleek finish for every bathroom installation.
